Item 4 – Advisory Services

A. Firm Information

Capstone Triton Financial Group LLC (formerly known as Capstone Financial Group, Inc.) (“CTFG” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). The Advisor is organized as a limited liability company under the laws of the State of Oklahoma. CTFG was founded in February 2020. CTFG is wholly owned by the Andrew Oster Revocable Trust, LLC, Andrew E. Oster owns the Andrew Oster Revocable Trust and serves as the Executive Vice President and Chief Compliance Officer (CCO) of CTFG. This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by CTFG.

B. Advisory Services Offered

CTFG offers investment advisory services to individuals, high net worth individuals, corporations, pensions and profit-sharing plans (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. CTFG’s fiduciary commitment is further described in the Advisor’s Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

Wealth Management Services

CTFG may provide Clients with wealth management services, which generally includes a broad range of comprehensive financial planning and consulting services in connection with discretionary management of investment portfolios. These services may also be offered on a stand-alone basis and are described below.

Investment Management Services – CTFG provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and related advisory services. CTFG works closely with each Client to identify their investment goals and objectives, risk tolerance and financial situation in order to create a portfolio strategy. CTFG will then construct an investment portfolio, primarily consisting of individual stocks, bonds, mutual funds, and exchange-trade funds (“ETFs”) to achieve the Client’s investment goals. The Advisor may retain certain types of investments based on a Client’s legacy portfolio construction.

CTFG will select, recommend and/or retain mutual funds on a fund by fund basis. Due to specific custodial and/or mutual fund company constraints, material tax consideration, and/or systematic investment plans, CTFG will select, recommend and/or retain a mutual fund share class that does not have trading costs, but do have higher internal expense ratios than institutional share classes. CTFG will seek to select the lowest cost share class available that is in the best interest of each Client and will ensure the selection aligns with the Client’s financial objectives and stated investment guidelines.

CTFG’s investment approach is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. CTFG will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

CTFG evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. CTFG may recommend, on occasion, redistributing investment allocations to diversify the portfolio. CTFG may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. CTFG may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s]

in the portfolio, change in risk tolerance of the Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client's risk tolerance.

Retirement Accounts – When the Advisor provides investment advice to Clients regarding ERISA retirement accounts or individual retirement accounts (“IRAs”), the Advisor is a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act (“ERISA”) and/or the Internal Revenue Code (“IRC”), as applicable, which are laws governing retirement accounts. When deemed to be in the Client's best interest, the Advisor will provide investment advice to a Client regarding a distribution from an ERISA retirement account or to roll over the assets to an IRA, or recommend a similar transaction including rollovers from one ERISA sponsored Plan to another, one IRA to another IRA, or from one type of account to another account (e.g. commission-based account to fee-based account). Such a recommendation creates a conflict of interest if the Advisor will earn a new (or increase its current) advisory fee as a result of the transaction. No client is under any obligation to roll over a retirement account to an account managed by the Advisor.

At no time will CTFG accept or maintain custody of a Client's funds or securities, except for the limited authority as outline in Item 15 – Custody. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the Client investment advisory agreement. Please see Item 12 – Brokerage Practices.

Financial Planning and Consulting Services – CTFG will typically provide a variety of financial planning and consulting services to Clients, pursuant to a written financial planning agreement. Services are offered in several areas of a Client's financial situation, depending on their goals and objectives.

Generally, such financial planning services involve preparing a formal financial plan or rendering a specific financial consultation based on the Client's financial goals and objectives. Financial consulting may involve preparing a consulting report, but such a report is not required. This planning or consulting may encompass one or more areas of need, including but not limited to, investment planning, retirement planning, personal savings, education savings, insurance needs and other areas of a Client's financial situation.

A financial plan developed for, or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and/or charitable giving programs.

CTFG may also refer Clients to an accountant, attorney or other specialists, as appropriate for their unique situation. For certain financial planning engagements, the Advisor will provide a written summary of the Client's financial situation, observations, and recommendations. For consulting or ad-hoc engagements, the Advisor may not provide a written summary. Plans or consultations are typically completed within six (6) months of contract date, assuming all information and documents requested are provided promptly.

Financial planning and consulting recommendations pose a conflict between the interests of the Advisor and the interests of the Client. For example, the Advisor has an incentive to recommend that Clients engage the Advisor for investment management services or to increase the level of investment assets with the Advisor, as it would increase the amount of advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor.

Retirement Plan Advisory Services

CTFG provides retirement plan advisory services on behalf of the retirement plans (each a “Plan”) and the company (the “Plan Sponsor”). The Advisor's retirement plan advisory services are designed to assist the Plan Sponsor in meeting its fiduciary obligations to the Plan and its Plan Participants. Each engagement is customized to the needs of the Plan and Plan Sponsor. Services generally include:

- Vendor Analysis

- Plan Participant Enrollment and Education Tracking
- Investment Policy Statement (“IPS”) Design and Monitoring
- Investment Management Services (ERISA 3(38))
- Performance Reporting
- Ongoing Investment Recommendation and Assistance
- ERISA 404(c) Assistance

These services are provided by CTFG serving in the capacity as a fiduciary under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). In accordance with ERISA Section 408(b)(2), the Plan Sponsor is provided with a written description of CTFG’s fiduciary status, the specific services to be rendered and all direct and indirect compensation the Advisor reasonably expects under the engagement.

C. Client Account Management

Prior to engaging CTFG to provide investment advisory services, each Client is required to enter into a written agreement with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – CTFG, in connection with the Client, will develop a strategy that seeks to achieve the Client’s goals and objectives.
- Asset Allocation – CTFG will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Portfolio Construction – CTFG will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – CTFG will provide investment management and ongoing oversight of the Client’s investment portfolio.

D. Wrap Fee Programs

CTFG does not manage or place Client assets into a wrap fee program. Investment management services are provided directly by CTFG.

E. Assets Under Management

As of December 31, 2021 CTFG manages \$274,853,195 in Client assets, \$266,619,166 of which are managed on a discretionary basis and \$8,234,029 on a non-discretionary basis. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client engaging the Advisor for services described herein shall be required to enter into a written agreement with the Advisor.

A. Fees for Advisory Services

Wealth Management Services / Investment Management Services

Investment advisory fees may be billed either quarterly or monthly (herein the “Billing Period”), in advance of or at the end of each Billing Period, pursuant to the terms of the agreement. Investment advisory fees are based on the market value of assets under management at the end of the respective calendar period. Investment advisory fees range from 0.25% to 1.50% annually based on several factors, including: the complexity of the services to be provided, the level of assets to be managed, and the overall relationship with the Advisor. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

The investment advisory fee in the first Billing Period of service is prorated from the inception date of the account[s] to the end of the first period. Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by CTFG will be independently valued by the designated Custodian. CTFG will conduct periodic reviews of the Custodian's valuations.

The Advisor's fee is exclusive of, and in addition to, brokerage fees, transaction fees, and other related costs and expenses, which may be incurred by the Client. However, the Advisor shall not receive any portion of these commissions, fees, and costs.

Financial Planning and Consulting Services

CTFG offers financial planning services either on an hourly basis or for a fixed fee. Hourly fees range up to \$200. Fixed fees range up to \$10,000. Fees may be negotiable based on the nature and complexity of the services to be provided and the overall relationship with the Advisor. An estimate for total hours and total costs will be provided to the Client prior to engaging for these services.

Retirement Plan Advisory Services

Fees for retirement plan advisory services are charged an annual asset-based fee of up to 1.00% and are billed in arrears, pursuant to the terms of the retirement plan advisory agreement. Retirement plan advisory fees are based on the market value of assets under management at the end of the prior month. Fees may be negotiable depending on the size and complexity of the Plan.

B. Fee Billing

Wealth Management Services / Investment Management Services

Investment advisory fees are calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the respective Billing Period date. The amount due is calculated by applying the Billing Period rate (annual rate divided by 12 or 4) to the total assets under management with CTFG at the end of each Billing Period. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting CTFG to be paid directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Financial Planning and Consulting Services

Financial planning fees are invoiced by the Advisor and are due upon completion of the agreed upon deliverable[s].

Retirement Plan Advisory Services

Retirement plan advisory fees may be directly invoiced to the Plan Sponsor or deducted from the assets of the Plan, depending on the terms of the retirement plan advisory agreement.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties, other than CTFG, in connection with investments made on behalf of the Client's account[s]. The Advisor's recommended Custodian does not charge securities transaction fees for ETF and equity trades in a Client's account, provided that the account meets the terms and conditions of the Custodian's brokerage requirements. Exchange processing fees may still be imposed by the Custodian on ETF and equity trades. However, the Custodian typically charges for mutual funds and other types of investments. The Client is responsible for all custody and securities execution fees charged by the Custodian. The fees charged by CTFG are separate and distinct from these custody and execution fees.

In addition, all fees paid to CTFG for investment advisory services are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of CTFG, but would not receive the services provided by CTFG which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by CTFG to fully understand the total fees to be paid. Additionally, as noted above, the Advisor will select share classes which do not have trading costs, but do have higher internal expense ratios than institutional share classes. Please refer to Item 12 – Brokerage Practices for additional information.

D. Advance Payment of Fees and Termination

Wealth Management Services / Investment Management Services

CTFG is compensated for its services either in advance of or at the end of each Billing Period. Either party may terminate the investment advisory agreement, at any time, by providing advance written notice to the other party. Upon termination, advisory fees billed in advance will be prorated and refunded to the Client's account[s] as of the effective date of the termination. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Financial Planning and Consulting Services

CTFG is compensated for its services upon completion of the engagement deliverable[s]. Either party may terminate the financial planning agreement by providing advance written notice to the other party. The Client may also terminate the financial planning agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Client shall be billed for actual hours logged on the planning project times the contractual hourly rate or in the case of a fixed fee engagement, the percentage of the engagement scope completed by the Advisor. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

Retirement Plan Advisory Services

CTFG is compensated for its services at the end of the month after advisory services are rendered. Either party may terminate the retirement plan advisory agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the retirement plan advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. The Client's retirement plan advisory agreement with the Advisor is non-transferable without the Client's prior consent.

E. Compensation for Sales of Securities

Insurance Agency Affiliations

The Advisor is a licensed insurance agency, and as such, may offer insurance products on a commission basis. The Advisor shall generally introduce the client to an unaffiliated insurance agency to manage the insurance process. The Advisor shall receive a portion of the insurance commission earned by the unaffiliated insurance agency. No client shall be under any obligation to purchase any insurance products from the Advisor or such introduced insurance agency. The recommendation by an Advisory Person that a Client purchase an insurance product presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend insurance products based on commissions to be received, rather than based on a particular Client's need. Clients are reminded that they remain free to purchase insurance products through other insurance agencies.

Riskalyze

CTFG will pay a reduced Riskalyze platform fee if No Platform Fee ETFs are utilized in Client accounts. This reduction in the cost to the platform fee is a conflict of interest. This conflict is mitigated due to the investment process in determining which ETFs will be utilized in Client accounts. CTFG conducts due diligence regarding the ETFs to be utilized and does not base its recommendations on whether the ETF is part of the No Platform fee program or not.

Item 6 – Performance-Based Fees and Side-By-Side Management

CTFG does not charge performance-based fees for its investment advisory services. The fees charged by CTFG are as described in Item 5 above and are not based upon the capital appreciation of the funds or securities held by any Client.

CTFG does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

CTFG offers investment advisory services to individuals, high net worth individuals, corporations, pensions and profit-sharing plans. The amount of each type of Client is available on CTFG's Form ADV Part 1A. CTFG generally does not impose a minimum relationship size.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

CTFG primarily employs fundamental, technical, and cyclical analysis methods in developing investment strategies for its Clients. Research and analysis from CTFG is derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

CTFG's Investment Committee's purpose is to manage and review CTFG's investment policies and guidelines, model investment portfolios or any other collection of securities, defined contribution plan investment menu (collectively "Portfolios"). The Investment Committee membership includes Richard DiAngelo (Committee Chair), Michael Dunham, Andrew Oster, and Mara Scott.

Fundamental

Fundamental analysis utilizes economic and business indicators as investment selection criteria. This criteria consists generally of ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Technical

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to clients. Technical analysis may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that CTFG will be able to accurately predict such a reoccurrence.

Cyclical

Cyclical analysis is similar to technical analysis in that it involves the analysis of market conditions at a macro (entire market/economy) or micro (company specific) level, rather than the overall fundamental analysis of the health of the particular company that CTFG is recommending. The risks with cyclical analysis are similar to those of technical analysis.

As noted above, CTFG generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. CTFG will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, CTFG may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. CTFG will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. The following are some of the risks associated with certain components of the Advisor's investment approach:

Market Risks

The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks

The performance of ETFs are subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Bond Risks

Bonds are subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond's time to maturity, and the coupon rate of the bond. (2) re-investment risk, i.e. the risk that any profit gained must be reinvested at a lower

rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return, (4) credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation, (5) rating downgrades, i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as there is no readily available market for the bond.

Mutual Fund Risks

The performance of mutual funds are subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

Securities laws require an advisor to disclose any instances where the Advisor or its Advisory Persons have been found liable in a legal, regulatory, civil or arbitration matter that alleges violation of securities and other statutes; fraud; false statements or omissions; theft, embezzlement or wrongful taking of property; bribery, forgery, counterfeiting, or extortion; and/or dishonest, unfair or unethical practices.

In 2010, Mr. Dunham entered into an Acceptance, Waiver and Consent (AWC) with FINRA. Without admitting or denying findings, Mr. Dunham consented to a \$10,000 fine and a 20-day suspension from associating with any Member firm from May 3, 2010 through May 28, 2010. Additional details may be found on the IAPD by searching with Michael P. Dunham or using his individual CRD#1214230.

Item 10 – Other Financial Industry Activities and Affiliations

Insurance Agency Affiliations

The Advisor is a licensed insurance agency, and as such, may offer insurance products on a commission basis. The Advisor shall generally introduce the client to an unaffiliated insurance agency to manage the insurance process. The Advisor shall receive a portion of the insurance commission earned by the unaffiliated insurance agency. No client shall be under any obligation to purchase any insurance products from the Advisor or such introduced insurance agency. The recommendation by an Advisory Person that a Client purchase an insurance product presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend insurance products based on commissions to be received, rather than based on a particular Client's need. Clients are reminded that they remain free to purchase insurance products through other insurance agencies.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

CTFG has implemented a Code of Ethics (the "Code") that defines the Advisor's fiduciary commitment to each Client. This Code applies to all persons associated with CTFG ("Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to the Client. CTFG and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of CTFG's Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of the Code, please contact the Advisor at (405) 848-4646.

B. Personal Trading with Material Interest

CTFG allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. CTFG does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund or advise an investment company. CTFG does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

CTFG allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that are recommended (purchase or sell) to Clients presents a conflict of interest that, as fiduciaries, must be disclosed to Clients and mitigated through policies and procedures. As noted above, the Advisor adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by CTFG requiring reporting of personal securities trades by its Supervised Persons for review by the Chief Compliance Officer ("CCO") or delegate. CTFG has also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While CTFG allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterward. **At no time will CTFG, or any Supervised Person of CTFG, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

CTFG does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize CTFG to direct trades to this Custodian as agreed in the investment advisory agreement. Further, CTFG does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

Where CTFG does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for custody and execution services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost associated with using a custodian not recommended by CTFG. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. CTFG may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and location of the Custodian's offices. CTFG will generally recommend that Clients establish their account[s] at Charles Schwab & Co., Inc ("Schwab"), a FINRA-registered broker-dealer and member SIPC. Schwab will serve as the Client's "qualified custodian". CTFG maintains an institutional relationship with Schwab, whereby the Advisor receives economic benefits from Schwab. Please see Item 14 below.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with the broker/dealers/custodians in exchange for research and other services. **CTFG does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor receives certain economic benefits from the Custodian. Please see Item 14 below.**

2. Brokerage Referrals - CTFG does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a “directed brokerage basis”, where CTFG will place trades within the established account[s] at the custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor’s own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client’s account[s]). CTFG will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the designated Custodian. The Advisor may not be able to aggregate orders to reduce transaction costs in a Client directed brokerage account.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the broker-dealer/custodian. CTFG will execute its transactions through the Custodian as authorized by the Client.

CTFG may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by the CTFG Investment Committee. Formal reviews are generally conducted at least annually or more frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client’s request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client’s financial situation, and/or large deposits or withdrawals in the Client’s account[s]. The Client is encouraged to notify CTFG if changes occur in the Client’s personal financial situation that might adversely affect the Client’s investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian’s website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client’s account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by CTFG

CTFG is a fee-based advisory firm that is compensated solely by its Clients and not from any investment product. CTFG does not receive commissions or other compensation from product sponsors, broker-dealers or any unrelated third party. CTFG may refer Clients to various unaffiliated, non-advisory professionals (e.g. attorneys,

accountants, estate planners) to provide certain financial services necessary to meet the goals of its Clients. Likewise, CTFG may receive non-compensated referrals of new Clients from various third-parties.

Participation in Institutional Advisor Platform

CTFG has established an institutional relationship with Schwab through its “Schwab Advisor Services” unit, a division of Schwab dedicated to serving independent advisory firms like CTFG. As a registered investment advisor participating on the Schwab Advisor Services platform, CTFG receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services. *Services that Benefit the Client* – Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client’s funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, the ability to deduct advisory fees, trading tools, and back office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients, but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services to CTFG that may not benefit the Client, including: educational conferences and events, financial start-up support, consulting services and discounts for various service providers. Access to these services creates a financial incentive for the Advisor to recommend Schwab, which results in a potential conflict of interest. CTFG believes, however, that the selection of Schwab as Custodian is in the best interests of its Clients.

B. Client Referrals from Solicitors

CTFG does not engage paid solicitors for Client referrals.

Item 15 – Custody

CTFG does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor’s fees. All Clients must place their assets with a “qualified custodian”. Clients are required to engage the Custodian to retain their funds and securities and direct CTFG to utilize that Custodian for the Client’s security transactions. Clients should review statements provided by the Custodian and compare to any reports provided by CTFG to ensure accuracy, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 – Brokerage Practices.

Item 16 – Investment Discretion

CTFG generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by CTFG. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client’s execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by CTFG will be in accordance with each Client’s investment objectives and goals.

Item 17 – Voting Client Securities

CTFG accepts proxy-voting responsibility for securities held in Client accounts when provided by the Client. The advisory agreement between CTFG and the Client will generally specify whether or not CTFG has the authority to vote proxies on behalf of a particular Client.

Proxy Voting Policy and Procedures

CTFG shall vote proxies in the best interest of its Clients and shall not subrogate the Client interest to its own. CTFG monitors corporate actions through the Custodian. CTFG receives notice of upcoming proxy votes, meeting and record dates and other information on upcoming corporate actions by companies in which CTFG Clients are shareholders. Clients may request a copy of CTFG's proxy voting records, free of charge, by contacting CTFG.

Conflicts of Interest in the Voting Process

On occasion, a conflict of interest may exist between the Advisor and the Client regarding the outcome of certain proxy votes. In such cases, the Advisor is committed to resolving the conflict in the best interest of the Clients before the Advisor votes the proxy in question.

Client Direction of Voting

Although most Clients for whom the Advisor votes proxies authorize the Advisor to vote in accordance with the Advisor's proxy voting policy, a Client may request that CTFG vote its proxies in accordance with a different policy. CTFG will seek to accommodate such requests. In addition, a Client may direct CTFG to vote its securities in a particular way on a particular proposal and the Advisor will seek to do so, assuming timely receipt of the instruction.

Item 18 – Financial Information

Neither CTFG, nor its management, have any adverse financial situations that would reasonably impair the ability of CTFG to meet all obligations to its Clients. Neither CTFG, nor any of its Advisory Persons, has been subject to a bankruptcy or financial compromise. CTFG is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect advance fees of \$1,200 or more for services to be performed six months or more in the future.
