**FORM ADV PART 2A APPENDIX 1 – WRAP FEE PROGRAM BROCHURE
FEBRUARY 23, 2023**

This brochure provides information about the qualifications and business practices of Oliver LaGore VanValin Investment Group, Inc. ("OLV") If you have any questions about the contents of this brochure, please contact us at 810-744-4450. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. OLV is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about Oliver LaGore VanValin Investment Group, Inc. is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for Oliver LaGore VanValin Investment Group, Inc. is 312989.

ITEM 2 – MATERIAL CHANGES

Summary of Material Changes

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

Since our last Annual Amendment filing with the SEC dated January 31, 2022, the following are material changes to report:

- Item 4 was amended to clarify billing on margin and cash balances and to disclose conflicts of interest.
- Item 6 was amended to add in disclosure regarding Margin Risk.
Item 9 was amended to reflect updated language for the Marketing Rule and using the term “Promoter”.

Currently, a free copy of our Brochure may be requested by contacting Sonya LaGore, Chief Compliance Officer of OLV at 810-744-4450. The Brochure is also available on our web site www.olvinvest.com. We encourage you to read this document in its entirety.

ITEM 4 – SERVICES, FEES & COMPENSATION

We offer a wrap fee program as described in this Wrap Fee Program Brochure. A wrap fee program is generally considered any arrangement under which clients receive investment advisory services and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. All our investment management clients will be offered the wrap fee program structure that includes, as a single fee, the securities transaction costs for trading in Client accounts along with the investment advisory fees earned by our firm. Our firm receives a portion of the wrap fee for the services rendered. While traditional Wrap Fee Programs are often rigid, pre-packaged investment programs, our firm customizes its investment strategies individually for its Clients. Prior to receiving services through the Program, clients are required to enter into a written agreement with our firm setting forth the relevant terms and conditions of the investment advisory relationship (the “Agreement”).

OUR WRAP ADVISORY SERVICES

We manage advisory accounts on a discretionary and non-discretionary basis. For discretionary accounts, once we have determined a profile and investment plan with a client, we will execute the day-to-day transactions without seeking prior client consent but within the expected investment guidelines. Account supervision is guided by the client’s written profile and investment plan. We will accept accounts with certain trading restrictions, if circumstances warrant. We primarily allocate client assets among various equities, Exchanged Traded Funds (“ETFs”), no-load or load-waived mutual funds and cash in accordance with their stated investment objectives. All of which are considered asset allocation categories for the client’s investment strategy.

During personal discussions with clients, we determine the client’s objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review a client’s prior investment history, as well as family composition and background. Based on client needs, we develop a client’s personal profile and investment plan. We then create and manage the client’s investments based on that policy and plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals. Once we have determined the types of investments to be included in a client’s portfolio and have allocated the assets, we provide ongoing investment review and management services.

With our discretionary relationship, we will make changes to the portfolio, as we deem appropriate, to meet client financial objectives. We trade these portfolios based on the combination of our market views and client objectives, using our investment process. We tailor our advisory services to meet the needs of our clients and seek to ensure that your portfolio is managed in a manner consistent with those needs and objectives. Clients have the ability to leave standing instructions with us to refrain from investing in particular industries or invest in limited amounts of securities.

If a non-discretionary relationship is in place, calls will be placed presenting the recommendation made and only upon your authorization will any action be taken on your behalf.

We do have limited authority to direct the Custodian to deduct our investment advisory fees from accounts, but only with the appropriate written authorization from clients.

Where appropriate, we provide advice about any type of legacy position held in client portfolios. Typically, these are assets that are ineligible to be custodied at our primary custodian. Clients will engage us to advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance, annuity contracts, and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans).

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that adversely affect an account's performance. This could result in capital losses in your account.

Our firm may determine that engaging the expertise of an independent sub-adviser is best suited for your account. Our firm will have discretion to utilize independent third-party investment adviser to aid in the implementation of investment strategies for your portfolio. In certain circumstances, we may allocate a portion of a portfolio to an independent third-party investment adviser ("Manager") for separate account management based upon your individual circumstances and objectives, including, but not limited to, your account size and tax circumstances. Upon the recognition of such situations, in coordination with you, we will hire a Manager for the management of those assets. These advisers shall assist our Firm in managing the day-to-day investment operations of the various allocations, shall determine the composition of the investments comprising the allocation, shall determine what securities and other assets of the allocation will be acquired, held, disposed of or loaned in conformity with the written investment objectives, policies and restrictions and other statements of each client comprising the allocation, or as instructed by our Firm.

Managers selected for your investments need to meet several quantitative and qualitative criteria established by us. Among the criteria that may be considered are the Manager's experience, assets under management, performance record, client retention, the level of client services provided, investment style, buy and sell disciplines, capitalization level, and the general investment process.

You are advised and should understand that:

- A Manager's past performance is no guarantee of future results;
- There is a certain market and/or interest rate risk which may adversely effect any Manager's objectives and strategies, and could cause a loss in a Client's account(s); and

- Client risk parameters or comparative index selections provided to our firm are guidelines only and there is no guarantee that they will be met or not be exceeded.

Managers may take discretionary authority to determine the securities to be purchased and sold for the client. As stated in the Discretionary Advisory Agreement, our Firm and its associated persons will have discretionary authority to hire and fire the Manager. Our firm will work with the sub-adviser to communicate any trading restrictions or standing instructions to refrain from a particular industry requested by the Client. In all cases, trading restrictions will depend on the sub-adviser and their ability to accommodate such restrictions.

All performance reporting will be the responsibility of the respective Manager. Such performance reports will be provided directly to you and our firm. Disclosures will indicate what firm is providing the reporting.

Our Firm has entered into agreements with various independent Managers. All third-party Managers to whom we will refer clients will be licensed as registered investment advisors by their resident state and any applicable jurisdictions or registered investment advisors with the Securities and Exchange Commission. A complete description of the Manager's services, fee schedules and account minimums will be disclosed in the Manager's Form ADV or similar Disclosure Brochure.

We review the performance of our Managers on at least a quarterly basis. More frequent reviews may be triggered by changes in Manager's management, performance or geopolitical and macroeconomic specific events. Our Firm only enters into only a select number of relationships with Managers. We have agreed to pay a portion of the overall advisory fee charged to our clients to the Manager.

RELATIVE COST OF THE PROGRAM

A wrap fee program allows our clients to pay a specified fee for investment advisory services and the execution of transactions. Clients do not pay brokerage commissions, markups or transaction charges for execution of transactions in addition to the advisory fee however, most investments trade without transaction fees today, so our payment of these and other incidental custodial related expenses should not be considered a significant factor in determining the relative value of our wrap program.

Although neither Client nor our Firm pay a transaction charge for transactions in the account(s), Client should be aware that our Firm pays the Custodian an annual administrative / asset-based pricing fee based upon a percentage of assets under management within the Wrap Fee Program account – this percentage is capped at 0.15% for accounts held at our recommended Custodian, Fidelity and is capped at 0.30% for accounts in the Envestnet Platform. Because our Firm pays the Custodian an annual administration / asset-based pricing fee in lieu of paying transaction charges, there is a conflict of interest. Client understands that the cost to our Firm of the annual administration fee may be a factor that he/she considers when deciding how much of an annual advisory fee to assess to the account(s).

OLV charges a fee as compensation for providing Investment Management services on your account. These services include advisory and consulting services, trade entry, investment supervision, and other account-maintenance activities. Our recommended custodian charges transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for additional details.

The fees for portfolio management are based on an annual percentage of assets under management and are applied to the account asset value on a pro-rata basis. Fees are billed monthly in arrears based on the average daily balance of the account(s) under our Firm's management. Unless otherwise agreed upon and stated in the Investment Management Agreement, fees are assessed on all assets under management. This includes securities, cash, margin and money market balances. Each of these are considered categories within the asset allocation for the client's investment strategy. Cash balances held outside of investment models are excluded from billing. Securities and margin balances are included as part of assets under management for purposes of calculating the firm's advisory fee. Clients should note that including margin balances within the asset allocation will increase the total assets under management used to calculate advisory fees which will increase the amount of fees collected by our firm. This practice creates a conflict of interest because our firm has an incentive to use margin in order to increase the amount of billable assets. At all times, the firm and its adviser strive to uphold their fiduciary duty and act in the best interest of our clients. When applicable and noted in the Investment Management Agreement, legacy positions can be excluded from the fee calculation.

Our maximum annual advisory fee is for accounts paying a percentage of assets under management is 1.85% and the specific advisory fees are set forth in your Investment Advisory Agreement. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and you as the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated. Our employees and their family related accounts are charged a reduced fee for our services.

Unless otherwise instructed by the client, we will aggregate asset amounts in accounts from your same household together to determine the advisory fee for all your accounts. We would do this, for example, where we also service accounts on behalf of your minor children, individual and joint accounts for a spouse, and/or other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could cause your account(s) to be assessed a lower advisory fee.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Further, the qualified custodian agrees to deliver an account statement monthly directly to you indicating all the amounts deducted from the account including our advisory fees. At our discretion, our Firm will allow advisory fees to be paid

by check as indicated in the Investment Advisory Agreement. You are encouraged to review your account statements for accuracy.

Either OLV or you may terminate the management agreement immediately upon written notice to the other party. The management fee will be pro-rated to the date of termination, for the month in which the cancellation notice was given and billed to your account. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client's death or disability, OLV will continue management of the account until we are notified of client's death or disability and given alternative instructions by an authorized party.

OTHER TYPES OF FEES & EXPENSES

In addition to the advisory fees paid to our Firm, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively "Financial Institutions"). These additional charges include custodial fees, charges imposed by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Our brokerage practices are described at length in Item 12, below.

NON-TRANSACTION FEE (NTF) MUTUAL FUNDS

When selecting investments for our clients' portfolios we might choose mutual funds on your account custodian's Non-Transaction Fee (NTF) list. This means that your account custodian will not charge a transaction fee or commission associated with the purchase or sale of the mutual fund. The mutual fund companies that choose to participate in your custodian's NTF fund program pay a fee to be included in the NTF program. The fee that a mutual fund company pays to participate in the program is ultimately borne by the owners of the mutual fund including clients of our Firm. When we decide whether to choose a fund from your custodian's NTF list or not, we consider our expected holding period of the fund, the position size and the expense ratio of the fund versus alternative funds. Depending on our analysis and future events, NTF funds might not always be in your best interest. Some of our Investment Adviser Representatives ("IARs") of the Firm are licensed Insurance agents registered with various State(s) Insurance Departments. IARs receives compensation (commissions, trails, or other compensation from the respective insurance products) as a result effecting insurance transaction for mutual client(s) of OLV. Refer to Item 10 of the Part 2A Brochure for more information.

ADMINISTRATIVE SERVICES

Through our relationship with AE Wealth Management (AEWM), our Firm utilizes AEWM's technology platform to support data reconciliation, performance reporting, fee calculation and billing, research, client database maintenance, quarterly performance evaluations, payable reports, web site administration, models, trading platforms, and other functions related to the administrative tasks of managing client accounts. Due to this arrangement,

AEWM will have access to client information, but AEW will not serve as an investment adviser to our clients. OLV and AEW are non-affiliated companies. AEW charges our Firm an annual fee for each account administered by AEW. The annual fee is paid from the portion of the management fee retained by us.

ITEM 5 – ACCOUNT REQUIREMENTS & TYPES OF CLIENTS

Our Firm works with the following types of clients: individuals, high net-worth individuals, foundations, employer sponsored retirement plans, charitable organizations, and institutions. We do not impose a minimum account value to initiate our Firm's advisory and money management services.

ITEM 6 – PORTFOLIO MANAGER SELECTION & EVALUATION

PORTFOLIO MANAGER SELECTION

Our Firm serves as the sponsor and portfolio manager for our Wrap Fee Program.

RELATED PERSONS

Our Firm's investment adviser representatives serve as the portfolio manager for the services under this Wrap Fee Program. We only manage this wrap fee program and we do not act as portfolio manager for any third-party wrap fee programs.

SUPERVISED PERSONS

Our investment adviser representatives serve as the portfolio manager for the Wrap Fee Program described in this Wrap Fee Program Brochure. Please refer to the Items 4 and 8 of the Part 2A Disclosure Brochure for details on the services provided by our Firm. For information related to the background of our supervised persons, please see Items 9 and 11 of the Part 2A Disclosure Brochure.

ADVISORY BUSINESS

Refer to Item 4 of this Wrap Fee Brochure for information about our wrap fee advisory program.

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account.

PARTICIPATION IN WRAP FEE PROGRAMS

We offer the wrap fee program to clients who our Firm utilizes a third-party sub-adviser as well as those clients meeting the definition of a high net worth individual. Our Wrap Fee Program is managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc.

PERFORMANCE-BASED FEES & SIDE-BY-SIDE MANAGEMENT

We do not charge advisory fees on a share of the capital appreciation of the funds or securities in a client account (so-called performance-based fees), nor engage side by side management.

METHODS OF ANALYSIS

Our Firm offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. We oversee a consultative process which evaluates the client's unique needs and preferences and matches those with a strategically and/or tactically managed investment portfolio. Our investment management process includes the due diligence and oversight of a diverse set of signal providers with specifically targeted strategies to meet varying risk/return and tax aware expectations. We believe that successful investment management is a combination of skilled analytics and targeted portfolio guidelines organized around specific outcomes tied to the client's financial plan. The financial plan is driven by the clients' unique priority matrix and risk tolerance. Risk tolerance is often specific to account type or goal while also being generalized across the financial plan.

Our investment philosophy is to develop portfolio allocations with the objective of achieving a rate of return adequate to achieve the desired client cash flow needs with a reasonable risk profile structure. We conduct due diligence on each of these potential investments and familiarize ourselves on the key attributes and material risks of the investments, disclose the material information about such investments to client accounts and obtain the clients acknowledgment of agreement to the material risks associated in such investments and continuously monitor the accounts holding such investments.

To develop a complete picture of a client's investment objectives, our investment adviser representatives work one-on-one with the advisory client through the initial and on-going planning process to create an investment plan which fits the client's risk tolerance and investment objectives. Based on this information, we obtain a broad understanding of the client's investment objectives, goals, and the amount of risk the client will tolerate. To further fine tune our understanding of a client's risk tolerance, our Firm does utilize Riskalyze, a third-party vendor tool to assist in identifying the client's risk tolerance.

We prioritize (but is not exclusive to) investment strategies that are supported by rigorous data analytics and algorithmic intelligence. This intelligence is more important than traditional "theories" of investment performance such as "Modern Portfolio Theory." When tax efficiency priorities of the client preclude trading activity, those preferences may be prioritized. Our Firm generally limits its investment advice and/or money management to mutual funds, equities, bonds, fixed income, and ETFs. We may use other securities to help diversify a portfolio when applicable.

The firm often considers research and commentary for outside sources, which include but are not limited to Elliot Wave Technical trading pattern chart interpretation, Economic cycles including Quad analysis from Hedge Eye Nation, and Ciovacco Capital Management. This information is widely disseminated and in no way represents an exclusive relationship between OLV and these resources.

All OLV's proprietary investment models are utilized to meet targeted client goals. The models are actively risk managed within predetermined ranges set by the portfolio managers.

RISK OF LOSS

A client's investment portfolio is affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic conditions, changes in laws and national and international political circumstances.

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. OLV will assist Clients in determining an appropriate strategy based on their tolerance for risk.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account(s). OLV shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform OLV of any changes in financial condition, goals or other factors that may affect this analysis.

Our methods rely on the assumption that the underlying companies within our security allocations are accurately reviewed by the rating agencies and other publicly available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Investors should be aware that accounts are subject to the following risks:

- **MARKET RISK** - Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.
- **FOREIGN SECURITIES AND CURRENCY RISK** - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.
- **CAPITALIZATION RISK** - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services. Their stocks have historically been more volatile than the stocks of larger, more established companies.
- **INTEREST RATE RISK** - In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.
- **CREDIT RISK** - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and thus, impact the fund's performance.
- **SECURITIES LENDING RISK** - Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or

the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

- **EXCHANGE-TRADED FUNDS** - ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets, and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."
- **PERFORMANCE OF UNDERLYING MANAGERS** - We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.
- **CYBERSECURITY RISK** - In addition to the Material Investment Risks listed above, investing involves various operational and "cybersecurity" risks. These risks include both intentional and unintentional events at our firm or one of its third-party counterparties or service providers, that may result in a loss or corruption of data, result in the unauthorized release or other misuse of confidential information, and generally compromise our Firm's ability to conduct its business. A cybersecurity breach may also result in a third-party obtaining unauthorized access to our clients' information, including social security numbers, home addresses, account numbers, account balances, and account holdings. Our Firm has established business continuity plans and risk management systems designed to reduce the risks associated with cybersecurity breaches. However, there are inherent limitations in these plans and systems, including that certain risks may not have been identified, in large part because different or unknown threats may emerge in the future. As such, there is no guarantee that such efforts will succeed, especially because our Firm does not directly control the cybersecurity systems of our third-party service providers. There is also a risk that cybersecurity breaches may not be detected.
- **NON-LIQUID ALTERNATIVE INVESTMENTS** - from time to time, our firm will recommend to certain qualifying clients that a portion of such clients' assets be invested in private funds, private fund-of-funds and/or other alternative investments (collectively, "nonliquid alternative investments"). Nonliquid alternative investments are not suitable for all of our firm's clients and are offered only to those qualifying clients for whom our firm believes such an investment is suitable and in line with their overall investment strategy. Nonliquid alternative investments typically are available to only a limited number of sophisticated investors who meet the definition of "accredited investor" under regulation d of the securities act of 1933, as amended (the "securities act"), or "qualified client" under the investment advisers act of 1940, or "qualified purchaser" under the investment company act of 1940. Nonliquid alternative investments present special risks for our firm's clients, including without limitation, limited liquidity, higher fees and expenses, volatile performance, no assurance of investment returns, heightened risk of loss, limited transparency, additional reliance on underlying management of the investment, special tax considerations, subjective valuations, use of leverage and limited regulatory oversight. When a nonliquid alternative investment invests part or all of its

- assets in real estate properties, there are additional risks that are unique to real estate investing, including but not limited to: limitations of the appraisal value; the borrower's financial conditions (if the underlying property has been obtained by a loan), including the risk of foreclosures on the property; neighborhood values; the supply of and demand for properties of like kind; and certain city, state and/or federal regulations. Additionally, real estate investing is also subject to possible loss due to uninsured losses from natural and man-made disasters. The above list is not exhaustive of all risks related to an investment in nonliquid alternative investments. A more comprehensive discussion of the risks associated with a particular nonliquid investment is set forth in that fund's offering documents, which will be provided to each client subscribing to a nonliquid alternative investment, for review and consideration. It is important that each potential, qualified investor carefully read each offering or private placement memorandum prior to investing.
- **COMMODITIES RISK:** if the commodity is purchased in physical form, such as gold bars and coins, for example, there are risks associated with transporting it from the place of purchase and of storing it securely over time. There are also risks that the transaction costs of buying or selling the physical commodity may be high. Additionally, there may be liquidity risks (one-half of a gold coin cannot be sold, for example). If the commodity is purchased in non-physical form, such as unallocated gold accounts, etfs or other unit and investment trusts, there are risks associated with the movement in gold prices and the ability of the fund or trust manager to respond or deal with those price movements. There also may be initial charges as well as annual management fees associated with the fund or trust.
 - **DIGITAL CURRENCY:** our firm's use of digital currency in a client portfolio is limited only to publicly traded securities that passively or actively invest in digital currency assets. The shares of certain products are also publicly quoted on otc markets and shares that have become unrestricted in accordance with the rules and regulations of the sec may be bought and sold throughout the day through any brokerage account. Cryptocurrency (notably, bitcoin), often referred to as "virtual currency", "digital currency," or "digital assets," operates as a decentralized, peer-to-peer financial exchange and value storage that is used like money. If deemed appropriate, clients may have exposure to bitcoin, a cryptocurrency. Cryptocurrency operates without central authority or banks and is not backed by any government. Cryptocurrencies (i.e., bitcoin) may experience very high volatility. Cryptocurrency is also not legal tender. Federal, state, or foreign governments may restrict the use and exchange of cryptocurrency, and regulation in the u.s. is still developing. The sec has issued a public report stating u.s. federal securities laws require treating some digital assets as securities. Cryptocurrency exchanges may stop operating or permanently shut down due to fraud, technical glitches, hackers, or malware. Due to its relatively recent launch, bitcoin has a limited trading history, making it difficult for investors to evaluate investments in this cryptocurrency. It is possible that another entity could manipulate the blockchain in a manner that is detrimental to the bitcoin network. Bitcoin transactions are irreversible such that an improper transfer can only be undone by the receiver of the bitcoin agreeing to return the bitcoin to the original sender. Digital

assets are highly dependent on their developers and there is no guarantee that development will continue or that developers will not abandon a project with little or no notice. Third parties may assert intellectual property claims relating to the holding and transfer of digital assets, including cryptocurrencies, and their source code. Any threatened action that reduces confidence in a network's long-term ability to hold and transfer cryptocurrency may affect investments in cryptocurrencies. Investments in the products are speculative investments that involve high degrees of risk, including a partial or total loss of invested funds. The shares of each product are intended to reflect the price of the digital asset(s) held by such product (based on digital asset(s) per share), less such product's expenses and other liabilities. Because each product does not currently operate a redemption program, there can be no assurance that the value of such product's shares will reflect the value of the assets held by such product, less such product's expenses and other liabilities, and the shares of such product, if traded on any secondary market, may trade at a substantial premium over, or a substantial discount to, the value of the assets held by such product, less such product's expenses and other liabilities, and such product may be unable to meet its investment objective.

- **OPTION RISK:** variable degree of risk. Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. Traders of options should calculate the extent to which the value of the options must increase for the position to become profitable, taking into account the premium and all transaction costs.
 - The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on futures below). If the purchased options expire worthless, the purchaser will suffer a total loss of the investment. In purchasing deep out-of-the-money options, the purchaser should be aware that the chance of such options becoming profitable ordinarily is remote.
 - Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavorably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller being obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on futures below). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

- Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.
- **MARGIN RISK:** When you purchase securities, you may pay for the securities in full or you may borrow part of the purchase price from your brokerage firm. If you choose to borrow funds through a margin account, securities purchased are the firm's collateral for the loan to you. If the securities in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, the firm can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with the member, in order to maintain the required equity in the account. Investing with margin is characterized by unique risks including amplified losses due to increased leverage; margin calls; forced liquidations; and additional fees including margin interest charges. In order to manage margin risk, we recommend leveraging responsibly (borrowing less than the amount available); keeping a diversified portfolio; and monitoring the account and evaluating risk regularly. Before investing on margin, be sure to read the Margin Disclosure Statement provided by your custodian.

VOTING CLIENT SECURITIES

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not act with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular proxy solicitation by phone at 810-744-4450.

ITEM 7 – CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGER(S)

Our Firm is required to describe the type and frequency of the information it communicates to external managers that may be involved in managing its Clients' investment portfolios. OLV serves as the sole portfolio manager under this Wrap Fee Program and, as such, we have no information to disclose regarding this Item.

ITEM 8 – CLIENT CONTACT WITH PORTFOLIO MANAGER(S)

Our Firm does not place restrictions on the client's ability to contact and consult their financial advisor. As the portfolio manager, clients are free to contact us at any time.

ITEM 9 – ADDITIONAL INFORMATION

All the information disclosed in Item 9 is for Wrap Fee Clients.

DISCIPLINARY INFORMATION

We do not have any legal, financial or other “disciplinary” item to report. No management persons listed on Schedule A/B of the ADV Part 1 have been subject to any criminal or civil actions, administrative proceedings, or self-regulatory organization (SRO) proceedings.

FINANCIAL INDUSTRY ACTIVITIES & AFFILIATIONS

INSURANCE

Some of our IARs are also licensed insurance agents and sell various life insurance products, long term care and fixed annuities. Our IARs receive compensation (commissions, trails, or other compensation from the respective product sponsors) as a result of effecting insurance transactions for clients. A portion of the time IARs spend (generally 10%) is in connection with these insurance activities and it represents 10% of the ongoing revenue for our IARs. The adviser has an incentive to recommend insurance and this incentive creates a conflict of interest between your interests and our Firm. Clients should note that they have the right to decide whether or not to engage the services of our IARs. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any insurance products through our IAR or any licensed insurance agent not affiliated with our Firm. We recognize the fiduciary responsibility to place your interests first and have established policies in this regard to avoid any conflicts of interest.

BROKER DEALER

Certain IARs of OLV are registered representatives of AE Financial Services, LLC, a securities broker-dealer and will be compensated for effecting securities transactions or providing advisory services. A portion of the time of OLV and these IARs is spent in connection with broker/dealer activities.

As a broker-dealer, AE Financial Services engages in a broad range of activities normally associated with securities brokerage firms. Pursuant to the investment advice given by OLV or its IARs, investments in securities may be recommended for clients. If AE Financial Services is selected as the broker-dealer, AE Financial Services and its registered representatives, including IARs of OLV, may receive commissions for executing securities transactions. When IARs of OLV receive commissions in connection with the advice given to advisory clients, OLV may reduce a portion of its fees by the amount of the commissions earned by OLV IARs. Clients that purchase any products resulting in commission to the registered representative will not be assessed an advisory fee on those products sold through the broker-dealer.

You are advised that if AE Financial Services is selected as the broker-dealer, the transaction charges may be higher or lower than the charges you may pay if the transactions were executed at other broker/dealers. You should note, however, that you have the right to decide to purchase products through the broker dealer. If you do decide to purchase products, you have the right to choose from whom you will purchase the products.

OLV may provide advice regarding mutual fund securities. You should be aware that, in addition to the advisory fees you pay in connection with any OLV program, each investment company also pays its own separate investment advisory fees and other expenses. Mutual funds also charge their own internal separate fees for investing in their fund. Such fees and expenses are disclosed in the mutual fund's prospectus. In addition, clients should be aware that mutual funds may be purchased separately, independent of the investment management services of OLV and fees of OLV.

Moreover, you should note that under the rules and regulations of FINRA, AE Financial Services has an obligation to maintain certain client records and perform other functions regarding certain aspects of the investment advisory activities of its registered representatives. These obligations require AE Financial Services to coordinate with and have the cooperation of its registered representatives that operate as, or are otherwise associated with, investment advisers other than AE Financial Services.

SUB ADVISOR RELATIONSHIPS

Please refer to Item 4 and Item 5 above for more information about the selection of sub-advisors used with our services. Our firm pays a portion of the advisory fee to the sub-advisor. A conflict of interest for our firm in utilizing a sub adviser is receipt of discounts or services not available to us from other similar sub advisers. In order to minimize this conflict our firm will make our recommendations and selections of sub-advisors in the best interest of our clients.

OTHER AFFILIATIONS

Sonya LaGore, Joel LaGore, Jesse VanValin and Elizabeth VanValin, owners of OLV, are Members of OLV Foundation, an entity established for bookkeeping purposes to manage 501 C-3 gifts and grants. This entity is not investment related and very minimal time is spent on this entity's activities during trading hours. No additional compensation is received from this entity.

Sonya LaGore, Joel LaGore, Jesse VanValin and Elizabeth VanValin, owners of OLV, are Members of OLV Real Estate, an entity used for personal real estate investments. This is a non-investment related activity in very minimal time is spent during trading hours. No additional compensation is received from this entity.

OLV Tax Services is an entity used to market the services of the tax Preparation services described in Item 4 of the Part 2A Brochure. All compensation received from the services offered by OLV Tax Services is received through OLV. The Firm has engaged various CPAs to provide tax planning and preparation for individuals and business owners. There is no affiliation or common ownership with any of the CPA firms. Accounting services provided by these CPAs may be separate and distinct from our advisory services. Clients are under no obligation to utilize the services of the tax planning and preparation.

Clients should be aware that the ability to receive additional compensation by our Firm and its management persons or employees creates conflicts of interest that impair the objectivity of the Firm and these individuals when making advisory recommendations. Our

Firm endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees;
- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees.
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives, and liquidity needs.
- the Firm conducts regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client's needs and circumstances.
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed.
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Our Firm does not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing entities.

BROKERAGE PRACTICES

We generally recommend that clients utilize the custody, brokerage and clearing services of Fidelity Institutional Wealth Services ("Fidelity") for investment management accounts. We may recommend other custodians beside Fidelity based on your needs and the services offered (defined in this document as "Custodian(s)").

We recommend that you establish accounts with these Custodians to maintain custody of your assets and to effect trades for your accounts. Some of the products, services and other benefits provided by our Custodians benefit us and may not benefit you or your account. Our recommendation/requirement that you place assets with one of these Custodians may be based in part on benefits they provide us, and not solely on the nature, cost or quality of custody and execution services provided by the custodian. The Custodian we utilize makes available to us other products and services that benefit us but may not benefit your accounts in every case.

Fidelity Institutional Wealth Services (“Fidelity”) provides various benefits and payments to registered investment advisers that are new to the Fidelity custodial platform to assist the firm with the costs associated with starting a Registered Investment Advisory firm and transitioning the business to Fidelity. Some of the other Fidelity products and services assist us in managing and administering your accounts. These include software and technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of our fees from your account, and assist with back-office functions, recordkeeping and reporting.

We are independently owned and operated and not affiliated with these Custodians. They provide us with access to their institutional trading and custody services. These services include brokerage, custody, research and access to mutual funds and other investments that are otherwise generally available only to institutional investors.

You have the right to not act upon any recommendations, and if you elect to act upon any recommendations, you have the right to not place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker’s cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

We place trades for your account subject to our duty to seek best execution and other fiduciary duties. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions. The Custodian’s execution quality may be different than other broker-dealers.

Many of these services generally may be used to service all or a substantial number of our accounts. The Custodians also make available to us other services intended to help us manage and further develop our business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, and marketing. In addition, the custodians may make available, arrange and/or pay for these services rendered to us by third parties. The Custodians may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to us.

While as a fiduciary, we endeavor to act in your best interest, our recommendation that you maintain your assets in accounts at our recommended custodians may be based in part on the benefit to us or the availability of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by the custodian, which may create a conflict of interest. IARs endeavor at all times to put the interest of our clients first as a part of their fiduciary duty.

There is no direct link between our participation in a Custodian's platform and the investment advice we give to our clients. We/you may receive economic benefits through our participation in the platforms that may not be available to other advisors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. The Custodians may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by the Custodians through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at the Custodians. Other services made available by the Custodians are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to the Custodians. As part of our fiduciary duties to clients, we endeavor at all times to act in the best interest of our clients. You should be aware, however, that the receipt of economic benefits by us or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of the Custodians for custody and brokerage services.

Our Firm annually reviews the relationship between our Custodian, OLV and the client in order to determine if the custodial relationship is in the best interest of the client.

AGGREGATION AND ALLOCATION OF TRANSACTIONS

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Investment Advisory Agreement. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day. We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

- Our policy for the aggregation of transactions shall be fully disclosed separately to our existing clients (if any) and the broker/dealer(s) through which such transactions will be placed.
- We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best

price) for you and is consistent with the terms of our Investment Advisory Agreement with you for which trades are being aggregated.

- No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction.
- We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients.
- If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
- Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
- We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
- Individual advice and treatment will be accorded to each advisory client.

BROKERAGE FOR CLIENT REFERRALS

Our Firm does not receive client referrals from any Custodian or third party in exchange for using that broker-dealer or third party.

TRADE ERRORS

We have implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and we will absorb any loss resulting from the trade error if the error was caused by the firm. If the error is caused by the Custodian, the Custodian will be responsible for covering all trade error costs. If an investment gain results from the correcting trade, the gain will be held in an account to offset future potential trade error losses within the same calendar year. We will take any remaining monetary positive balance in the trade error account of that calendar year and donate those funds to a 501c3 of choice. We will never benefit or profit from trade errors.

DIRECTED BROKERAGE

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS & PERSONAL TRADING

Our Firm and persons associated with us are allowed to invest for their own accounts, or to have a financial investment in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as or different than transactions recommended to or made for your account. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest.

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to protect our clients to detect and deter misconduct, educate personnel regarding the Firm's expectations and laws governing their conduct, remind personnel that they are in a position of trust and must act with complete propriety at all times, protect the reputation of OLV, safeguard against the violation of the securities laws, and establish procedures for personnel to follow so that we may determine whether their personnel are complying with the Firm's ethical principles.

We have established the following restrictions in order to ensure our Firm's fiduciary responsibilities:

- No supervised employee of OLV shall prefer his or her own interest to that of the advisory client. Trades for supervised employees are traded alongside client accounts.
- We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of OLV.
- We emphasize the unrestricted right of the client to decline implementation of any advice rendered, except in situations where we are granted discretionary authority of the client's account.
- We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- Any supervised employee not in observance of the above may be subject to termination.

None of our associated persons may affect for himself/herself or for accounts in which he/she holds a beneficial interest, any transactions in a security which is being actively recommended to any of our clients, unless in accordance with the Firm's procedures.

You may request a complete copy of our Code by contacting us at the address, telephone, or email on the cover page of this Part 2; ATTN: Sonya LaGore, Chief Compliance Officer.

ACCOUNT REVIEWS AND REVIEWERS – INVESTMENT SUPERVISORY SERVICES

Our Investment Adviser Representatives will monitor client accounts on a regular basis and perform annual reviews with each client. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance, and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax, or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. You are urged to notify us of any changes in your personal circumstances.

STATEMENTS AND REPORTS

Reports from our Firm are generated for clients on an annual basis or as requested. These reports show the rate of return of accounts under management of OLV.

The custodian for the individual client's account will also provide clients with an account statement at least quarterly. You are urged to compare the reports and invoices provided by OLV against the account statements you receive directly from your account custodian.

CLIENT REFERRALS & OTHER COMPENSATION

Our Firm receives a referral fee for acting as an independent Promoter. For certain legacy accounts, our Firm representatives provided client referrals to an independent Registered Investment Adviser. Our Firm has disclosed this referral arrangement to each client whom our firm's representatives receive a portion of the advisory fees earned for managing the account(s) of the client that was referred. A client referred to this independent Registered Investment Adviser by representatives from our firm will not pay a higher advisory fee as a result of the referral.

Our firm does not pay out any third party compensation for any client referrals.

Our Firm received an economic benefit from AE Wealth Management, LLC in the form of a loan (\$400,000), which is forgiven over a five-year period, if our Firm meets certain conditions in terms of maintaining a relationship with AE Wealth Management, LLC.

The amount of the loan, paid to the Firm in May 2021, represents a substantial payment. Forgiveness of the loan, in whole or in part, is conditioned on OLV Investment Group remaining affiliated with AE Wealth Management, LLC and is based on 90% of OLV client assets being maintained with AE Wealth Management and as such, our representatives have a financial incentive to recommend that its clients maintain their accounts with AE Wealth Management.

From time to time, we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense

reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing-expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

Our Firm may be asked to recommend a financial professional, such as an attorney, accountant, or mortgage broker. In such cases, our Firm does not receive any direct compensation in return for any referrals made to individuals or firms in our professional network. Clients must independently evaluate these firms or individuals before engaging in business with them and clients have the right to choose any financial professional to conduct business. Individuals and firms in our financial professional network may refer clients to our Firm. Again, our Firm does not pay any direct compensation in return for any referrals made to our Firm. Our Firm does recognize the fiduciary responsibility to place your interests first and have established policies in this regard to mitigate any conflicts of interest.

CUSTODY

Custody, as it applies to investment advisors, has been defined by regulators as having access or control over client funds and/or securities. In other words, custody is not limited to physically holding client funds and securities. If an investment adviser has the ability to access or control client funds or securities, the investment adviser is deemed to have custody and must ensure proper procedures are implemented.

While our firm does not maintain physical custody of client assets (which are maintained by a qualified custodian, as discussed above), we are deemed to have custody of certain client assets if given the authority to withdraw assets from client accounts, as further described below under “Standing Instructions”. All our clients receive account statements directly from their qualified custodian(s) at least quarterly upon opening of an account. We urge our clients to carefully review these statements. Additionally, if our firm decides to send its own account statements to clients, such statements will include a legend that recommends the client compare the account statements received from the qualified custodian with those received from our firm. Clients are encouraged to raise any questions with us about the custody, safety or security of their assets and our custodial recommendations.

The SEC issued a no-action letter (“Letter”) with respect to the Rule 206(4)-2 (“Custody Rule”) under the Investment Advisers Act of 1940 (“Advisers Act”). The letter provided guidance on the Custody Rule as well as clarified that an adviser who has the power to disburse client funds to a third party under a standing letter of instruction (“SLOA”) is deemed to have custody. As such, our Firm has adopted the following safeguards in conjunction with our custodians:

- The client provides an instruction to the qualified custodian, in writing, that includes the client's signature, the third party's name, and either the third party's address or the third party's account number at a custodian to which the transfer should be directed.
- The client authorizes the investment adviser, in writing, either on the qualified custodian's form or separately, to direct transfers to the third party either on a specified schedule or from time to time.
- The client's qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the client's authorization and provides a transfer of funds notice to the client promptly after each transfer.
- The client has the ability to terminate or change the instruction to the client's qualified custodian.
- The investment adviser has no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the client's instruction.
- The investment adviser maintains records showing that the third party is not a related party of the investment adviser or located at the same address as the investment adviser.
- The client's qualified custodian sends the client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

OLV is deemed to have custody of client funds and securities whenever OLV is given the authority to have fees deducted directly from client accounts. However, this is the only form of custody OLV will ever maintain. It should be noted that authorization to trade in client accounts is not deemed by regulators to be custody.

Account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from OLV. When you have questions about your account statements, you should contact OLV or the qualified custodian preparing the statement.

SOFT DOLLARS

Our Firm does not accept any direct soft dollars.

DIRECTED BROKERAGE

Neither we nor any of our Firm's related persons have discretionary authority in making the determination of the brokers with whom orders for the purchase or sale of securities are placed for execution, and the commission rates at which such securities transactions are effected. We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

FINANCIAL INFORMATION

We do not require or solicit prepayment of more than \$1200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.
