Item 9: Additional Information	9
Item 10: Requirements For State Registered Advisers	11

Item 4: Advisory Business

A. Description of the Advisory Firm

Circular Wealth Advisors, Inc. (hereinafter "CWA") provides "robo-advisory" portfolio management services via an online interface to clients under this wrap fee program as sponsor and portfolio manager.

Total Assets Under Management	Annual Fee
\$1 - \$250,000	0.89%
\$250,001 - \$1,000,000	0.75%
\$1,000,001 - AND UP	0.69%

These fees are generally negotiable and the final fee schedule will be memorialized in the client's advisory agreement.

Robo-advisory portfolio management fees are withdrawn directly from the client's accounts with client's written authorization on a monthly basis.

Fees are paid in arrears. CWA uses an average of the daily balance in the client's account throughout the billing period, after taking into account deposits and withdrawals, for purposes of determining the market value of the assets upon which the advisory fee is based.

Clients may terminate the agreement without penalty, for full refund of CWA's fees, within five business days of signing the Investment Advisory Contract. Thereafter, clients may terminate the Investment Advisory Contract immediately upon written notice.

B. Contribution Cost Factors

The program may cost the client more or less than purchasing such services separately. There are several factors that bear upon the relative cost of the program, including the trading activity in the client's account, the adviser's ability to aggregate trades, and the cost of the services if provided separately (which in turn depends on the prices and specific services offered by different providers).

C. Additional Fees

CWA will wrap third party fees (i.e., custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.) for wrap fee portfolio management accounts. CWA will charge clients one fee and pay all transaction fees using the fee collected from the client. Accounts participating in the wrap fee program are not charged higher advisory fees

based on trading activity, but clients should be aware that CWAI has an incentive to limit trading activities for those accounts since the firm absorbs those transaction costs.

Certain other fees are not included in the wrap fee and are paid for separately by the client. These include, but are not limited to, margin costs, charges imposed directly by a mutual fund or exchange traded fund, fees associated with “step out” transactions if the account uses different custodians or broker-dealers, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions.

D. Compensation of Client Participation

Neither CWAI, nor any representatives of CWAI receive any additional compensation beyond advisory fees for the participation of client’s in the wrap fee program. However, compensation received may be more than what would have been received if client paid separately for investment advice, brokerage, and other services. Therefore, CWAI may have a financial incentive to recommend the wrap fee program to clients.

Item 5: Types of Clients

CWAI generally offers advisory services to Individuals

There is no account minimum.

Item 6: Portfolio Manager Selection and Evaluation

A. Selecting/Reviewing Portfolio Managers

CWAI will not select outside portfolio managers for management of this wrap fee program. CWAI will be the sole portfolio manager for this wrap fee program.

CWAI will use industry standards to calculate portfolio manager performance.

CWAI reviews the performance information to determine and verify its accuracy and compliance with presentation standards. The performance information is quarterly and is reviewed by CWAI.

B. Related Persons

CWAI and its personnel serve as the portfolio managers for all wrap fee program accounts. This is a conflict of interest in that no outside adviser assesses CWAI’s management of the wrap fee program. However, CWAI addresses this conflict by acting

in its clients' best interest consistent with its fiduciary duty as sponsor and portfolio manager of the wrap fee program.

C. Advisory Business

CWAI provides "robo-advisory" portfolio management services via an online interface. This entails the use of algorithm-based portfolio management advice, rather than in-person investment advice. These automated investment solutions are customized to each client and based on individual characteristics, such as the client's age, risk tolerance, income, and current assets, among others. CWAI only provides "robo-advisory" portfolio management services via an online interface. CWAI does not provide any other services.

CWAI evaluates the current investments of each client with respect to their risk tolerance levels and time horizon.

CWAI will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction.

Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Portfolio management accounts participating in the wrap fee program will not have to pay for transaction or trading fees. CWAI will charge clients one fee, and pay transaction fees using the advisory fee collected from the client. Certain other fees are not included in the wrap fee and are paid for separately by the client. These include, but are not limited to, margin costs, charges imposed directly by a mutual fund or exchange traded fund, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions.

Accounts participating in the wrap fee program are not charged higher advisory fees based on trading activity, but clients should be aware that CWAI has an incentive to limit trading activities for those accounts since the firm absorbs those transaction costs. To address this conflict, CWAI will always act in the best interest of its clients consistent with its fiduciary duty as an investment adviser.

Services Limited to Specific Types of Investments

CWAI generally limits its investment advice to equities, and ETFs, although CWAI primarily recommends ETFs. CWAI may use other securities as well to help diversify a portfolio when applicable.

Client Tailored Services and Client Imposed Restrictions

CWAI offers the same suite of services to all of its clients. However, specific client

investment strategies and their implementation are dependent upon the client's current situation (income, tax levels, and risk tolerance levels). Clients are not permitted to impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

Wrap Fee Programs

As discussed herein, CWAI sponsors and acts as portfolio manager for this wrap fee program. CWAI manages the investments in the wrap fee program. The fees paid to the wrap account program will be given to CWAI as a management fee.

Amounts Under Management

CWAI has the following assets under management:

Discretionary Amounts:	Non-Discretionary Amounts:	Date Calculated:
\$385,405.00	\$0	December 31, 2021

Performance-Based Fees and Side-By-Side Management

CWAI does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Clients paying a performance-based fee should be aware that investment advisers have an incentive to invest in riskier investments when paid a performance-based fee due to the higher risk/higher reward attributes.

Methods of Analysis and Investment Strategies

Methods of Analysis

CWAI's methods of analysis include fundamental analysis and fundamental analysis.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Modern portfolio theory is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various assets.

Investment Strategies

CWAI uses/recommends long term investing.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Material Risks Involved

Methods of Analysis

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Modern portfolio theory assumes that investors are risk averse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

Investment Strategies

Long term investing is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Risks of Specific Securities Utilized

Equity investment generally refers to buying shares of stocks in return for receiving a future payment of dividends and/or capital gains if the value of the stock increases. The value of equity securities may fluctuate in response to specific situations for each company, industry conditions and the general economic environments.

Exchange Traded Funds (ETFs): An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Because ETFs use "authorized participants" (APs) as agents to facilitate creations or redemptions (primary market), there is a risk that an AP decides to no longer participate for a particular ETF; however,

that risk is mitigated by the fact that other APs can step in to fill the vacancy of the withdrawing AP [an ETF typically has multiple APs] and ETF transactions predominantly take place in the secondary market without need for an AP. Like other liquid securities, ETF pricing changes throughout the trading day and there can be no guarantee that an ETF is purchased at the optimal time in terms of market movements. Moreover, due to market fluctuations, ETF brokerage costs, differing demand and characteristics of underlying securities, and other factors, the price of an ETF can be lower than the aggregate market price of its cash and component individual securities (net asset value – NAV). An ETF is subject to the same market risks as those of its underlying individual securities, and also has internal expenses that can lower investment returns.

Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Voting Client Securities (Proxy Voting)

CWAI will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 7: Client Information Provided to Portfolio Managers

CWAI provides “robo-advisory” portfolio management services through an online interface. This entails the use of algorithm-based portfolio management advice, rather than in-person investment advice. All investment advice is generated and provided by an interactive website. These automated investment solutions are customized to each client and based on individual characteristics, such as the client’s age, risk tolerance, and current assets, among others. CWAI’s investment advisory personnel oversee the algorithm but may not monitor each client’s account. Clients are encouraged to update their account/questionnaire with any change in their objectives, risk tolerance, or other pertinent information, as that information factors into the portfolio’s composition.

Item 8: Client Contact with Portfolio Managers

CWAI will restrict clients from contacting portfolio managers. CWAI is registered with the SEC as an internet investment adviser. Per Rule 203A-2(e) Internet investment advisers are defined as advisers that provide investment advice to all of its clients exclusively through an interactive website, except that the investment adviser may provide investment advice to fewer than 15 clients through other means during the preceding twelve months.

Item 9: Additional Information

A. Disciplinary Action and Other Financial Industry Activities

Criminal or Civil Actions

There are no criminal or civil actions to report.

Administrative Proceedings

There are no administrative proceedings to report.

Self-Regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Registration as a Broker/Dealer or Broker/Dealer Representative

Neither CWAI nor its representatives are registered as, or have pending applications to become, a broker/dealer or a representative of a broker/dealer.

Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither CWAI nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Neither CWAI nor its representatives have any material relationships to this advisory business that would present a possible conflict of interest.

Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

CWAI does not select third-party investment advisers.

B. Code of Ethics, Client Referrals, and Financial Information

Code of Ethics

CWAI has a written Code of Ethics that covers the following areas: Prohibited Purchases

and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. CWAI's Code of Ethics is available free upon request to any client or prospective client.

Recommendations Involving Material Financial Interests

CWAI does not recommend that clients buy or sell any security in which CWAI or a related person has a material financial interest.

Investing Personal Money in the Same Securities as Clients

From time to time, representatives of CWAI may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of CWAI to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. CWAI will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of CWAI may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of CWAI to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, CWAI will never engage in trading that operates to the client's disadvantage if representatives of CWAI buy or sell securities at or around the same time as clients.

Frequency and Nature of Periodic Reviews

Accounts are reviewed at least quarterly by Juan Miguel Lopez Zamora, Chief Compliance Officer, with regard to clients' respective investment policies and risk tolerance levels.

Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

Content and Frequency of Regular Reports Provided to Clients

Each client will receive a quarterly account statement from the custodian. CWAI will also

provide at least quarterly a separate written report to the client.

Economic Benefits Provided by Third Parties for Advice Rendered to Clients

CWAI does not receive any economic benefit, directly or indirectly from any third party for advice rendered to CWAI clients.

Compensation to Non – Advisory Personnel for Client Referrals

CWAI does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Balance Sheet

CWAI neither requires nor solicits prepayment of more than \$1,200 / \$500.

Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

CWAI does not have any financial condition that would impair its ability to meet contractual commitments to clients.

Bankruptcy Petitions in Previous Ten Years

CWAI has not been the subject of a bankruptcy petition.

Item 10: Requirements For State Registered Advisers

Please see the “Recommendations Involving Material Financial Interests” and “Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests” sections above.
