Item 4 Advisory Business

Transitus Wealth Partners, LLC is a SEC-registered investment adviser with its principal place of business located in NC. Transitus Wealth Partners, LLC began conducting business in 2020.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- The Marino Group, Inc., Privately Owned Company

As of December 31, 2022, we have \$ 200,703,808 in regulatory assets under management, of which \$198,177,910 are discretionary and \$2,525,898 are non-discretionary.

Transitus Wealth Partners, LLC offers the following advisory services to our clients:

INDIVIDUAL AND MODEL PORTFOLIO MANAGEMENT

Our firm provides non-continuous asset management of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on the client's particular circumstances are established, we develop the client's personal investment policy. We create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we may also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary and non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Once the client's portfolio has been established, we review the portfolio quarterly and if necessary, rebalance the portfolio on an annual basis, based on the client's individual needs.

Our investment recommendations are not limited to any specific product or service offered by a broker/dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Mutual fund shares
- Exchange Traded Funds ("ETFs")
- Real Estate Investment Trusts ("REITs")
- Options

Because some types of investments involve certain additional degrees of risk, they will only be implemented when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

PENSION CONSULTING SERVICES

We also provide several advisory services separately or in combination. While the primary clients for these services will be pension, profit sharing and 401(k) plans, we offer these services, where appropriate, to individuals and trusts, estates and charitable organizations. Pension Consulting Services are comprised of four distinct services. Clients may choose to use any or all of these services.

Investment Policy Statement Preparation (hereinafter referred to as "IPS"):

We will meet with the client (in person or over the telephone) to determine an appropriate investment strategy that reflects the plan sponsor's stated investment objectives for management of the overall plan. Our firm then prepares a written IPS detailing those needs and goals, including an encompassing policy under which these goals are to be achieved. The IPS also lists the criteria for selection of investment vehicles as well as the procedures and timing interval for monitoring of investment performance.

Selection of Investment Vehicles:

We assist plan sponsors in constructing appropriate asset allocation models. We will then review various mutual funds (both index and managed) to determine which investments are appropriate to implement the client's IPS. The number of investments to be recommended will be determined by the client, based on the IPS.

Monitoring of Investment Performance:

We monitor client investments continually, based on the procedures and timing intervals delineated in the Investment Policy Statement. Although our firm is not involved in any way in the purchase or sale of these investments, we supervise the client's portfolio and will make recommendations to the client as market factors and the client's needs dictate.

Employee Communications:

For pension, profit sharing and 401(k) plan clients with individual plan participants exercising control over assets in their own account ("self-directed plans"), we also provide quarterly educational support and investment workshops designed for the plan participants when the plan sponsor engages our firm to provide these services. The nature of the topics to be covered will be determined by us and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will NOT provide plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Mutual Fund and/or ETF Analysis. We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Third-Party Money Manager Analysis. We examine the experience, expertise, investment philosophies, and past performance of independent third-party investment managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic

conditions. We monitor the manager's underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the manager's compliance and business enterprise risks.

A risk of investing with a third-party manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a third-party manager's portfolio, there is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We use the following strategy in managing client accounts, provided that such strategy is appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically, we employ this strategy when:

- * we believe the securities to be currently undervalued, and/or
- * we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, even though we typically employ this strategy; however, if certain circumstances dictate otherwise, we will take advantage of any short-term strategies for our clients.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Our firm and our related persons are not engaged in other financial industry activities and have no other industry affiliations.

Clients should be aware that the receipt of additional compensation by Transitus Wealth Partners, LLC and its management persons or employees creates a conflict of interest that may impair the objectivity of our firm and these individuals when making advisory recommendations. Transitus Wealth Partners, LLC endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for our firm and our employees to earn compensation from advisory clients in addition to our firm's advisory fees;
- we disclose to clients that they are not obligated to purchase recommended investment products from our employees or affiliated companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm's management conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Transitus Wealth Partners, LLC and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Transitus Wealth Partners, LLC's Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to

nonpublic information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to trey@transituswealth.com, or by calling us at 910-395-1991.

Transitus Wealth Partners, LLC and individuals associated with our firm are prohibited from engaging in principal transactions.

Transitus Wealth Partners, LLC and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

Item 12 Brokerage Practices

For discretionary clients, Transitus Wealth Partners, LLC requires these clients to provide us with written authority to determine the broker dealer to use and the commission costs that will be charged to these clients for these transactions.

These clients must include any limitations on this discretionary authority in this written authority statement. Clients may change/amend these limitations as required. Such amendments must be provided to us in writing.

Transitus Wealth Partners, LLC does not have any soft-dollar arrangements and does not receive any soft-dollar benefits.

As a matter of policy and practice, Transitus Wealth Partners, LLC does not generally block client trades and, therefore, we implement client transactions separately for each account. Consequently, certain client trades may be executed before others, at a different price and/or commission rate. Additionally, our clients may not receive volume discounts available to advisers who block client trades.

Transitus Wealth Partners, LLC may **recommend** that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. ("Schwab"), a FINRA registered broker-dealer,

member SIPC, or Raymond James Financial Services, a subsidiary of Raymond James Financial, Inc. (Raymond James)), a FINRA registered broker-dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. Although we **recommend** that clients establish accounts at Schwab, it is the client's decision to custody assets with Schwab. Transitus Wealth Partners, LLC is independently owned and operated and not affiliated with Schwab.

Schwab provides Transitus Wealth Partners, LLC with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Schwab Institutional. These services **are not** contingent upon our firm committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For our client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab Institutional also makes available to our firm other products and services that benefit Transitus Wealth Partners, LLC but may not directly benefit our clients' accounts. Many of these products and services may be used to service all or some substantial number of our client accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist us in managing and administering our clients' accounts include software and other technology that

1. provide access to client account data (such as trade confirmations and account statements);
2. facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
3. provide research, pricing and other market data;
4. facilitate payment of our fees from clients' accounts; and
5. assist with back-office functions, recordkeeping and client reporting.

Schwab Institutional also offers other services intended to help us manage and further develop our business enterprise. These services may include:

1. compliance, legal and business consulting;
 2. publications and conferences on practice management and business succession;
- and
3. access to employee benefits providers, human capital consultants and insurance providers.

Schwab may make available, arrange and/or pay third-party vendors for the types of services rendered to Transitus Wealth Partners, LLC. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. Schwab Institutional may also provide other benefits such as educational events or occasional business entertainment of our personnel. In evaluating whether to recommend or require that clients custody their assets at Schwab, we may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors we consider and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which creates a conflict of interest.

Directed Brokerage – Other Economic Benefits

Raymond James Financial Services, a subsidiary of Raymond James Financial, Inc. (Raymond James) may also provide general access to research, as well as discounts on research products. Any research received is used for the benefit of all clients. Transitus Wealth Partners, LLC has no written or verbal arrangements whereby it receives soft dollars. From time to time, Raymond James may offer Transitus Wealth Partners, LLC employees the ability to attend industry-related conferences or other benefits; however, Transitus Wealth Partners, LLC does not believe that such incentives impair Transitus Wealth Partners, LLC's independence.

Transitus Wealth Partners, LLC may have the opportunity to receive traditional "non-cash benefits" from Raymond James, such as customized statements; receipt of duplicate client confirmations and bundled duplicate statements; access to a trading desk servicing Raymond James advisors exclusively; access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; ability to have investment advisory fees deducted directly from client accounts; access to an electronic communication network for client order entry and account information; access to mutual funds which generally require significantly high minimum initial investments or those that are otherwise only generally available to institutional investors; reporting features; receipt of industry communications; and perhaps discounts on business-related products.

Raymond James may also provide general access to research, as well as discounts on research products. Any research received is used for the benefit of all clients. While Transitus Wealth Partners, LLC endeavors at all times to put the interest of the clients first as part of its fiduciary duty, clients should be aware that the receipt of any additional compensation itself creates a conflict of interest and may affect the judgment of these individuals when making recommendations.

Transitus Wealth Partners, LLC will also review the investment options of the plan according to the agreed upon time intervals established in the IPS. Such reviews will generally occur quarterly.

These accounts are reviewed by: Ross Marino CEO and Mike Giblin, CIO

REPORTS: Consulting Services clients will not typically receive reports due to the nature of the service.

Item 14 Client Referrals and Other Compensation

It is Transitus Wealth Partners, LLC's policy not to engage solicitors or to pay related or non-related persons for referring potential clients to our firm.

It is Transitus Wealth Partners, LLC's policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

In addition to the periodic statements that clients receive directly from their custodians, we also send account statements directly to our clients on a quarterly basis. We urge our clients to carefully compare the information provided on these statements to ensure that all account transactions, holdings and values are correct and current.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- Determine the security to buy or sell; and/or
- Determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.

Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

Item 18 Financial Information

We do require some clients to pay fees that are (a) greater than \$1200 and (b) billed six months or more in advance.
