Item 4: Advisory Business

A. Description of the Advisory Firm

This firm has been in business since March 6, 2007, and the principal owner is Jason Douglas Perkins.

B. Types of Advisory Services

Vestura, LLC (hereinafter “Vestura”) offers the following services to advisory clients:

Investment Supervisory Services

Vestura offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. Vestura creates an Investment Policy Statement for each client, which outlines the client’s current situation (income, tax levels, and risk tolerance levels) and then constructs a plan (the Investment Policy Statement) to aid in the selection of a portfolio that matches each client’s specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

Vestura evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Vestura will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Services Limited to Specific Types of Investments

Vestura limits its investment advice and/or money management to mutual funds, equities, bonds, fixed income, debt securities, ETFs, real estate, hedge funds, third party money managers, REITs, private placements, government securities. Vestura may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

Vestura offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client’s current situation (income, tax levels, and

risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent Vestura from properly servicing the client account, or if the restrictions would require Vestura to deviate from its standard suite of services, Vestura reserves the right to end the relationship.

D. Wrap Fee Programs

Vestura does not participate in any wrap fee programs.

E. Amounts Under Management

Vestura has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$253,917,600	\$0	12/31/2021

Item 5: Fees and Compensation

A. Fee Schedule

Investment Supervisory Services Fees

Total Assets Under Management	Annual Fee
\$0 - \$999,999	1.50%

These fees are negotiable and the final fee schedule is attached as Exhibit II of the Investment Advisory Contract. Clients may terminate their accounts without penalty within 5 business days of signing the advisory contract. Advisory fees are withdrawn directly from the client's accounts with client written authorization.

B. Payment of Fees

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

Vestura's methods of analysis include charting analysis, fundamental analysis, and technical analysis.

Charting analysis involves the use of patterns in performance charts. Vestura uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Technical analysis involves the analysis of past market data; primarily price and volume.

Investment Strategies

Vestura uses long term trading, short term trading, and margin transactions strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Charting analysis strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in solely using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not work long term.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Short term trading and margin transactions generally hold greater risk and clients should be aware that there is a chance of material risk of loss using any of those strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

Vestura generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize Margin transactions. Margin transactions generally hold greater risk of capital loss and clients should be aware that there is a chance of material risk of loss using any of those strategies.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Clients may request a copy of our Code of Ethics from management.

B. Recommendations Involving Material Financial Interests

Vestura does not recommend that clients buy or sell any security in which a related person to Vestura has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of Vestura may buy or sell securities for themselves that they also recommend to clients. Vestura will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of Vestura may buy or sell securities for themselves at or around the same time as clients. Vestura will not trade non-mutual fund or non-ETF securities 5 days prior to or 5 days after trading the same security for clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

The Custodian, Schwab Institutional, a division of Charles Schwab & Co., Inc., was chosen based on their relatively low transaction fees and access to a broad spectrum of investment choices. Vestura will never charge a premium or commission on transactions, beyond the actual cost imposed by Custodian.

1. Research and Other Soft-Dollar Benefits

Vestura receives no research, product, or service other than execution from a broker-dealer or third-party in connection with client securities transactions ("soft dollar benefits").

2. Brokerage for Client Referrals

Vestura receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

Vestura will not allow clients to direct Vestura to use a specific broker-dealer to execute transactions. Clients must use Vestura recommended custodian (broker-dealer). Not all investment advisers require their clients to direct brokerage. By requiring clients to use our specific custodian, Vestura may be unable to achieve most favorable execution of client transactions and this may cost clients money over using a lower-cost custodian.

B. Aggregating (Block) Trading for Multiple Client Accounts

Vestura maintains the ability to block trade purchases across accounts but will rarely do so. While block trading may benefit clients by purchasing larger blocks in groups, we do not feel that the clients are at a disadvantage due to the best execution practices of our custodian.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

Client accounts are reviewed at least quarterly by Jason Perkins. Jason Perkins is the chief advisor and is instructed to review clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at Vestura are assigned to this reviewer.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least quarterly a written report detailing the clients account which may come from the custodian.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

Vestura does not receive any economic benefit, directly or indirectly from any third party for advice rendered to Vestura clients.

B. Compensation to Non -Advisory Personnel for Client Referrals

Vestura does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

Vestura does not take custody of client accounts at any time. Custody of client's accounts is held primarily at Schwab Institutional, a division of Charles Schwab & Co., Inc. Clients will receive account statements from the custodian and should carefully review those statements. Vestura urges clients to compare the account statements they receive from the custodian with those they received from Vestura.

Item 16: Investment Discretion

For those client accounts where Vestura provides ongoing supervision, Vestura maintains limited power of authority over client accounts with respect to securities to be bought and sold and amount of securities to be bought and sold. All buying and selling of securities is explained to clients in detail before an advisory relationship has commenced.

Item 17: Voting Client Securities (Proxy Voting)

Vestura will accept voting authority for client securities in certain cases. When Vestura does accept voting authority for client securities, it will always seek to vote in the best interests of its clients. Vestura does not maintain preapproved voting guidelines but relies on the investment committee to determine the appropriate course of action in voting client securities that is in the best interest of the client. Clients may direct Vestura on how to vote client securities by communicating their wishes in writing or electronically to Vestura. When voting client proxies the investment committee will always hold the interests of the clients above its own interests.

Clients of Vestura may obtain the voting record of Vestura on client securities by contacting Vestura at phone number or e-mail address listed on the cover page of this brochure. Clients may obtain a copy of Vestura's proxy voting policies and procedures upon request.

Item 18: Financial Information

A. Balance Sheet
