Item 4. Advisory Business

Baird Venture Partners Management Company IV, LLC (“Baird Venture IV” or the “Adviser”), the registered investment adviser, is a Delaware limited liability company. Baird Venture IV was formed to provide “investment supervisory services” to its clients, which consist of private investment-related funds, including Baird Venture Partners IV Limited Partnership, BVP IV Special Affiliates Limited Partnership and BVP IV Affiliates Fund Limited Partnership (collectively, the “Partnerships” or the “Funds,” and together with any future private investment funds, “Private Investment Funds”). Baird Venture IV is also the general partner of the Funds (the “General Partner”), and has the authority to make the investment decisions for the Funds and control the business and affairs of the Funds. The General Partner was formed by Venture Capital (“VC”), the U.S. based venture capital group of Baird Capital (“BC”), the global private equity group of Robert W. Baird & Co. Incorporated (“Baird”). BC was founded in 1989 and is headquartered in Chicago, Illinois. Baird is the principal owner of Baird Venture IV. Baird Financial Corporation (“BFC”) owns 100% of Baird and Baird Financial Group, Inc. owns 100% of BFC.

The Funds and any other Private Investment Funds that may be formed by the General Partner (or its affiliates) at a later date or that may otherwise become clients of the General Partner are expected to invest through negotiated transactions in operating entities. The General Partner’s investment advisory services to each Fund consist of identifying and evaluating investment opportunities, negotiating investments, managing and monitoring investments and achieving dispositions for such investments. As the General Partner provides advisory services to the Funds, the General Partner does not tailor its advisory services to the needs of individual investors nor does it permit individual investors to impose restrictions on investing in certain securities or types of securities. However, the General Partner has entered into side letters with certain investors in which the General Partner has certain obligations. Those obligations include the requirement to make certain investments in the State of Michigan and provide certain reports to a particular investor. If the General Partner does not make certain types of investments in the State of Michigan and/or provide certain reports to a certain investor, the General Partner may have to refund and/or reduce the management fee paid or payable by such investor. As of December 31, 2021, Baird Venture IV managed \$247.8 million on a discretionary basis and no assets on a non-discretionary basis.

Item 5. Fees and Compensation (Capitalized terms not defined herein have the meaning as set forth in the applicable Fund’s partnership agreement)

Management and Performance-Based Fees

2.0% Management Fee - commencing as of the effective date, as defined in the Fund’s Limited Partnership Agreement (the “Effective Date”) and during the investment period, as defined in the Fund’s Limited Partnership Agreement (the “Investment Period”), the Fund will pay the General Partner an annual management fee (the “Management Fee”), payable quarterly in advance, equal to 2.0% of aggregate commitments. In addition, commencing with the 12-month period beginning on the first Management Fee due date after the expiration of the Investment Period or earlier upon the occurrence of certain events as set forth in the Partnership Agreement, and for each succeeding 12-month period, the Management Fee will be reduced to 90% of the Management Fee for the immediately preceding 12-month period (calculated without giving effect to any reduction in the Management Fee on account of fees received by the General Partner); provided that, commencing with the first Management Fee due date after the expiration of the Fund’s initial 10-year term, the Management Fee will equal 2.0% per annum of the aggregate amount of investment contributions with respect to the portion of each investment that has not been disposed of or completely written off; provided further that investments in a portfolio company that have been disposed of or completely written-off will be treated as such only to the extent that, as of the date of any such disposition or write-off, the aggregate fair market value of all remaining Fund investments in such portfolio company is less than the Fund’s aggregate investment contributions made with respect to such portfolio company.

Management Fee Offset - the management fee will be reduced by 100% of any Transaction Fees for the quarterly period immediately succeeding the quarterly period in which the Transaction Fee was received by the Management Person.

Payment of Management Fee - If the investor has specified an account at Baird, after the General Partner gives notice to the investor, Baird will deduct the Management Fee and other expenses from the investor’s account. If the investor does not have an account at Baird, the General Partner will notify the investor as to when the Management Fee is payable.

Carried Interest - after the Fund has achieved a 6% compounded annually preferred return, the General Partner will receive a carried interest or performance fee from investors in the Fund equal to 20% of distributions, including distributions of net cash proceeds from the sale of securities and distributions of securities in kind, together with dividends and interest income received with respect to investments in portfolio companies (as more fully described in the Partnership Agreement, including a “catch up” mechanism for the General Partner).

Inability to Withdraw - the Funds and other private investment funds invest on a long-term basis. Accordingly, investment advisory (i.e., management fee) and other fees are paid during the term of each Fund and investors generally are not permitted to withdraw or redeem interests in the Fund.

Expenses Charged to the Funds

The Funds bear all fees and expenses related to the investment activities and business of the Funds and the administration of the Funds (collectively “Partnership Expenses”). Further, to the extent portfolio companies bear any such expenses – then the Funds will indirectly bear these expenses to the extent of the Funds’ ownership of the respective portfolio company. Partnership Expenses are borne pro rata based on commitments in the applicable Fund.

The Partnership Agreement of each Fund provides extensive details of Partnership Expenses that are borne by the Funds and should be read in conjunction with this document to fully understand the breath of the Partnership Expenses. A broad overview of Partnership Expenses is as follows. This list is high-level and is intended to provide a general understanding of the nature and type of fees and expenses charged to the Funds.

- a) *Investment Related Expenses* – to the extent not borne or reimbursed by a portfolio company or potential portfolio company, a general description of investment related fees and expenses is as follows:
 - a. *Investment Sourcing Activities* – activities with respect to originating, identifying, and sourcing investment opportunities for the Funds, whether or not ultimately consummated.
 - b. *Investment Management Activities* – encompass all aspects of pursuing, completing, managing, and exiting investments. Examples of these activities include due diligence, structuring, negotiating, and financing. Numerous services providers are typically engaged in these activities and may include, for example, attorneys, accountants, investment bankers, lenders, and industry experts. In addition, travel and other expenses are incurred in connection with investment management activities. These fees and expenses relate to both investments that are completed and investments that are pursued and not completed (often referred to as “dead deals”). Further, these fees and expenses include potential co-investors’ proportionate share of fees and expenses related to any transactions not consummated.
- b) *Partnership administration* – in general, related fees and expenses include:
 - a. Organizational expenses – costs and expenses incurred in connection with the formation and organization of such Funds and its General Partner and/or investment manager; subject to a cap defined in the respective partnership agreements. Expenses paid by the Fund in excess of the cap are offset 100% against management fees;
 - b. Placement fees – to the extent paid by a Fund, these fees are 100% offset against management fees;
 - c. Management fees paid by the Fund to the General Partner;
 - d. Professional services (e.g., accounting, tax, audit, etc.);
 - e. Fund administration; and
 - f. Other Expenses – such as insurance, reporting and regulatory filings, partnership debt facilities, partnership taxes, limited partner committee and strategic advisory board activities, alternative investment vehicles, legal and government matters.

Note, Fund administration encompasses costs associated with numerous activities such as maintaining a Fund’s accounting and tax records, making capital calls and distributions, maintaining the Funds’ bank accounts, preparation and distribution of financial reports and working with the Funds’ tax advisors on the preparation and distribution of Schedule K-1’s, K-3’s and other tax documents. These services may be provided by any third-party administrator or employees or affiliates of Baird or the Funds’ General Partner.

Historically, and the expectation is that going forward, Partnership / Fund administration services have been provided by employees of Baird. As discussed in further detail in the “Potential Conflicts of Interest” section below, the Funds’ Partnership Agreements provide that Baird and its affiliates are allowed to provided certain of the services, including Fund administration, to the Funds provided that such Fund’s General Partner, in its reasonable discretion, believes in good faith that Baird or its affiliates can provide such services at no greater cost than would be the case if third-parties were to provide such services. Baird periodically solicits bids from third-party fund administrators to confirm the costs of these services provided by Baird are, in fact, no greater than would be the case if these services were provided by a third-party.

Partnership Expenses do not include ordinary overhead and administrative expenses that are payable by the Funds’ General Partner in connection with maintaining and operating their respective offices (including salaries, bonuses and benefits, rent and equipment expenses), to the extent not borne or reimbursed by a portfolio company. The costs of these expenses are covered by management fees paid to the General Partner.

In addition, Partnership Expenses do not include expenses solely relating to: (i) the registration of the Adviser as an investment adviser under the Investment Advisers Act, (ii) any Form ADV reporting or the compliance activities of the Adviser as a registered investment adviser; and (iii) any Securities and Exchange Commission examinations of the Adviser.

Other Fees and Potential Conflicts of Interest

Baird and Affiliate Services to the Fund / Fees without Offset – Baird and/or its Affiliates may provide certain services to the Partnership, such as accounting or brokerage services, and may charge the partnership for these services provided that the General Partner in its reasonable discretion believes in good faith that Baird can provide such services at no greater cost than would be the case if an unaffiliated third-party were to provide such services. Fees for such services will not be offset against the management fee. Baird, in particular, does provide fund-administration services to the Partnership. The cost of these services is disclosed annually to the Limited Partnership Committee as well as in the footnotes to the annual audited financial statements of the Partnership.

Baird and Affiliate Services to Portfolio Companies / Fees without Offset – the LPA for the Fund states that, notwithstanding anything to the contrary in the LPA, Baird, and its affiliates may provide certain services to portfolio companies (e.g., underwriting or private placement of securities, merger and acquisition advice, strategic alliance advice, other financial advisory services or consulting services in connection with the evaluation, development and implementation of appropriate sourcing, manufacturing and/or distribution strategies) that are not subject to a management fee offset provided the Adviser believes in good faith that such services can be provided at a reasonable cost relative to the value provided to the portfolio company.

Because BVP IV only makes minority / non-control investments, the Adviser is not in a position to control the service providers used by its portfolio companies. However, the Adviser intends to encourage the use of such services of Baird or its affiliates when it believes it is in the best interest of the portfolio company. Historically, Baird and its affiliates have had limited opportunities to provide services to the portfolio companies of BVP IV.

Baird Associates Compensated for Solicitation of Investors in the Fund – the General Partner has entered into solicitation arrangements pursuant to which it compensated persons, including Principals and employees of Baird or its affiliates, for client referrals that resulted in the provision of investment advisory services by the General Partner. This payment may have given Baird and employees of Baird an incentive to recommend an investment in the Fund based on compensation received, rather than on an investor's needs; however, this compensation, if any, was paid by the General Partner and not by the investor. To address this potential conflict, the Baird employee recommending the investment in the Fund must make the determination that the investment in the Fund was suitable for that investor. If the investor's investment in the Fund is held in a Baird fee-based account, the investor will not be charged an asset based fee on the value of the investor's BVP IV holdings. The Funds may enter into side letters or similar agreements whereby the Funds agree to waive, reduce or vary the Management Fees or carried interest or other performance fees with respect to one or more investors. Any such waiver, reduction or variation may be more favorable to certain investors than to the investors generally.

Other Fee Arrangements – the General Partner has not negotiated a fee arrangement other than as described herein with any other investor. However, as previously mentioned, the General Partner has entered into side letters with certain investors in which the General Partner has certain obligations. Those obligations include the requirement to make certain investments in the State of Michigan and provide certain reports to a particular investor. If the General Partner does not make certain types of investments in the State of Michigan and/or provide certain reports to a certain investor, the General Partner may have to refund and/or reduce the management fee paid or payable by such investor.

Item 6. Performance-Based Fees and Side-By-Side Management

After the Fund has achieved a 6% compounded annually preferred return, the General Partner will receive a carried interest or performance fee from investors in the Fund equal to 20% of distributions, including distributions of net cash proceeds from the sale of securities and distributions of securities in kind, together with dividends and interest income received with respect to investments in portfolio companies (as more fully described in the Partnership Agreement, including a "catch up" mechanism for the General Partner). The fact that the General Partner's carried interest is based on a percentage of distributions may create an incentive for the General Partner to cause the Fund to make riskier or more speculative investments than otherwise would be the case. The significant investment of the members of the investment team (the "Principals"), Baird and clients of Baird's Private Wealth Management business in the Fund and the Principals' interest in the carried interest, operate to align, to some extent, the interest of the Principals with the interest of the investors, although the Principals have economic interests in such other investment funds and investments as well and receive management fees and carried interests relating to those interests. The General Partner does not currently manage any Funds that do not charge a performance-based fee.

Item 7. Types of Clients

The General Partner provides investment advice to Private Investment Funds. Private Investment Funds are investment partnerships or other investment entities formed under domestic or foreign laws and operated as exempt investment pools under the Investment Company Act of 1940, as amended (the "Investment Company Act"). The investors participating in Private Investment Funds may include individuals, banks or thrift institutions, other investment entities, pension and profit-sharing plans, trusts, estates or charitable organizations or other corporations or business entities and include, directly or indirectly, Baird, Principals or other employees of the General Partner and its affiliates and clients of Baird's Private Wealth Management business. Except for the BVP IV Affiliates Fund Limited Partnership, the minimum commitment of an investor who is an individual is \$250,000 and the minimum

commitment of an institutional investor is \$1 million, although individual investor commitments of lesser amounts may be accepted at the discretion of the General Partner.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss

The Fund's investment portfolio will consist primarily of securities issued by privately held companies, and operating results in a specified period will be difficult to predict. Such investments involve a high degree of business and financial risk that can result in substantial losses that clients should be prepared to bear.

The General Partner will provide day-to-day investment advisory services to each Fund. Accordingly, the General Partner's investment methodology is described below. The investment strategy of the General Partner is to seek to increase the value of, and to find desirable exit opportunities for, the investments in the Fund. The General Partner seeks to provide returns to investors by (i) using their networks to source attractive businesses, (ii) performing detailed deal evaluation and due diligence to select, structure and appropriately price investments, and (iii) actively managing the Fund's investments in conjunction with portfolio company management. Accordingly, the General Partner's investment methodology includes deal flow, detailed due diligence and active portfolio management. The General Partner uses a deal origination model that leverages both the Baird network for proprietary opportunities and market intelligence provided through VC's advisory boards, other BC funds and Baird's investment banking, equity research and private wealth management groups. The General Partner will continue to develop relationships with established networks of founders and entrepreneurs, executives, co-investors, consultants, attorneys, investment bankers and government/regulatory officials to serve as sources of deal flow. The General Partner will perform detailed due diligence activities for identified investment opportunities, encompassing, as appropriate, the market, products, competition, management, intellectual property, deal structure, valuation, financial projections and return expectations. The General Partner will be actively involved with the Fund's portfolio companies, providing on-going strategic direction and operational support.

VC uses Venture Partners. The relationship of Venture Partners with Baird is that of an independent contractor. With respect to the Partnership Agreement, Venture Partners are not Active Members, Management Persons, employees or otherwise dedicated resources of Baird or the Adviser. Venture Partners are compensated by the following: a retainer fee paid by the Adviser for fund-level strategic advice, investment sourcing assistance, and investment due diligence assistance, and may also be compensated by portfolio companies for services provided directly to the respective company or companies (e.g., board participation, mentoring and advising management, industry expertise, etc.). Compensation paid by portfolio companies to Venture Partners may include, but may not be limited to, the following forms of compensation: board of director participation fees, stock options or other equity securities and other cash compensation, such as consulting fees. The compensation received by Venture Partners is not used in whole or part to offset the management fee paid by the Fund. In addition, Venture Partners may co-invest their own personal capital in portfolio companies.

An investor should be aware of certain risk factors, which include those described in the Private Placement Memorandum and those include, but are not limited to, the following:

Business Risks – the Fund's investment portfolio may consist primarily of securities issued by privately held unseasoned companies, and operating results in a specified period will be difficult to predict. Such investments involve a high degree of business and financial risk that can result in substantial losses.

Future and Past Performance – the performance of the General Partner's Principals' prior investments is not necessarily indicative of the Fund's future results. While the General Partner intends for the Fund to make investments that have estimated returns commensurate with the risks undertaken, there can be no assurances that any targeted internal rate of return will be achieved. On any given investment, loss of principal is possible.

Investment in Junior Securities – the securities in which the Fund will invest may be among the most junior in a portfolio company's capital structure and, thus, subject to the greatest risk of loss. Generally, there will be no collateral to protect the Fund's investment once made.

Concentration of Investments – the Fund will participate in a limited number of investments and may seek to make several investments in one industry or one industry segment. As a result, the Fund's investment portfolio could become highly concentrated, and the performance of a few holdings or of a particular industry may substantially affect its aggregate return. Furthermore, to the extent that the capital raised is less than the targeted amount, the Fund may invest in fewer portfolio companies and thus be less diversified.

Lack of Sufficient Investment Opportunities – the business of identifying and structuring private equity transactions is highly competitive and involves a high degree of uncertainty. It is possible that the Fund will never be fully invested if enough sufficiently attractive investments are not identified. However, Limited Partners will be required to pay Management Fees during the Investment Period based on the entire amount of the Limited Partners' commitments.

Healthcare Regulation, Reimbursement and Reform – various segments of the healthcare industry are (or may become) (i) highly regulated at both the federal and state levels in the United States and internationally, (ii) subject to frequent regulatory change

and (iii) dependent upon various government or private insurance reimbursement programs. While the Fund intends to make investments in companies that comply with relevant laws and regulations, certain aspects of their operations may not have been subject to judicial or regulatory interpretation. An adverse review or determination by any one of such authorities, or an adverse change in the regulatory requirements or reimbursement programs, could have a material adverse effect on the operations of the companies in which the Fund invests. Recent legislative changes have had, and will likely continue to have, a significant impact on the healthcare industry. In addition, various legislative proposals related to the healthcare industry are introduced from time to time at the United States federal and state level, and any such proposals, if adopted, could have a significant impact on the healthcare industry.

Illiquidity; Lack of Current Distributions – an investment in the Fund should be viewed as illiquid. It is uncertain as to when profits, if any, will be realized. Losses on unsuccessful investments may be realized before gains on successful investments are realized. The return of capital and the realization of gains, if any, generally will occur only upon the partial or complete disposition of an investment. While an investment may be sold at any time, it is generally expected that this will not occur for a number of years after the initial investment. Before such time, there may be no current return on the investment. Furthermore, the expenses of operating the Fund (including the Management Fee payable to the General Partner) may exceed its income, thereby requiring that the difference be paid from the Fund's capital, including, without limitation, unfunded commitments.

Leveraged Investments – the Fund may make use of leverage by having a portfolio company incur debt to finance a portion of its investment in such portfolio company, including in respect of companies not rated by credit agencies. Leverage generally magnifies both the Fund's opportunities for gain and its risk of loss from a particular investment. The cost and availability of leverage is highly dependent on the state of the broader credit markets, which state is difficult to accurately forecast, and at times it may be difficult to obtain or maintain the desired degree of leverage. The use of leverage also imposes restrictive financial and operating covenants on a company, in addition to the burden of debt service, and may impair its ability to finance future operations and capital needs. The leveraged capital structure of portfolio companies will increase the exposure of the Fund's investments to any deterioration in a company's condition or industry, competitive pressures, an adverse economic environment or rising interest rates and could accelerate and magnify declines in the value of the Fund's investments in the leveraged portfolio companies in a down market. In the event any portfolio company cannot generate adequate cash flow to meet debt service, the Fund may suffer a partial or total loss of capital invested in the portfolio company, which could adversely affect the returns of the Fund. Furthermore, should the credit markets be tight at the time the Fund determines that it is desirable to sell all or a part of a portfolio company, the Fund may not achieve an exit multiple or enterprise valuation consistent with its forecasts. Moreover, the companies in which the Fund will invest generally will not be rated by a credit rating agency.

Focus on Early-Stage and Start-Up Investments – it is anticipated that the Fund will make investments primarily in start-up and early-stage companies that have inherently greater risk than more established businesses. Accordingly, the growth of these companies may require significant time and effort resulting in a longer investment horizon than can be expected with lower risk investment alternatives. Such investments can experience failure or substantial declines in value at any stage. There is no assurance that such investments by the Fund will be successful.

Limited Transferability of Fund Interests – there will be no public market for the Fund interests, and none is expected to develop. There are substantial restrictions upon the transferability of Fund interests under the Partnership Agreement and applicable securities laws. In general, withdrawals of Fund interests are not permitted. In addition, Fund interests are not redeemable.

Restricted Nature of Investment Positions – generally, there will be no readily available market for Fund investments, and hence, most of the Fund's investments will be difficult to value. Certain investments may be distributed in kind to the Partners.

Reliance on the General Partner and Portfolio Company Management – the Fund has no operating history and will be dependent on the General Partner. Control over the operation of the Fund will be vested with the General Partner, and the Fund's future profitability will depend largely upon the business and investment acumen of the Principals. The loss or reduction of service of one or more of the Principals could have an adverse effect on the Fund's ability to realize its investment objectives. Limited Partners generally have no right or power to take part in the management of the Fund, and as a result, the investment performance of the Fund will depend on the actions of the General Partner. In addition, certain changes in the General Partner or circumstances relating to the General Partner may have an adverse effect on the Fund or one or more of its portfolio companies including potential acceleration of debt facilities.

Although the General Partner will monitor the performance of each Fund investment, it will primarily be the responsibility of each portfolio company's management team to operate such portfolio company on a day-to-day basis. Although the Fund generally intends to invest in companies with strong management or recruit strong management to such companies, there can be no assurance that the management of such companies will be able or willing to successfully operate a company in accordance with the Fund's objectives.

Projections – projected operating results of a company in which the Fund invests normally will be based primarily on financial projections prepared by each company's management. In all cases, projections are only estimates of future results that are based upon information received from the company and assumptions made at the time the projections are developed. There can be no assurance that the results set forth in the projections will be attained, and actual results may be significantly different from the projections.

Conflicting Investor Interests – Limited Partners may have conflicting investment, tax, and other interests with respect to their investments in the Fund, including conflicts relating to the structuring of investment acquisitions and dispositions. Conflicts may arise in connection with decisions made by the General Partner regarding an investment that may be more beneficial to one Limited Partner than another, especially with respect to tax matters. In structuring, acquiring and disposing of investments, the General Partner generally will consider the investment and tax objectives of the Fund and its Partners as a whole, not the investment, tax, or other objectives of any Limited Partner individually.

Enhanced Scrutiny and Certain Effects of Potential Regulatory Changes – there has recently been significant discussion regarding enhanced governmental scrutiny and/or increased regulation of the private equity industry. There can be no assurance that any such scrutiny or regulation will not have an adverse impact on the Fund's activities, including the ability of the Fund to implement operating improvements or otherwise execute its investment strategy or achieve its investment objectives.

The combination of recent scrutiny of private equity firms (along with other alternative asset managers) and their investments by various politicians, regulators and market commentators may complicate or prevent the Fund's efforts to consummate investments, both in general and relative to competing bidders outside of the alternative asset space. As a result, the Fund may invest in fewer transactions or incur greater expenses or delays in completing investments than it otherwise would have.

Additionally, Congress could pass legislation that would treat certain income allocations to service providers by partnerships such as the Fund (including any carried interest) as ordinary income for U.S. federal income tax purposes that under current law is treated as an allocation of the partnership's income, which may be taxed at lower rates than ordinary income. Such legislation could adversely affect the Principals, employees or other individuals associated with the Fund or the General Partner who were or may in the future be granted direct or indirect interests in the General Partner entitling such persons to benefit from carried interest. This may reduce such persons' after-tax returns from the Fund and the General Partner, which could make it more difficult for the General Partner and its affiliates to incentivize, attract and retain individuals to perform services for the Fund.

Need for Follow-On Investments – following its initial investment in a given portfolio company, the Fund may decide to provide additional funds to such portfolio company or may have the opportunity to increase its investment in a successful portfolio company. There is no assurance that the Fund will make follow-on investments or that the Fund will have sufficient funds to make all or any of such investments. Any decision by the Fund not to make follow-on investments or its inability to make such investments may have a substantial negative effect on a portfolio company in need of such an investment. Additionally, such failure to make such investments may result in a lost opportunity for the Fund to increase its participation in a successful portfolio company or the dilution of the Fund's ownership in a portfolio company if a third party invests in such portfolio company.

Non-U.S. Investments – the Fund may invest in portfolio companies that are organized or headquartered or have substantial sales or operations outside of the United States, its territories and possessions. Such investments may be subject to certain additional risks due to, among other things, potentially unsettled points of applicable governing law, the risks associated with fluctuating currency exchange rates, capital repatriation regulations (as such regulations may be given effect during the term of the Fund), the application of complex U.S. and non-U.S. tax rules to cross-border investments, possible imposition of non-U.S. taxes on the Fund and/or the Partners with respect to the Fund's income, and possible non-U.S. tax return filing requirements for the Fund and/or the Partners.

Additional risks of non-U.S. investments include: (a) economic dislocations in the host country; (b) less publicly available information; (c) less well-developed regulatory institutions; (d) greater difficulty of enforcing legal rights in a non-U.S. jurisdiction; (e) civil disturbances; (f) government instability; and (g) nationalization and expropriation of private assets. Moreover, non-U.S. companies may not be subject to uniform accounting, auditing and financial reporting standards, practices and requirements comparable to those that apply to U.S. companies.

Dilution - Limited Partners admitted to the Fund at subsequent closings generally will participate in then-existing investments of the Fund, thereby diluting the interest of existing Limited Partners in such investments. Although any such new Limited Partner will be required to contribute its pro rata share of previously made capital contributions, there can be no assurance that this contribution will reflect the fair value of the Fund's existing investments at the time of such contributions.

General Partner's Carried Interest - the fact that the General Partner's carried interest is based on a percentage of net profits may create an incentive for the General Partner to cause the Fund to make riskier or more speculative investments than otherwise would be the case.

Public Company Holdings - the Fund's investment portfolio may contain securities issued by publicly held companies. Such investments may subject the Fund to risks that differ in type or degree from those involved with investments in privately held companies. Such risks include, without limitation, greater volatility in the valuation of such companies, increased obligations to disclose information regarding such companies, limitations on the ability of the Fund to dispose of such securities at certain times, increased likelihood of shareholder litigation against such companies' board members, including the Principals, and increased costs associated with each of the aforementioned risks.

Non-controlling Investments - the Fund may hold meaningful minority stakes in privately held companies. In addition, during the process of exiting investments, the Fund at times may hold minority equity stakes of any size such as might occur if portfolio holdings are taken public. As is the case with minority holdings in general, such minority stakes that the Fund may hold will have neither the control characteristics of majority stakes nor the valuation premiums accorded majority or controlling stakes.

Director Liability - the Fund will often seek to obtain the right to appoint one or more representatives to the board of directors (or similar governing body) of the companies in which it invests. Serving on the board of directors (or similar governing body) of a portfolio company exposes the Fund's representatives, and ultimately the Fund, to potential liability. Not all portfolio companies may obtain insurance with respect to such liability, and the insurance that portfolio companies do obtain may be insufficient to adequately protect officers and directors from such liability.

Uncertain Economic and Political Environment - the current global economic and political climate is one of uncertainty. Prior acts of terrorism in the United States, the threat of additional terrorist strikes and the fear of a prolonged global conflict have exacerbated volatility in the financial markets and can cause consumer, corporate and financial confidence to weaken, increasing the risk of a "self-reinforcing" economic downturn. The availability of credit for consumers, homeowners and businesses, including credit used to acquire businesses, may be restricted. This may have an adverse effect on the economy generally and on the ability of the Fund and its portfolio companies to execute their respective strategies and to receive an attractive multiple of earnings on the disposition of their businesses. A climate of uncertainty may reduce the availability of potential investment opportunities, and increases the difficulty of modeling market conditions, potentially reducing the accuracy of financial projections. Furthermore, such uncertainty may have an adverse effect upon portfolio companies in which the Fund makes investments.

Market Conditions - any material change in the economic environment, including a slow-down in economic growth and/or changes in interest rates or foreign exchange rates, could have a negative impact on the performance and/or valuation of the portfolio companies. The Fund's performance can be affected by deterioration in public markets and by market events, such as the onset of the credit crisis in the summer of 2007 or the downgrading of the credit rating of the United States in 2011, which, among other things, can impact the public market comparable earnings multiples used to value privately held portfolio companies and investors' risk-free rate of return. Movements in foreign exchange rates may adversely affect the value of investments in portfolio companies and the Fund's performance. The value of publicly traded securities may be volatile and difficult to sell as a block, even following a realization through listing. The impact of market and other economic events may also affect the Fund's ability to raise funding to support its investment objective and also the level of profitability achieved on realizations of investments.

Unfunded Pension Liabilities of 80%-Owned Portfolio Companies - court decisions have suggested that, where an investment fund owns 80% or more of a portfolio company, the fund (and any other 80%-owned portfolio companies of the fund) might be found liable for certain pension liabilities of such a portfolio company to the extent the portfolio company is unable to satisfy such liabilities. Although the Fund intends to manage its investments to minimize any such exposure, the Fund may, from time to time, own an 80% or greater interest in a portfolio company that has unfunded pension fund liabilities. If the Fund (or other 80%-owned portfolio companies of the Fund) were deemed to be liable for such pension liabilities, this could have a material adverse effect on the operations of the Fund and the companies in which the Fund invests.

Conflict of Interest - the General Partner and the Principals are affiliates of Baird, and Baird has an ownership interest in the General Partner that entitles it to a portion of the carried interest distributions received by the General Partner. As an investment banking firm, Baird provides a range of mergers and acquisitions advisory, consulting and other business services to its clients, some of which may result in conflicts of interest between the Fund, on one hand, and Baird and certain of its clients, on the other hand. In certain instances, some of such conflicts of interest may be resolved in a manner adverse to the Fund and its ability to achieve its investment objectives. The Principals currently manage several other investment funds besides the Fund and investments similar to those in which the Fund will be investing and may direct certain relevant investment opportunities to those investment funds and investments. In addition, the Principals may spend a portion of their business time and attention pursuing investment opportunities that do not fall within the investment objectives of the Fund for other investment funds and other than on behalf of the Fund. The Principals and the General Partner's investment staff will continue to manage and monitor such investment funds and investments. The General Partner believes that the significant investment of the Principals in the Fund, as well as the Principals' interest in the carried interest, operate to align, to some extent, the interest of the Principals with the interest of the Partners, although the Principals have economic interests in such other investment funds and investments as well and receive management fees and carried interests relating to these interests. Such other investment funds and investments that the Principals may control may compete with the Fund or companies acquired by the Fund. Certain investments may be allocated between the Fund and any successor or predecessor fund in a manner as set forth in the Partnership Agreement. See the Fund's Limited Partnership Agreement for additional information on potential conflicts of interests.

Public Health Emergencies; COVID-19 - Pandemics and other widespread public health emergencies, including outbreaks of infectious diseases such as SARS, H1N1/09 flu, avian flu, ebola and COVID-19, have resulted in market volatility and disruption, and future such emergencies have the potential to materially and adversely impact economic production and activity in ways that are impossible to predict, all of which may result in significant losses to the Fund.

Item 9. Disciplinary Information

There are no legal or disciplinary events that are material to an investor's evaluation of the Fund or the integrity of the General Partner.

Item 10. Other Financial Industry Activities and Affiliations

Baird, a Wisconsin corporation and an entity related to the General Partner by virtue of Baird's control of the General Partner, acts as a registered investment adviser to various clients, including individuals, institutions and a registered investment company. Baird is also registered as a broker/dealer. As an investment banking firm, Baird provides a range of mergers and acquisitions advisory, consulting and other business services to its clients, some of which may result in conflicts of interest between the Fund, on one hand, and Baird and certain of its clients, on the other hand. In certain instances, some of such conflicts of interest may be resolved in a manner adverse to the Fund and its ability to achieve its investment objectives. During the Investment Period, the Principals will pursue all appropriate investment opportunities exclusively through the Fund, subject to certain limited exceptions. However, the Principals currently manage several other investment funds and investments similar to those in which the Fund will be investing, and may direct certain relevant investment opportunities to those investment funds and investments, subject to any applicable limitations in the relevant Partnership Agreement. In addition, the Principals may spend a portion of their business time and attention pursuing investment opportunities that do not fall within the investment objectives of the Fund for other investment funds and other than on behalf of the Fund. The Principals and the General Partner's investment staff will continue to manage and monitor such investment funds and investments. The significant investment of the Principals in the Fund and the Principals' interest in the carried interest, operate to align, to some extent, the interest of the Principals with the interest of the Partners, although the Principals have economic interests in such other investment funds and investments as well and receive management fees and carried interests relating to these interests. Such other investment funds and investments that the Principals may control may compete with the Fund or companies acquired by the Fund. Following the Investment Period, the Principals may and likely will focus their investment activities on other opportunities and areas unrelated to the Fund's investments. Baird has a Conflicts of Interest policy that covers each of the general partners of the private equity funds that are registered investment advisers. This policy also covers Baird and its affiliated entities with respect to the dealings with (i) the various limited partnerships of the general partner and (ii) various companies in which the Funds own an interest. In addition, these policies cover Baird associates with respect to their investments in private securities.

As a result of Baird's ownership of the General Partner and the other powers granted to Baird in the General Partner's limited liability company agreement, Baird can influence certain decisions regarding transactions undertaken by portfolio companies of the Funds. In addition, Baird has provided certain services to the Funds, including fund administration and fees received for providing such services will not be offset against the management fee. Under the terms of each Fund's Partnership Agreement, Baird may charge the Fund for these services; provided that the General Partner believes in good faith that Baird can provide such services at no greater cost than would be the case if unaffiliated third parties were to provide such services.

The General Partner formed BVP IV Affiliates Fund Limited Partnership to allow qualified employees to co-invest alongside the Funds.

Other general partners of private equity funds that are registered investment advisers and controlled by Baird include the following:

The Wisconsin Economic Development Corporation ("WEDC") has approved BVP IV as a certified fund manager. WEDC does not endorse the quality of BVP IV management and WEDC is not liable for damages or losses to an investor.

Item 11. Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

The General Partner follows a code of ethics (the "Code") for standards of business conduct and personal securities transactions. The Code restricts, among other things, the direct purchase and sale by employees for their own accounts of securities that have been or are in the process of being purchased or sold for client accounts within certain limits. The Code also addresses the approval of associate accounts, trading policy, outside brokerage accounts, reporting of securities and transactions. Personal securities transactions by employees who manage client accounts are required to be conducted in a manner that assures that the interests of the clients take precedence. All personal securities transactions must be conducted in a manner as to avoid any actual or potential conflict

of interest or any abuse of an individual's position of trust and responsibility. If you would like a copy of the Code, please contact Scott Skie at (312) 609-4664 and it will be provided to you at no charge.

Principals and employees of the General Partner and its affiliates may directly or indirectly own an interest in Private Investment Funds including the Fund. In addition, the General Partner may recommend the purchase or sale of securities for client accounts in which one or more of its members, officers, directors, employees (and members of their families) or affiliates ("affiliated persons"), directly or indirectly, have a position or interest, or which an affiliated person buys or sells for himself or herself. Such transactions also may include trading in securities in a manner that differs from or is inconsistent with the advice given to the clients of the General Partner or the Funds. The significant investment of the Principals in the Fund and the Principals' interest in the carried interest, operate to align, to some extent, the interest of the Principals with the interest of the investors, although the Principals have economic interests in other investment funds and investments as well and receive management fees and carried interests relating to those interests.

Certain employees of Robert W. Baird & Co., the advisers and their affiliates and other individuals, including Venture Partners were offered the opportunity to participate in a loan program to fund their investments. 1:1 loans were provided by a third party independent financial institution through an agreement between the borrower and the financial institution. For certain individuals (e.g., individuals involved with Baird Capital) after obtaining the 1:1 leverage, Baird Financial Corporation offered the ability to borrow from Baird Financial Corporation an amount to create a 3:1 leverage.

Baird, as a broker/dealer, investment banker and investment adviser, continually engages in various securities transactions and trading activities, which could create a conflict of interest with clients. Prior to the final closing of the Fund, Baird may warehouse transactions for the Funds as more fully described in the Partnership Agreement. Also, each of Baird's investment advisory departments has internal procedures in place to ensure that Baird will not act in a principal capacity for any transaction in a client's account absent appropriate prior client approval of the transaction. Accordingly, when acting as an investment adviser, Baird generally acts only in an agent capacity in transactions effected for client accounts. The advisory agreements entered into by clients for the respective Baird investment advisory departments, where applicable, disclose the possibility of Baird's role in potential transactions and the possible conflicts. Each customer confirmation discloses the capacity in which Baird served in the transaction and whether Baird is a market maker in the issue.

Item 12. Brokerage Practices

The General Partner typically invests in private companies and generally purchases and sells such companies through privately negotiated transactions with or without the use of a brokers or dealers. Baird may be used as a broker-dealer for such transactions.

The General Partner will typically only engage in public securities transactions when disposing of securities that have become publicly traded. In the event that the General Partner engages in a public security transaction, the General Partner will consider a number of factors in selecting a broker-dealer, including: (i) the commission charged (taking into consideration the size of the order and the price of the security), (ii) the broker-dealer's execution capabilities with respect to the security and (iii) the broker-dealer's general reputation and ability to execute an order in appropriate time frame (i.e., the overall responsiveness of the broker-dealer). Although the General Partner generally seeks competitive commission rates, it will not necessarily pay the lowest commission or commission equivalent. The General Partner does not consider, in selecting a broker-dealers, the receipt of research from broker-dealers. The General Partner, consistent with its duty to seek best execution, will generally use Baird to effect security transactions. The General Partner does not engage in soft dollar arrangements and therefore did not acquire any products or services with client brokerage commissions within the last fiscal year.

From time to time, the General Partner may, but is not obligated to, purchase or sell securities for several client accounts at approximately the same time. Such orders may be combined or "batched" to facilitate obtaining best execution and/or to reduce brokerage commissions or other costs. Batched transactions are executed in a manner intended to ensure that no participating client of the General Partner is favored over any other client. When an aggregated order is filled in its entirety, each participating client account generally will receive the average price obtained on all such purchases or sales made during such trading day. When an aggregate order is partially filled, the securities purchased or sold will normally be allocated on a pro rata basis to each client account participating in such buy or sell order in accordance with the amount of securities originally requested for such account. Each client account generally will receive the average price obtained on all such purchases or sales made during such trading day. Exceptions to pro rata allocations are permissible provided they are fair and equitable to clients over time.

Item 13. Review of Accounts

Investments of the Fund made by the General Partner generally are long-term in nature and illiquid. Accordingly, the review process is generally not directed toward short-term sell decisions. However, the General Partner closely monitors companies in which its Funds invest and generally will maintain an ongoing oversight position in such companies.

The Fund will provide to its Limited Partners (i) annual audited and quarterly unaudited financial statements, (ii) annual tax information necessary for each Limited Partner's tax return, and (iii) quarterly information describing each new portfolio company investment or the occurrence of any material event relating to any portfolio company investment.

Item 14. Client Referrals and Other Compensation

Interests in the Fund were sold to Limited Partners through licensed Baird financial advisors. Baird Venture Partners Management Company IV ("BVP-IV") compensated Baird Financial Advisors for referring clients who made a commitment to Baird Venture Partners IV Limited Partnership or BVP-IV Special Affiliates Limited Partnership (collectively, "Baird Venture Partners IV") and were accepted by BVP-IV. The compensation structure consisted of two alternatives the Standard Commission and the Asset Based Fee. Under the Standard Commission structure, Baird Financial Advisors were paid a commission based upon the size of the client's commitment to Baird Venture Partners IV. The Baird Financial Advisor will earn an aggregate commission of 3% of the client's commitment to Baird Venture Partners IV. The Baird Financial Advisor earned a commission of 1% of the client's commitment to Baird Venture Partners IV at the time of closing on the client's commitment to Baird Venture Partners IV and 40 basis points of the client's commitment to Baird Venture Partners IV over each of the next five years for an aggregate commission of 3%. Under the Asset Based Fee structure, Baird Financial Advisors were not paid based upon the amount of the client's commitment to Baird Venture Partners IV, but rather were paid based on the client's capital account balance in Baird Venture Partners IV. During the term of Baird Venture Partners IV, the Baird Financial Advisor will be paid annually at the rate of 50 basis points based on the client's average quarterly capital account balance, provided that the total compensation to the Baird Financial Advisor under the Asset Based Fee structure did not exceed the total payment under the Standard Commission structure (i.e., 3% of the client's commitment to Baird Venture Partners IV). All such compensation is paid by the General Partner and is not borne by any Limited Partner.

Certain Baird Financial Advisors invested in BVP-IV Affiliates Fund Limited Partnership. The BVP-IV fund consists of three limited partnerships: BVP-IV Affiliates Fund Limited Partnership, Baird Venture Partners IV Limited Partnership and BVP-IV Special Affiliates Limited Partnership. Certain Baird Financial Advisors invested in BVP-IV Affiliates Fund Limited Partnership and solicited clients to invest in Baird Venture Partners IV Limited Partnership or BVP-IV Special Affiliates Limited Partnership.

Item 15. Custody

The General Partner maintains custody of each Fund's assets with Baird, a qualified custodian, to the extent required by the Investment Advisers Act and in accordance with guidance issued by the SEC from time to time. If the Limited Partner has a Baird account, the Limited Partner will receive accounts statements from Baird and Limited Partners should carefully review those statements. Limited Partners should also compare the statements received from Baird with the statements received from the General Partner.

Item 16. Investment Discretion

As the General Partner provides advisory services to the Funds, the General Partner does not tailor its advisory services to the needs of individual investors nor does it permit individual investors to impose restrictions on investing in certain securities or types of securities. Investors grant discretionary authority to the General Partner to make investments for the Funds. However, the General Partner has entered into side letters with certain investors in which the General Partner has certain obligations. Those obligations include the requirement to make certain investments in the State of Michigan and provide certain reports to a particular investor. If the General Partner does not make certain types of investments in the State of Michigan and/or provide certain reports to a certain investor, the General Partner may have to refund and/or reduce the management fee paid or payable by such investor. In connection with making a commitment to the Funds, an investor is required to execute a power of attorney granting the General Partner authority to act on the investor's behalf.

Item 17. Voting Client Securities

In accordance with SEC requirements, the General Partner has adopted Proxy Voting Policies and Procedures (the "Proxy Policy") to address how the General Partner will vote proxies for each Fund's portfolio investments. The Fund Partnership Agreement grants the General Partner the authority to vote proxies on behalf of the Fund. The Policy seeks to ensure that the General Partner votes proxies (or similar instruments) in the best interest of the Funds, including when there may be material conflicts of interest in voting proxies. The General Partner generally believes its interests are aligned with each Fund's investors through the General Partner's Principals' beneficial ownership interests in the Funds. In the event, however, there is or may be a conflict of interest between the General Partner and the Fund in voting proxies, the General Partner may address the conflict using several alternatives, including by seeking the approval or concurrence of a Fund's advisory board on the proposed proxy vote or through other alternatives set forth in the Proxy Policy. The General Partner does not consider service on portfolio company boards by General Partner personnel or the General Partner's receipt of management or other fees from portfolio companies to create a material conflict of interest in voting proxies with respect to such companies. In addition, the Proxy Policy sets forth certain specific proxy voting guidelines the General Partner follows when voting proxies on behalf of the Fund. If you would like a copy of the Proxy Policy or information regarding how the

General Partner has voted proxies on behalf of the Fund, please contact Scott Skie at (312) 609-4664 and it will be provided to you at no charge.

Item 18. Financial Information

The General Partner's financial condition is such that there is no reasonable likelihood that it will impair the General Partner's contractual commitments to the investor.
