

Voya Retirement Advisors, LLC

Disclosure Statement

One Orange Way
Windsor, CT 06095

Form ADV, Part 2A Brochure

Updated

March 17, 2023

This brochure provides information about the qualifications and business practices of Voya Retirement Advisors, LLC, an investment advisor registered with the United States Securities and Exchange Commission ("SEC"). If you have any questions about the contents of this brochure, please contact us by calling 877-814-0808. The information in this brochure has not been approved or verified by the SEC or by any state securities authority.

Any reference to or use of the terms "registered investment adviser" or "registered," does not imply that Voya Retirement Advisors, LLC or any person associated with Voya Retirement Advisors, LLC has achieved a certain level of skill or training.

Additional information about Voya Retirement Advisors, LLC also is available on the Securities and Exchange Commission ("SEC") website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. VRA's CRD number is 3989.

Item 2 MATERIAL CHANGES

Voya Retirement Advisors, LLC (VRA) will provide clients with any material changes to this and subsequent Brochures within 120 days of the close of VRA's fiscal year, which ends December 31st. Furthermore, VRA will provide clients with other interim disclosures as necessary. The VRA Brochure may be requested by calling 877-814-0808.

This VRA Brochure is in a narrative format and includes new and/or updated information from VRA's December 19, 2022 brochure.

The following summarizes the material changes made since December 19, 2022:

- Item 4 – Advisory Business – description of the additional service features for Income + and Income Beyond Retirement have been clarified.
- Item 4 - Advisory Business – Types of Distributions – has been updated to reflect the timing of the first Payout.
- Item 4 – Advisory Business – has been updated to remove the reference to an Optional Annuity Purchase.
- Item 4 – Advisory Business – Income Secure – has been added to provide a description of the service.
- Item 4 – Advisory Business – Asset Under Management – has been updated to reflect the 12/31/2022 balance.

Item 4

ADVISORY BUSINESS

Description of Advisory Firm

Established in 2000, Voya Retirement Advisors, LLC (“VRA,” “we,” or “us”) is a federally registered investment adviser. It is a direct wholly owned subsidiary of Voya Retirement Insurance and Annuity Company, which, in turn, is wholly owned by Voya Holdings Inc., which is owned by Voya Financial, Inc. VRA’s primary business is acting as a Registered Investment Advisor and spends less than 5% of its time engaged in related activities.

VRA provides investment advisory services to retirement plan accounts. The services VRA provides are elective, additional services adopted by the plan sponsor and made available to plan participants where its affiliate, Voya Institutional Plan Services, LLC, acts as administrator and record-keeper to the retirement plan.

VRA cannot and does not guarantee future financial results or the achievement of your financial goals through implementation of any advice or recommendations provided to you. VRA does not monitor the day-to-day performance of your specific investments.

Services Offered with Edelman Financial Engines

VRA offers two advisory programs, one advisory program is point in time allocation-based advice (Online Advice), the second is a discretionary fee-based ongoing advice service (Professional Management). The Professional Management service includes an educational retirement assessment service (Retirement Evaluation) and an income focused supplemental component Income+/Income Beyond Retirement (“IBR”).

Each service listed above relies upon the investment options the plan sponsor selected for the plan and the investment methodology and computer programs (the “Workstation”) of Financial Engines Advisors (“FEA”), an unaffiliated registered investment advisor. The investment options are selected by the plan sponsor and made available to plan-participants for self-directed investing or as the underlying investment options upon which the Workstation leverages to generate advice recommendations. The Workstation generates financial analysis, asset allocation and investment recommendations relevant to retirement planning.

VRA provides advisory services online, via telephone and email through its Investment Advisor Representatives (“Advisor”).

VRA offers Online Advice (“OA”) and Professional Management (“PM”) services to certain retirement plan participants. The OA is an investment advisory tool participants can access and use online to receive a point-in-time asset allocation recommendation on their account. PM is a discretionary managed account program where participants can enroll (online, via an enrollment form or via an Advisor) and receive ongoing advice to their account, including updated investment recommendations and allocation changes. For additional information on the “OA” and “PM” programs see below.

Retirement Evaluation

You can request a Retirement Evaluation (“RE”) electronically or printed, providing an assessment of your current savings and/or investment decisions relative to your retirement plan account. The RE is designed to communicate some or all of the following information:

- a summary of the current value of your plan account;
- a forecast of how much the plan account investments, and other investments that you submit for analysis, might be worth at retirement;
- whether a change is recommended to your current contribution rate, risk and diversification, unrestricted company stock holdings, if applicable, or investment style and allocation;
- investment proposals; and

a projection of how much annual income can be anticipated at retirement, based on how much the plan account plus Social Security and certain other benefit accounts could provide. This projection is based on information provided and/or verified by you to the Advisor during your discussion and is not a guarantee of future results and can and will change over time.

You can also request an updated RE at any time by contacting an Advisor.

Online Advice

If you prefer to receive point-in-time investment advice using a self-service and self-implementation approach without the help of an Advisor, you can access the OA program directly via the internet. OA is an online investment advice service provided by FEA, which is an independent investment advisor. FEA is a wholly owned subsidiary of Financial Engines, Inc. and serves as a sub-advisor to VRA. OA is a computer model and incorporates financial analysis and asset allocation methods consistent with FEA guidelines and generally accepted financial planning and asset allocation principles. OA is based on a point-in-time analysis and is not an ongoing management service. This program is designed to:

- assist you in setting retirement goals;
- provide goal-appropriate saving and investment recommendations;
- help you monitor your retirement account; and
- permit you to perform “what-if” modeling.

The OA program will provide specific investment allocation recommendations among the funds made available in your employer’s retirement plan. These recommendations are not an endorsement of any particular investment.

OA will also generate an estimate of the likelihood of you reaching your retirement goals. This estimate is based on information provided and/or verified by you and is not a guarantee of future results and can and will change over time.

The OA program does not include continued monitoring of the investment advice provided for your account. You must implement the recommendations received and revisit the OA site in order to update your information and receive updated recommendations. You maintain full control of your account and are under no obligation to implement the recommendations received.

Professional Management

In retirement plan accounts of certain plan sponsors, we provide an optional managed account program called Professional Management (“PM”). For purposes of this program, VRA shall act as an “investment manager” as defined under Section 3(38) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). This means that VRA implements its investment recommendations and may make changes designed to keep your savings rate and investment allocation aligned with your goals. To learn if this program is available to you, you may either call us to speak with an Advisor or read your plan’s fact sheet.

VRA recommendations consider your current savings, number of years to your assumed retirement age and a personalized level of risk. PM output is delivered by Advisors who are contacted by calling your plan’s toll-free information line. Alternatively, you have the ability to enroll in the PM service through your employer sponsored plan website. You will also be provided a Welcome kit with an assessment of your current investment risk and forecast of your probability of achieving your retirement goal upon your enrollment in the PM program, whether enrollment occurs online, by phone or paper. The investment transactions are then transmitted to your plan’s record- keeper and implemented on your behalf.

Central to the delivery of PM is the Advisor’s use of the advice workstation. Information about your retirement plan account that is provided from your plan’s record-keeper and the fact finding and goal defining conversation between you and the advisor is input into the workstation. Based upon your responses during the interview and the data and information you provide to an Advisor, the advisor provides a forecast of the probability of achieving your desired retirement income goal(s), which is based exclusively on the output of the advice workstation. The workstation relies on the proprietary methodology developed and maintained by FEA to create target allocations and forecasts for participants.

The forecasts generated by the advice workstation focus on a personalized analysis and are designed to answer the following questions:

- What is the chance that I might reach my retirement goal(s)?
- How much value might I lose over the next year?
- What is the range of income I might expect in retirement?
- How much might my portfolio be worth at retirement?

The forecasted retirement income is based on income provided by the following sources:

- Your retirement accounts (including individual retirement plan accounts and other accounts designated for retirement);
- your pension;
- Social Security estimates; and

- other sources of retirement-designated income.

The advisor also solicits responses from you regarding your tolerance for risk or loss (in percentage and/or dollar terms) and consequences of financial transactions (for example, withdrawals and outflows). The objective of this process is to provide a personalized asset allocation and personalized retirement savings strategy. The result is a personalized, inflation-adjusted retirement income forecast.

VRA uses the forecasts described above to offer strategies designed to help improve your understanding of, and ability to achieve your retirement goal(s). For example, if the illustrations show a shortfall of retirement income (as compared to your expected needs), one or a combination of the following actions would be discussed:

- increase contributions to the retirement plan account;
- change investment mix;
- retire later or supplement your income during retirement; and
- reduce retirement income expectations.

Making adjustments to your current savings, investments and portfolio risk can have a significant impact on the probability of achieving your retirement goal(s). Your advisor will model assumed changes to savings rates and investment allocations and communicate the results to you during the course of your conversation. This approach is designed to help you understand how actions such as reallocating investments or increasing your savings may improve your chances to achieve your retirement goal(s).

If you enroll in the PM program, you authorize VRA to provide discretionary ongoing management of your retirement plan account(s) which would include a personalized combination of the following actions with the objective of achieving your retirement goals: automatically increasing your contributions, rebalancing and/or re-optimizing and updating your investment allocation and adjusting your allocation overtime based on your changing retirement time horizon. Rebalancing and re-optimization occur periodically, but no less frequently than annually.

Professional Management Passive Enrollment Options

VRA's PM service may be selected as a Plan's Qualified Default Investment Alternative ("QDIA") at the direction of a plan sponsor. The plan sponsor is responsible for compliance with the applicable QDIA regulations under ERISA. If a plan sponsor does select VRA's PM as a plan's QDIA, then any inquiries concerning a plan's QDIA rules and requirements should be directed to the plan sponsor. The Pension Protection Act of 2006 directed the Department of Labor to issue a regulation to assist employers in selecting default investments that best serve the retirement needs of workers who do not direct their own investments. The final regulation provides that the following conditions must be satisfied:

- Assets must be invested in a "qualified default investment alternative" (QDIA) as defined in the regulation.
- Participants and beneficiaries must have been given an opportunity to provide investment direction but have not done so.
- A notice generally must be furnished to participants and beneficiaries in advance of the first investment in the QDIA and annually thereafter. The rule describes the information that must be included in the notice.
- Material, such as Fund Fact Sheets, provided to the plan for the QDIA must be furnished to participants and beneficiaries.
- Participants and beneficiaries must have the opportunity to direct investments out of a QDIA as frequently as from other plan investments, but at least quarterly.
- The rule limits the fees that can be imposed on a participant who opts out of participation in the plan or who decides to direct their investments.
- The plan must offer a "broad range of investment alternatives" as defined in the Department's regulation under section 404(c) of ERISA.

The final regulation identifies two individually-based mechanisms and one group-based mechanism – it also provides for a short-term investment for administrative convenience. The final regulation provides for four types of QDIAs:

- A product with a mix of investments that takes into account the individual's age or retirement date (an example of such a product could be a life cycle or targeted-retirement-date fund);
- An investment service that allocates contributions among existing plan options to provide an asset mix that takes into account the individual's age or retirement date (an example of such a service could be a professionally managed account);
- A product with a mix of investments that takes into account the characteristics of the group of employees as a whole, rather than each individual (an example of such a product could be a balanced fund); and
- A capital preservation product for only the first 120 days of participation (an option for plan sponsors wishing to simplify administration if workers opt-out of participation before incurring an additional tax).

Near Retiree Reset

Near Retiree Reset is an annual, auto-enrollment option available at the election of plan sponsors specific for plan participants meeting the plan's definition of pre-retirees. It consists of a multi-touch campaign to the designated, age-based participant group, notifying them of the process, deadlines and benefits of Professional Management Program, or with Income+/IBR if the independent service has also been selected by the plan sponsor. The campaign also provides instructions for how to opt-out of auto-enrollment into the service. In addition to the paper and digital outreach, Voya Retirement Advisors will offer one-on-one phone consultations with qualified Investment Advisor Representatives. The plan sponsor determines the frequency of Near Retiree Reset. It may be a one-time auto-enrollment or it may be an annual re-enrollment. If Near Retiree Reset with annual re-enrollment is adopted by the plan sponsor, near-retiree participants must annually opt out of the PM program if they do not want the PM level of service. Participants enrolled into Near Retiree Reset are charged the standard monthly PM fees applicable to their retirement plan. Participants have the ability to opt out, without penalty, at any time. Once enrolled in Professional Management Program, Near Retiree Reset participants receive the same services and materials as other PM participants.

Income+ /Income Beyond Retirement Income Solution

Income+ is a retirement income solution that provides you with a professionally managed portfolio that is designed to generate steady lifetime income from your retirement account(s). Income Beyond Retirement is an enhancement to the Income+ program that allows you to allocate all, none, or a portion of your account to the Income+ program. As you approach your retirement horizon, you receive a personalized plan that helps answer key questions:

- When can I retire?
- How much income will I have?
- How do my different benefits, including Social Security, pension, and 401(k), fit together?
- What is the impact of retiring later?
- What is my 401(k) payout amount if I start receiving payouts today?

You have the right to work with an Advisor to further customize your plan by including other household investments, retirement benefits, and/or exploring different retirement dates. Once in or near retirement, the Income+/IBR portion of your account begins the process of transitioning the portfolio toward an investment mix designed for generating stable income payouts. Each year, a portion of your portfolio is transitioned to an income-ready allocation.

The Income+/IBR portion of your account is designed to provide monthly income payouts that:

- Are set on an annual basis and subject to market conditions
- Balances grow with capital preservation
- Can last for life (with optional out-of-plan annuity purchase)
- Can go up with market appreciation
- Are flexible, and can be started or stopped at any time

You maintain full access to the funds within your account subject to restrictions related to your specific investments and/or retirement plan. At every stage of retirement, you have unlimited access to an Advisor to help answer questions and refine your retirement plan.

The following additional terms apply to the Income+/IBR feature and form a part of the terms and conditions. Unless otherwise specified, the terms used have the same meaning as in the Fact Sheet, Advisory Services Agreement, and elsewhere in this ADV.

With the Income+/IBR portion of your account, your assets are managed under the Program with a primary investment strategy of seeking to generate income in retirement (see "Investment Strategy for the Income+ feature"). The Income+/IBR feature also includes an option for you to request distributions from your managed Plan account (see "Distributions and Payouts").

Investment Strategy for the Income portion of your account:

With the Income+/IBR feature, we design your investment strategy for the managed Plan accounts with a primary goal of seeking to generate income in retirement. While the primary objective is generating income, we also allocate a portion of your managed Plan accounts to provide growth potential. As you get older, we gradually reduce the portion of your accounts that is allocated for growth. In managing your accounts and determining the amount of income you could receive in

retirement from the Plan accounts assets (see “Distributions and Payouts”), we also designate a portion of your accounts to increase the likelihood that you are able to make an optional annuity purchase for a lifetime income guarantee (see “Optional Annuity Purchase.”). IBR allows Participants additional flexibility to designate all or a portion of their account(s) to the income objective, with the remainder managed to the standard growth-oriented objective. Income Beyond Retirement can facilitate steady payouts, at a Participant’s request.

Activation and Removal of the Income+/IBR feature:

In order to be eligible for the Income+/IBR feature, you must: 1) be a Program member and a participant in a Plan offering this feature; 2) meet then-current eligibility requirements for the Program (as described in the terms and conditions); and 3) meet then-current eligibility requirements for the Income+/ feature (currently over 55 years of age and within 7 years of retirement). We reserve the right to change eligibility requirements for the Income+/IBR feature at any time without notice. The Income+/IBR feature is activated for a managed Plan account if the risk preference for the account is set to “Invest for Income.” We will send you a revised Retirement Evaluation, and you should contact us if you do not receive it. For additional information, please refer to your Plan Documents.

If you no longer meet the eligibility requirements, the Income+/IBR feature will be removed from your account(s). This would occur for a number of reasons, including but not limited to the following: personal account eligibility status changes; or changes in your Provider’s or Plan’s eligibility for and ability to support the Income+/IBR feature (changes to Plan provisions or the fund lineup, for instance). You have the ability to request to remove the Income+/IBR feature at any time without penalty by contacting an Advisor during business hours.

When the Income+/IBR feature is removed, you will continue to remain enrolled in the PM program for the applicable managed Plan accounts until you request to cancel.

If you remove the Income+/IBR feature but remain enrolled in the Program, you will receive an updated Retirement Plan if your investment strategy is changed; otherwise, we will continue to manage your account based on the assumptions indicated in the communications we send to you. After the Income+/IBR feature is removed, you must contact VRA in order to request distributions from your accounts. If the Income+/IBR feature is activated or removed for any of your managed Plan accounts, it will also be activated or removed for all of your other managed Plan accounts.

Delegation of Authority:

In addition to the authority delegated to VRA for the Program, if you decide to request any distributions from your accounts through the Income+/IBR feature, you delegate to VRA all powers, duties and responsibilities necessary to effectuate any requested distributions, including without limitation the power for VRA to specify the time and amount of distributions, to instruct Provider and other parties as needed to process distribution requests, and to provide such consents as may be required for making distributions.

Non-Managed Assets:

If you are enrolled in Income+/IBR and/or you’ve requested recurring distributions, we do not consider any assets that are not managed by us.

Distributions and Payouts:

Plan distributions (sometimes also referred to as “plan withdrawals” or “plan payments”) are withdrawals from Plan accounts. The Income+/IBR feature includes an option for you to request recurring distributions from your managed Plan account through (“Distributions and Payouts”) or non-recurring distributions from those accounts (collectively, “distributions”). Distributions are withdrawn from the assets in your managed Plan account, including principal.

Distribution Instructions: With the Income+/IBR feature, if eligible, you are able to request distributions from your account by contacting an Advisor.

Your Representations. By requesting a distribution, you are representing that you are legally authorized to request such distributions from the specified accounts and that you have obtained any additional consents from third parties as may be required under Plan provisions or other applicable law.

Transition Period: If you activate the Income+/IBR feature and start Payouts, we shorten or remove your transition period as appropriate and issue Account Directions to move your Plan account directly towards an allocation target as appropriate for your investment strategy and Payout request. This may mean significant changes to your account allocation during a short period of time, including the sale of Company Stock, and may result in incurring various fees, such as fund redemption fees.

Types of Distribution:

Payouts: You can request to start or terminate Payouts from your accounts that are activated with the Income+/IBR feature. You may request the form of such distribution (for instance, by check to your primary mailing address on file with the Provider or by direct deposit to an account you have specified to the Provider) Unless you have specified otherwise, the Payout will be sent as a check to your primary mailing address on file.

In order to start Payouts for your account, the Income+/IBR feature must be activated and you must also meet then- current Payout eligibility requirements. If eligible, you can request to start Payouts by calling us. We reserve the right to change Payout eligibility requirements at any time without notice.

You understand that by requesting to start Payouts, you are authorizing a recurring distribution from your account at the frequency (typically monthly) and in the manner you've agreed to and for such amounts as VRA may specify. You also understand that if you request to start Payouts through the Income+/IBR feature, we may change or cancel any existing recurring distributions (such as installments) from your Plan account. After starting Payouts, you should contact VRA to request any additional distributions. If you process a distribution from your account without contacting VRA, we will discontinue your recurring Income+ payouts.

When Payouts start, we provide you with information on the estimated dates and amounts of future planned Payouts. Although we manage your account to seek to provide steady Payouts, future Payout amounts are not guaranteed and have the possibility of declining due to various factors, including but not limited to material changes in market conditions and changes to your Plan account balance such as due to additional distributions. Your future planned Payout amounts assume continued enrollment in the Program, receiving Payouts from accounts activated with the Income+ feature, and are based in part on current market conditions and on your manageable current account balance(s), which include unvested dollars and not reflect recent distributions you have taken.

Payouts are not guaranteed to last throughout your retirement or your lifetime.

The timing of the first Payout depends on system cycles and other factors that impact the ability of VRA, the Provider, and any necessary third parties (such as custodians) to process the request. Please allow sufficient time for processing and contact us if you haven't received your first distribution after 8 weeks.

If you no longer meet the eligibility requirements for Payouts, we will terminate Payouts from your account. This occurs for a number of reasons, including but not limited to the following: personal account eligibility status changes; you process a distribution without consultation with an Advisor, changes in your Provider's or Plan's eligibility for and ability to support Payouts. You can also request to terminate Payouts, and any cancellable Payouts may be terminated after your request has been processed by us and by the Provider, typically after a business day. Note that some recurring distributions may not be cancellable due to the timing of Payout processing. If you terminate Payouts and then restart them at a later time, we will reassess your new Payout amounts, which may be less than your previous Payout amounts.

After Payouts are terminated, your accounts will remain activated for the Income+/IBR feature and enrolled in the Program until you request to remove the Income+/IBR feature or cancel from the Program. In addition, after the termination of Payouts, you must contact your Provider directly in order to request distributions. Your Payout status will apply to all of your managed Plan accounts. Therefore, if Payouts are terminated for any of your managed Plan accounts, Payouts will also be terminated for all of your managed Plan accounts.

Additional Distributions: You can also request a non-recurring distribution from your accounts that are activated with the Income+/IBR feature by calling your plan's information line and speaking with an Advisor. You may request the form of such distribution (for instance, by check to your primary mailing address on file with Provider or by direct deposit to an account you have previously specified to the Provider) and specify the amount of such distribution. Unless you have specified otherwise, the distribution will be sent as a check to your primary mailing address on file with the Provider.

Note: If you process an additional distribution without consulting with an Advisor, your scheduled payouts will be discontinued.

Additional distributions may decrease the amount of Payouts.

After making a distribution request, it may take between one to two weeks before the distribution is received, but the actual

timing depends on system cycles and other factors that impact the ability VRA, the Provider, and any necessary third parties (such as FEA) to process the request. Please allow sufficient time for processing and contact us if you haven't received your distribution after two weeks.

You can request to cancel a distribution request, and any cancellable distributions will terminate after your request has been processed by us and by the Provider, typically after a business day. Note that some distributions may not be cancellable due to the timing of the distribution processing.

Tax: Distributions may have tax consequences. You acknowledge that in connection with any distributions, where applicable, you have received and reviewed a copy of the required tax notice about plan distributions and that a copy of such notice may also be requested by contacting your Provider. Actual distributions received will be reduced by any applicable federal and state tax withholdings and other expenses, including Provider fees.

Distributions made before age 59 ½ may be subject to early withdrawal Internal Revenue Service penalties. Consult your tax advisor for more information. Payouts may meet the annual minimum distribution amount required under applicable Internal Revenue Service regulations but are not guaranteed to do so VRA does not ensure compliance with required minimum distributions. Your Provider may make additional distributions from your account in order to satisfy required minimum distributions.

Assets Under Management

As of 12/31/2022, VRA managed \$18,387,622,176 in total assets on a discretionary basis in the Professional Management program. VRA does not manage assets on a non-discretionary basis.

Services Offered with Morningstar Investment Management (beginning March 20, 2023)

VRA offers two advisory programs with Morningstar Investment Management, collectively referred to as "VRA powered by Morningstar". One advisory program is a point in time allocation-based advice (Online Advice), the second is a discretionary fee-based ongoing advice service (Professional Management).

Each service listed above relies upon the investment options the plan sponsor selected for the plan and the investment methodology and computer programs (the "Workstation") of Morningstar Investment Management ("Morningstar"), an independent financial expert/sub-adviser and a wholly owned subsidiary of Morningstar, Inc. The investment options are selected by the plan sponsor and made available to plan-participants for self-directed investing or as the underlying investment options upon which the Workstation leverages to generate advice recommendations. The Workstation generates financial analysis, asset allocation and investment recommendations relevant to retirement planning.

VRA provides advisory services online, via telephone and email through its Investment Advisor Representatives ("Advisor").

VRA offers individualized participant investment advice and account management services (the "Program") called Online Advice ("OA") and Professional Management ("PM") services to certain retirement plan participants. The OA is an investment advisory tool participants can access and use online to receive a point-in-time asset allocation recommendation on their account. PM is a discretionary managed account program where participants can enroll (online, via an enrollment form or via an Advisor) and receive ongoing advice to their account, including updated investment recommendations and allocation changes. For additional information on the "OA" and "PM" programs see below.

Statement

You can request a statement electronically or printed, providing an assessment of your current savings and/or investment decisions relative to your retirement plan account. The statement is designed to communicate some or all of the following information:

- a summary of the current value of your plan account;
- a forecast of how much the plan account investments, and other investments that you submit for analysis, might be worth at retirement;
- whether a change is recommended to your current contribution rate, risk and diversification, unrestricted company stock holdings, if applicable, or investment style and allocation;
- investment proposals; and

a projection of how much annual income can be anticipated at retirement, based on how much the plan account plus Social Security and certain other benefit accounts could provide. This projection is based on information provided and/or verified

by you to the Advisor during your discussion and is not a guarantee of future results and can and will change over time.

You can also request an updated statement at any time by contacting an Advisor.

Online Advice

If you prefer to receive point-in-time investment advice using a self-service and self-implementation approach without the help of an Advisor, you can access the OA program directly via the internet. OA is an online investment advice service provided by Morningstar. OA is a computer model and incorporates financial analysis and asset allocation methods consistent with Morningstar guidelines and generally accepted financial planning and asset allocation principles. OA is based on a point-in-time analysis and is not an ongoing management service. This program is designed to:

- assist you in setting retirement goals;
- provide goal-appropriate saving and investment recommendations;
- help you monitor your retirement account; and
- permit you to perform “what-if” modeling.

The OA program will provide specific investment allocation recommendations among the funds made available in the participant’s retirement plan by the plan sponsor. These recommendations are not an endorsement of any particular investment.

OA will also generate an estimate of the likelihood of the participant reaching their retirement goals. This estimate is based on information provided and/or verified by the participant and is not a guarantee of future results and can and will change over time.

The OA program does not include continued monitoring of the investment advice provided for the participant’s account. Participants must implement the recommendations received themselves and revisit the OA site in order to update their information and receive updated recommendations. Participants maintain full control of their account and are under no obligation to implement the recommendations received.

Professional Management

In retirement plan accounts of certain plan sponsors, we provide an optional managed account program called Professional Management (“PM”). For purposes of this program, VRA shall act as an “investment manager” as defined under Section 3(38) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). This means that VRA implements its investment recommendations and may make changes designed to keep your savings rate and investment allocation aligned with your goals. To learn if this program is available to you, you may either call us to speak with an Advisor or read your plan’s fact sheet.

VRA recommendations consider your current savings, number of years to your assumed retirement age and a personalized level of risk. PM output is delivered by Advisors who are contacted by calling your plan’s toll-free information line. Alternatively, you have the ability to enroll in the PM service through your employer sponsored plan website. You will also be provided a Welcome kit with an assessment of your current investment risk and forecast of your probability of achieving your retirement goal upon your enrollment in the PM program, whether enrollment occurs online, by phone or paper. The investment transactions are then transmitted to your plan’s record- keeper and implemented on your behalf.

Central to the delivery of PM is the Advisor’s use of the advice workstation. Information about your retirement plan account that is provided from your plan’s record-keeper and the fact finding and goal defining conversation between you and the Advisor is input into the workstation. Based upon your responses during the interview and the data and information you provide to an Advisor, the Advisor provides a forecast of the probability of achieving your desired retirement income goal(s), which is based exclusively on the output of the advice workstation. The workstation relies on the proprietary methodology developed and maintained by Morningstar to create target allocations and forecasts for participants.

The forecasts generated by the advice workstation focus on a personalized analysis and are designed to answer the following questions:

- What is the chance that I might reach my retirement goal(s)?
- What is the range of income I might expect in retirement?
- How much might my portfolio be worth at retirement?

The forecasted retirement income is based on income provided by the following sources:

- Your retirement accounts (including individual retirement plan accounts and other accounts designated for retirement);
- your pension;
- Social Security estimates; and
- other sources of retirement-designated income.

The Advisor also solicits responses from you regarding your tolerance for risk or loss (in percentage and/or dollar terms) and consequences of financial transactions (for example, withdrawals and outflows). The objective of this process is to provide a personalized asset allocation and personalized retirement savings strategy. The result is a personalized, inflation-adjusted retirement income forecast.

VRA uses the forecasts described above to offer strategies designed to help improve your understanding of, and ability to achieve your retirement goal(s). For example, if the illustrations show a shortfall of retirement income (as compared to your expected needs), one or a combination of the following actions would be discussed:

- increase contributions to the retirement plan account;
- change investment mix;
- retire later or supplement your income during retirement; and
- reduce retirement income expectations.

Making adjustments to your current savings, investments and portfolio risk can have a significant impact on the probability of achieving your retirement goal(s). Your Advisor will model assumed changes to savings rates and investment allocations and communicate the results to you during the course of your conversation. This approach is designed to help you understand how actions such as reallocating investments or increasing your savings may improve your chances to achieve your retirement goal(s).

If you enroll in the PM program, you authorize VRA to provide discretionary ongoing management of your retirement plan account(s) which would include a personalized combination of the following actions with the objective of achieving your retirement goals: automatically increasing your contributions, rebalancing and/or re-optimizing and updating your investment allocation and adjusting your allocation overtime based on your changing retirement time horizon. Rebalancing and re-optimization occur periodically quarterly.

Income Secure

Income Secure is an option offered through the “VRA powered by Morningstar” online advice tool, a platform which includes our investment advisory service that helps participants in the accumulation stage invest and save for retirement. When a participant indicates they are retired or about to retire, or reaches 50 years of age, they can gain access to Income Secure, if the plan offers it. The service analyzes your retirement account(s), Social Security benefits, bequest amounts, tax exposure, pensions, and any other income sources that will be used to help fund your retirement (including those of a partner, if applicable). Income Secure then presents you with a spending plan for the duration of your retirement. The spending plan includes a detailed overview of the income sources that comprise your annual income so you know how much to consider withdrawing each year from your accounts. Income Secure can provide you with an investment strategy for assets within your retirement account. We you may return to the site each year to receive an updated strategy. This helps ensure that our recommendations reflect your changing account balances, investment performance, and any changes to your financial situation.

Item 5 FEES AND COMPENSATION

VRA earns revenue from platform fees and PM program asset-based fees. The platform fee is a per participant fixed dollar fee annual charge that is negotiated between plan sponsors and VRA. The fee can range from zero to \$6.00 annually. When assessed, the platform fee is invoiced based on the number of participants in the plan. The platform fee is not conditional on the use of services. The fee is to offset expenses of establishing and maintaining a professionally staffed, computer-based investment advisory offering.

The PM program fee is the asset-based fee for ongoing Professional Management program services. The fee can be a single flat tier or a multi-tier based model where the incremental fee amount will reduce as the participant account balance reaches plan sponsor negotiated breakpoints. The PM fees vary by plan as do the asset level breakpoints and are considered confidential trade secrets. The PM fee does not exceed 0.60% for the lowest asset level breakpoint annually to any plan VRA

provides PM program services. VRA provides plan specific platform fee, PM program asset-based fee and asset level break point information in custom plan fact sheets. These fact sheets are available to all plan participants as part of the plan's rollout of VRA services. Additionally, fact sheets are provided as part of the PM program welcome kit.

Please read your plan's fact sheet to learn about the specific fees for your plan. In addition to the delivery methods identified above, you can get a fact sheet by calling your plan's information line and by asking to speak with an Advisor or by accessing the OA or PM web site for your plan.

Funds or plan investments may charge expenses and fees that are in addition to the VRA advisory fee. Please refer to the prospectus, fund fact sheet or other fund description for information regarding fees that apply to the funds.

There is no additional cost or obligation for using the OA services either online or through the plan's toll-free information line and speaking with Advisor.

If you enroll in the PM program, fees will be deducted from your retirement plan account on a monthly or quarterly basis. Fees are paid in arrears and begin as of the first day of the month or quarter you enroll regardless of what day of the period you enroll. Participant fees are customized for each plan separately based upon several plan factors as well as the individual participant account balance. Annual fees for PM are no more than 0.60%. The fee is calculated at each calendar month end, based on the month-ending value, and is assessed within fifteen days after the end of such time period. VRA will deduct the fee from your account automatically.

If a participant enrolls in multiple PM program accounts with the same plan sponsor, the value of the accounts will be combined for the purpose of assessing total advisory fees. Please contact an Advisor for more details specific to your plan.

Within the EFE Service, the Income+/IBR feature is available at no additional cost to PM enrolled participants who are eligible. This feature is not available through all plans offering the PM program and is not offered through Morningstar.

In addition to a fixed base salary, Advisors are eligible to receive a monthly bonus tied to Voya's achievement of corporate performance measurements. The Advisors' individual bonus allocation is based on several factors including service quality, customer satisfaction, activity levels and improving participant outcomes aligned to the best interest of our customers. The compensation program for Advisors does not include any product or service enrollment, Assets Under Management, or other sales related targets. Advisor compensation is primarily base salary with an opportunity to earn an annual bonus based on Voya achieving corporate performance measurements. The annual incentive payout is based on both individual performance factors and Voya achieving corporate performance measurements. In addition, Advisors are eligible to earn monthly incentive payouts based on their individual performance measures for overall service quality, customer satisfaction, activity, and best interest participant outcomes. VRA and Voya affiliates may offer incentive programs through which VRA's IARs are eligible to receive awards. The compensation program for Advisors does not include any product or service enrollment, Assets Under Management, or other sales related targets.

VRA's services are provided in accordance with the guidance issued under Department of Labor Advisory Opinion 2001-09A. VRA does not offer advisory services that would require compliance with additional regulatory guidelines.

Item 6 PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

VRA does not charge and does not receive performance-based fees.

Item 7 TYPES OF CLIENTS

VRA provides investment advice to individuals with retirement plan accounts where its affiliate, Voya Institutional Plan Services, LLC acts as administrator and record-keeper to the retirement plan.

Item 8 METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

All recommendations made to you through VRA regarding specific allocations are based on the output from the advice workstation and are delivered by an Advisor by telephone, through paper reports and/or online via the internet.

The advice workstation is the computer program and investment methodology provided by FEA or Morningstar. The advice workstation program incorporates financial analysis and asset allocation methods consistent with FEA or Morningstar guidelines and generally accepted financial planning and asset allocation principles. These include discounted cash flow and annuity forecasts, mean variance optimization, and style analysis. The advice workstation is used to perform the following:

- information gathering and goal setting;
- financial forecasting; and
- providing investment advice recommendations

The use of the advice workstation requires entry of personal information such as date of birth, income, retirement age and income goals, sources of retirement income such as pensions and Social Security, and specific investments and investment options.

The financial forecasts are a simulation of hypothetical economic scenarios based upon analysis of historic returns, volatility, cross-correlation, and other factors. Of course, for any of these factors, past performance is not an indication of future performance. The software creates thousands of possible future economic scenarios to evaluate how your investment allocation might perform under a variety of circumstances, including changing interest rates, inflation, and market conditions. The forecast is a percentage figure representing the number of hypothetical scenarios in which your annual retirement income would equal or exceed the amount you chose for your goal.

The forecasts are not guarantees of future results. The forecasts derive from forward-looking models of the economy and securities markets that may use such data as historical returns, historical correlation, expected growth rates and calculated risk premiums based on those and other hypothetical assumptions.

The investment advice provided will include specific investment recommendations from among the designated investment options available in your plan. Based upon input from you regarding your short-term loss tolerance (in dollar terms) and risk of retirement income shortfall, the advice workstation helps determine a level of investment risk within a suitable range. For a given level of risk, the advice workstation determines an optimized asset allocation strategy. The Advice Workstation database incorporates specific past risk/return data series, the result of which is a style analysis of the unique investment characteristics of the investment options, which is included in the customized, risk/return adjusted allocation recommendations. The database is updated periodically for securities prices and economic data. It is also updated as necessary for any material changes that affect retirement planning and investments.

Item 9 DISCIPLINARY INFORMATION

The following are disciplinary events relating to VRA and/or VRA's management personnel that are material to an evaluation of VRA's investment advisory business:

The Financial Industry Regulatory Authority (FINRA) alleged that VRA and four control affiliates (Directed Services, LLC, Voya America Equities, Inc., Voya Financial Advisers, Inc., and Voya Financial Partners, LLC collectively known as("Respondent Firms")), were involved in violations of the supervision and email retention requirements of FINRA rules and federal securities laws over an extended period of time. Without admitting or denying FINRA's findings, the Respondent Firms consented to the described sanctions and to the entry of findings by agreeing to a Letter of Acceptance, Waiver and Consent with FINRA. The Respondent Firms were censured and fined in the aggregate amount of \$1.2 million, of which VRA was responsible for \$254,621.85. In the Acceptance, Waiver and Consent, FINRA acknowledged that the Respondent Firms self-reported the email issues described herein and undertook an internal review of their supervisory policies, procedures and systems relating to these issues. FINRA stated that the sanctions reflect the credit that the Respondent Firms have been given for self-reporting these issues, and for the substantial assistance they provided to FINRA during its investigation by, among other things, providing information obtained as a result of their internal investigation. The Respondent Firms further agreed to comply with the following undertakings: the Respondent Firms will each conduct a comprehensive review of their systems and procedures for the capture, retention and review of email to determine that those systems and procedures are reasonably designed to achieve compliance with the recordkeeping and supervisory requirements of FINRA rules and the federal securities laws. This matter was resolved on February 19, 2013.

Item 10

OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

VRA does not engage in any selling activity with regard to investment or financial products. There is no conflict of interest with regard to our investment advisory business and our management persons.

Item 11

CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

VRA has adopted a Code of Ethics ("Code") which provides a standard of honesty, integrity and professionalism in the way we conduct business and affirms VRA's duty as a fiduciary to advance the interests of our clients in a manner in which they are served and protected. The Code requires all investment advisory activities to be carried out in the best interests of the client. Any actual or potential conflict of interest with a client must be avoided or disclosed. Advisors may not take advantage of their positions, must comply with all federal securities law requirements, may not use confidential information for their personal benefit or to the detriment of clients, and may not engage in improper trading and must report any Code violations to VRA's Compliance Department.

Additionally, identified employees must submit quarterly reports on their personal securities trading activities. Based upon their position certain employees may be required to submit securities transactions to VRA's Compliance Department for pre-clearance to ensure compliance with the Code.

If you would like a copy of VRA's Code of Ethics, please call your plan's toll-free information line. Your Advisor will also provide a copy upon request.

VRA, its officers and employees may purchase securities for their own accounts which may, in certain circumstances, be the same securities as those recommended to clients, such as shares of the same mutual fund. In the course of providing its advisory services, VRA does not select the investment alternatives available to clients within their plans or publish any recommended list of securities.

Also, from time to time, VRA may provide investment recommendations with respect to mutual funds which hold the equity securities of Voya, VRA's parent company. In providing its services, VRA does not give consideration to whether or not a fund has exposure to Voya's equity securities and any modeling of such funds or equity securities will be in accordance with VRA's, FEA's or Morningstar's standard of modeling securities.

Item 12

BROKERAGE PRACTICES

Research and Other Soft Dollar Benefits

As a policy and practice, VRA does not have any arrangements to utilize research, research-related products and other services obtained from broker-dealers or third parties on a soft-dollar commission basis. VRA does receive referrals from other broker-dealers.

Directed Brokerage

VRA does not have the authority to select, and does not recommend, broker-dealers to effect trades or determine commissions paid and is not responsible for obtaining or monitoring best execution. In addition, FEA does not enter into directed brokerage arrangements with clients, engage in agency cross transaction or make any principal trades for advisory clients.

Item 13

REVIEW OF ACCOUNTS

You should call us during our regular business hours for updated information or a periodic review. It is up to you to decide when and if you want a periodic review. Remember, the advice we give is dependent on the information you provide. It is important that you review your retirement plan account at least annually, or more frequently if your situation changes.

One of the features of OA allows you to elect to receive periodic progress reports via email. Remember, the information and recommendations included in the progress report are dependent on the information you provide. It's important that you

review your savings and investment plan account at least annually, or more frequently if your situation changes. It is your responsibility to review and update your account in OA to adjust for changes in your investments. You should also review and update your accounts should significant changes occur in your personal circumstances.

If you enroll in the PM, you authorize VRA to provide ongoing management of your retirement plan account which may include automatically increasing your contributions, rebalancing and/or re-optimizing and updating your investment allocation and adjusting your allocation over time based on your changing retirement time horizon.

FEA, the VRA sub advisor, generally conducts account reviews monthly at VRA's direction. The account review process begins with an automated analysis of the account, which generates proposed adjustments, if applicable, to the allocation target. FEA's Portfolio Management team compares the proposed allocation target with the current portfolio and previous activity to detect variances in certain factors (such as turnover and concentrations) and determines whether transactions are prudent in the current period. Variances outside of predetermined tolerances prompt additional review and adjustments by the FEA Portfolio Management team. Additional review is also triggered by market events or information provided by VRA related to assets held in outside accounts that may impact the management of the account(s). Certain changes to investment preferences, such as risk level, retirement age, or limitations regarding company stock, can also trigger additional review.

Morningstar, the VRA sub advisor, generally conducts participant account rebalancing quarterly at VRA's direction. Morningstar Investment Management establishes a range of +/- 5% to prevent large fluctuations in investment option allocations. If a more attractive alternative is present, an investment option will be phased out over time rather than in one quarter to minimize large portfolio reallocations on a quarterly basis. This approach also minimizes short-term redemption fees to investors should they exist. Annually this restriction may be released to facilitate hitting a new asset class target. Additionally, funds being dropped from a lineup may also require this restriction to be lifted to be able to hit asset class targets. Fund Additions and Deletions. If a fund option is added, it will be considered for inclusion in portfolios at the next scheduled quarterly rebalance date for the plan in question. It is not imperative that new funds be included immediately as there will already be a diversified portfolio available that meets the target asset allocation. Any optional asset classes will be re-evaluated at the next scheduled rebalance date to see if the new fund qualifies as an optional asset class. This may result in the selection of a different asset class model portfolio targeting the additional optional asset class. See the prior section on optional asset classes for more details. Lastly if a participant further personalizes their retirement account it prompts an immediate review of the portfolio allocation and if any update to the allocation is needed it will be sent over outside of the scheduled quarterly rebalancing process described above.

Participants enrolled in the PM will receive printed or electronic quarterly retirement updates which generally include information concerning retirement plan account holdings and balances.

Item 14 CLIENT REFERRALS AND OTHER COMPENSATION

VRA does not receive referrals or other compensation from any third party with respect to the investment advisory activity.

Item 15 CUSTODY

VRA does not hold or otherwise maintain custody of any retirement plan account assets.

Item 16 INVESTMENT DISCRETION

For purposes of the PM program, VRA shall act as an investment manager as defined under Section 3(38) of ERISA.

VRA accepts investment discretionary authority to manage retirement plan accounts on behalf of clients who enroll in PM. A participant's acceptance of the PM Investment Advisory Agreement grants VRA discretionary authority over the participant's account. PM participants are encouraged to provide additional information to VRA concerning:

- Investment preferences;
- Risk tolerance;
- Assets held outside the plan; and
- Desired retirement age.

In addition, PM participants can elect a desired allocation up to a maximum of 20% of employer stock that may be held in the retirement plan account, if applicable.

Item 17 VOTING CLIENT SECURITIES

VRA does not have responsibility for voting proxies relating to securities held in retirement plan accounts. PM members will receive any proxies or other solicitations directly from their provider. VRA does not have the legal authority or any responsibility for initiating, taking, advising on, or responding to any action with respect to potential or existing class action litigation, bankruptcy or other proceeding involving any security held in PM participant accounts.

Item 18 FINANCIAL INFORMATION

VRA has discretionary authority of client securities held in retirement plan accounts for PM members. Otherwise, VRA does not have discretionary authority of client funds, nor does it require or solicit prepayment of more than \$1,200 in fees from clients six (6) months or more in advance.

VRA does not believe that its financial condition would reasonably be likely to impair its ability to meet its contractual commitments to its clients.

Item 19 CLIENT PRIVACY NOTICE

See the Voya Financial Privacy Notice below.

Privacy Notice

FACTS

WHAT DOES VOYA FINANCIAL DO WITH YOUR PERSONAL INFORMATION?

Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: <ul style="list-style-type: none"> • Social Security number and account balance • Assets and transaction or loss history • Investment experience and employment information
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Voya chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Voya share?	Can you limit this sharing?
For our everyday business purposes – such as to process your transactions, maintain your account(s) and required records, respond to court orders and legal investigations, detect and prevent fraud, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	Yes	No
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes – information about your transactions and experiences	Yes	No
For our affiliates' everyday business purposes – information about your creditworthiness	No	We don't share
For our affiliates to market to you	Yes	Yes
For nonaffiliates to market to you	No	We don't share

To limit our sharing	<ul style="list-style-type: none"> • Call our toll-free number (855) 685-9519 – our menu will prompt you through your choice. <p>Please note:</p> <p>If you are a <i>new</i> customer, we can begin sharing your information 30 days from the date we sent this notice. When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.</p> <p>However, you can contact us at any time to limit our sharing.</p>
