ITEM 4: ADVISORY BUSINESS

Who we are

Twin Lakes Capital Management, LLC dba Twin Lakes Capital (referred to as “we,” “our,” “us,” or “Twin Lakes”), has been registered as an investment advisor since January 2007. Our principal officer is Mark G. Kim, Managing Member.

Services we offer

We offer general investment advisory services which includes investments in stocks, bonds, cash products, etc. Our advice is tailored to the needs of the client based on risk tolerance and investment experience. We customize personal asset allocation plans.

For “qualified clients,” we may recommend investing in private investments (i.e., private equity funds, venture capital funds). In order to be considered for this type of an investment, a client must first meet the definition of a “qualified client.” Typically, our clients who are “qualified clients” have \$1,000,000 or more of assets under management with us or have a net worth of \$2,100,000 (excluding the value of his or her primary residence).

Once this is determined, we will identify those clients who are seeking to diversify their portfolio and who do not mind having their assets be illiquid for a period of up to 10 years (a potential term life of a private investment fund). When a client is identified as meeting this criteria, we may recommend a specific private investment at which point all documents associated with the investment (i.e., Offering Memorandum, Subscription Booklet) are forwarded to the client directly from the General Partner of the recommended investment for their review and consideration.

Clients may impose restrictions on investments made in specific securities or types of securities.

We do not provide portfolio management services to a wrap fee program.

Assets under management

As of December 31, 2021, we manage assets of \$301.4 million on a discretionary basis and \$3.0 million on a non-discretionary basis.

ITEM 5: FEES AND COMPENSATION

Advisory Fees & Billing Practices

We receive an asset-based fee of up to 1.25% *per annum* for the management of client accounts. Negotiation is based on the account size and the scope and complexity of the services to be performed. These fees are billed at the beginning of each quarter, based on the assets under management as of the last day of the previous calendar quarter. These fees include financial planning services, when requested by the client.

We have a conflict of interest when providing financial planning advice. When we negotiate our fees, whether financial planning services will be included may be factored into the cost. You are not required to employ us to implement the financial plan, or to implement the plan, or any portion of it, at all.

For qualified clients who participate in a private fund investment as described in Item 4, above, we will receive an asset-based fee of 1% *per annum*, billed quarterly in advance based on the value of the investment as reported by the investment fund. In addition, we will receive a performance fee of 10% of the realized gains in the investment at the end of the investment. These fees are received only on the portion of the account that is invested in the private fund. Performance fee arrangements could create an incentive for us to recommend investments that are riskier or more speculative than would be the case in the absence of the arrangement.

We generally request that you provide authorization for us to deduct our fees directly from your investment account. Following is important information about the deduction of management fees:

- You must provide authorization for us to deduct fees by initialing the appropriate section of our contract.
- You will receive a detailed invoice each quarter which outlines our fees and how they are calculated at the same time we request payment from the custodian.
- You will receive a statement from your custodian which shows your all transactions in your account, including the deduction of our fees.
- You are responsible for reviewing the accuracy of the fees being billed, as the custodian will not do so.

You may elect to pay by check rather than having payment deducted directly from your account.

You may end our advisory relationship by providing 30 days written notice. We will prorate the advisory fees earned through the termination date and send you a refund of the prepaid, unearned portion of your fee. We process refund payments within 2 weeks of the termination date and will send you a check or refund your investment account. In either case we will provide a final invoice detailing the calculation of the refund.

Other Costs Involved

In addition to our advisory fee shown above, you are responsible for paying fees associated with investing for your account. These fees include:

- mutual fund loads (if applicable). These charges are paid to brokers as a form of commission.
- management fees for ETFs and mutual funds. These are fees charged by the managers of the ETF or mutual fund and are a portion of the expenses of the ETF or mutual fund.
- brokerage costs and transaction fees for any securities or fixed income trades. These are generally charged by your custodian and/or executing broker.
- Fees paid to investment managers/funds to which we refer clients.

Additional information about brokerage costs and services is provided in “Item 12: Brokerage Practices.”

We believe the fees mentioned above are competitive; however you may be able to obtain similar services from other sources at a lower price.

ITEM 6: PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We receive performance fees solely for clients who have elected to diversify by placing a portion of their investable assets in a private investment fund that we recommend. We do not receive performance fees for direct management of client accounts.

ITEM 7: TYPES OF CLIENTS

Our clients are typically individuals and families. Generally we require an initial investment commitment of \$3,000,000 of assets under management with us. However, we may waive that minimum at our sole discretion.

ITEM 8: METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

We use macro top down, bottom up fundamental, tactical, event driven strategies. Majority holdings are used for long term growth, tax efficient basis. Minority positions maybe traded which could cause ordinary gains.

We are a long term, value driven investor. Our investment process begins with an on-going top down analysis as it relates to economic, political and investment cycles to determine both macro and individual asset allocation. In conjunction, we perform proprietary bottom up fundamental analysis to select best investments which meets the asset and investment allocation criteria.

Our investment strategies and individual investments are typically defensive bias due to typical client risk profile, but selectively, we may participate in tactical or event driven investments with potential above average risk/reward outcome.

Our risk management involves both asset and investment diversification, however all investments involve different degrees of risk.

All investments involve different degrees of risk. You should be aware of your risk tolerance level and financial situations at all times. We cannot guarantee the successful performance of an investment and we are expressly prohibited from guaranteeing accounts against losses arising from market conditions.

ITEM 9: DISCIPLINARY INFORMATION

Registered investment advisors are required to disclose any material facts regarding certain legal or disciplinary actions that would be material to your evaluation of the investment advisor and each investment advisor representative providing investment advice to you. Disclosure is required for a period of 10 years following the event. Neither Twin Lakes nor Mr. Kim has any items to report that meet these criteria. :

ITEM 10: OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

As a registered investment advisor, we are required to disclose when we, or any of our principals, have any other financial industry affiliations. Neither Twin Lakes nor Mr. Kim has outside business affiliations.

In some circumstances, we recommend that qualified clients invest in a private investment fund managed by a third party, unaffiliated investment advisor. We receive no compensation from the advisor for this recommendation.

ITEM 11: CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Code of Ethics

We have adopted a set of enforceable guidelines (Code of Ethics), which describes unacceptable conduct by Twin Lakes and our associated persons. Summarized, this Code of Ethics prohibits us from:

- placing our interests before yours,
- using non public information gathered when providing services to you for our own gains, or
- engaging in any act, practice or course of business that is, or might be considered, fraudulent, deceptive, manipulative, or in violation of any applicable law, rule or regulation of a governmental agency.

Please contact us if you would like to receive a full copy of this Code of Ethics.

Personal Trading for Associated Persons

We may buy or sell some of the same securities for you that we already hold in our personal account. We may also buy for our personal account some of the same securities that you already hold in your account. It is our policy not to permit our associated persons (or their immediate relatives) to trade in a way that takes advantage of price movements caused by your transactions.

We may restrict trading for a particular security for our accounts or those of our associated person if there is a pending trade in that security in a client account. Trades for our accounts (and those of our associated persons) will be placed as part of a block trade with client trades, or individually after client trades have been completed. Additional information about block trades is provided in the Aggregation of Orders section of "Item 12: Brokerage Practices." When our trades are placed after our client trades, we may receive a better or worse price than that received by the client.

Twin Lakes and its associated persons may purchase or sell specific securities for their own account based on personal investment considerations without regard to whether the purchase or sale of such security is appropriate for clients.

All persons associated with us are required to report all personal securities transactions to us quarterly.

ITEM 12: BROKERAGE PRACTICES

Recommendation of Brokers

In recommending brokers to execute portfolio transactions, we make a good faith judgment of about which broker would be appropriate. We take into consideration not only the available prices and rates of brokerage commissions, but also other relevant factors that may include (without limitation):

- the execution capabilities of the broker/dealer,
- research (including economic forecasts, investment strategy advice, fundamental and technical advice on individual securities, valuation advice and market analysis),
- custodial and other services provided by the broker/dealer that are expected to enhance our general portfolio management capabilities,
- the size of the transaction,
- the difficulty of execution,
- the operational facilities of the broker-dealers involved,
- the risk in positioning a block of securities, and
- the quality of the overall brokerage and research services provided by the broker/dealer.

When we recommend the broker/dealer for a transaction, you may pay a higher commission for effecting a transaction than another broker/dealer would have charged for effecting that transaction. We do this if we determine in good faith that the amount of the commission is reasonable in relation to the value of the brokerage and research services provided by the broker/dealer. The determination is viewed in terms of either the particular transaction or our overall responsibilities to you.

Twin Lakes participates in the institutional advisor program (the “Program”) offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC (“TD Ameritrade”). TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. We receive some benefits from TD Ameritrade through our participation in the Program. Please see Item 14: Client Referrals and Other Compensation” for additional information.

We do not maintain custody of your assets, although we may be deemed to have custody of your assets if you give us authority to withdraw assets from your account (see “Item 15: Custody”). Your assets must be maintained in an account at a “qualified custodian,” generally a broker/dealer or bank. We recommend that our clients use TD Ameritrade as the qualified custodian. We are independently owned and operated and are not affiliated with TD Ameritrade. TD Ameritrade will hold your assets in a brokerage account and buy and sell securities when we instruct them to. While we recommend that you use TD Ameritrade as custodian/broker, you will decide whether to do so and will open your account with TD Ameritrade by entering into an account agreement directly with them. We do not open the account for you, although we may assist you in doing so.

Even though your account is maintained at TD Ameritrade, we can still use other brokers to execute trades for your account. TD Ameritrade charges you a flat dollar amount as a “prime broker” or “trade away” fee for each trade that we have executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into your TD Ameritrade account.

These fees are in addition to the commissions or other compensation you pay the executing broker-dealer. Because of this, in order to minimize your trading costs, we have TD Ameritrade execute most trades for your account. We have determined that having TD Ameritrade execute most trades is consistent with our duty to seek “best execution” of your trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above.

Aggregation of Orders

There are occasions on which portfolio transactions will be executed as part of concurrent authorizations to purchase or sell the same security for another client or one or more of our associated persons.

We may choose to block (aggregate) trades for your account with those of other client accounts and personal accounts of persons associated with Twin Lakes. When we place a block trade, all participants included in the block receive the same price per share on the trade. The price is calculated by averaging the price of all of the shares traded. Due to the averaging of price over all of the participating accounts, aggregated trades could be either advantageous or disadvantageous. Commission costs are not averaged. You will pay the same commission whether your trade is placed as part of a block or on an individual basis. The objective of the aggregated orders will be to allocate the executions in a manner that is deemed equitable to the accounts involved.

Soft Dollars

The regulators consider the receipt of goods and/or services from a third party in connection with providing advice to clients could be seen as “soft dollars.” The additional services we receive from TD Ameritrade, as disclosed in Item 14 below, would fall under this description of soft dollars.

ITEM 13: REVIEW OF ACCOUNTS

A semi-annual review of financial planning and investments is performed by Mark Kim, Managing Member or Frank Yi, Senior Vice President.

We send quarterly statements which include "Overall Asset Allocation," "Portfolio Performance Summary" and "Portfolio Statement" reports.

ITEM 14: CLIENT REFERRALS AND OTHER COMPENSATION

As disclosed in “Item 12: Brokerage Practices,” we participate in TD Ameritrade’s institutional customer program and we may recommend that clients use TD Ameritrade for custody and brokerage services. There is no direct link between our participation in the program and the investment advice it gives to you, although we receive economic benefits through our participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount):

- receipt of duplicate client statements and confirmations;
- research related products and tools;
- consulting services;

- access to a trading desk serving investment advisor participants;
- access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts);
- the ability to have advisory fees deducted directly from client accounts;
- access to an electronic communications network for client order entry and account information;
- access to mutual funds with no transaction fees and to certain institutional money managers; and
- discounts on compliance, marketing, research, technology, and practice management products or services provided to Twin Lakes by third party vendors.

Some of the products and services made available by TD Ameritrade through the program may benefit Twin Lakes but may not benefit its client accounts. These products or services may assist us in managing and administering client accounts, including accounts not maintained at TD Ameritrade. The benefits received by Twin Lakes or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. Clients should be aware, however, that our receipt of economic benefits in and of itself creates a potential conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

We may also engage solicitors to provide client or investor referrals. We pay these solicitors a portion of the fees we earn for managing the client or investor that was referred. If you are referred by a solicitor, this practice will be disclosed in writing and we will comply with applicable rules or statutes.

ITEM 15: CUSTODY

If you give us authority to deduct our fees directly from your separately managed account, we have custody of those assets. In order to avoid additional regulatory requirements in these cases, we follow the procedures outlined in “Item 5: Fees and Compensation.”

For accounts where the client has a standing letter of authorization that allows us to transfer money to third party accounts specified by the client, we are also deemed to have custody. We follow the guidance outlined in the Investment Adviser Association no-action letter dated February 21, 2017, for these accounts. A copy of this letter is available upon request.

Schwab maintains actual custody of your assets. You will receive account statements directly from Schwab at least quarterly. They will be sent to the email or postal mailing address you provided to Schwab. You should carefully review those statements promptly when you receive them. We also urge you to compare Schwab’s account statements to the periodic portfolio reports you will receive from us.

ITEM 16: INVESTMENT DISCRETION

As one of the conditions of managing your account, you are required to provide discretionary authority for us to manage your assets. Discretionary authority means that you are giving us a limited power of

attorney to place trades on your behalf. This limited power of attorney does not allow us to withdraw money from your account, other than advisory fees if you agree to give us that authority.

You grant us discretionary authority by completing the following items:

- Sign a contract with us that provides a limited power of attorney for us to place trades on your behalf. Any limitations to the trading authorization will be added to this agreement.
- Provide us with discretionary authority on the new account forms that are submitted to the broker/dealer acting as custodian for your account(s).

Clients may impose limitations based on their personal beliefs, such as companies dealing in vice, i.e. tobacco companies.

ITEM 17: VOTING CLIENT SECURITIES

We do not accept the authority to vote proxies on your behalf. You will receive proxies and other related paperwork directly from your custodian. Upon request we will provide guidance about voting a specific proxy solicitation.

ITEM 18: FINANCIAL INFORMATION

We do not charge or solicit pre-payment of more than \$1,200 in fees per client six months or more in advance. We have never filed for bankruptcy and are not aware of any financial conditions that are reasonably likely to impair our ability to meet our contractual obligations to clients.
