Item 4 – Advisory Services

A. Firm Information

SineCera Capital, LLC (“SineCera Capital” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). The Advisor is organized as an LLC under the laws of the State of Delaware and is located in the State of Texas. SineCera Capital was founded in June 2019 and is principally owned and operated by Kevin A. Kaylakie (Founder, Chief Executive Officer and Chief Compliance Officer). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by SineCera Capital.

B. Advisory Services Offered

SineCera Capital offers investment advisory services to high-net-worth individuals, family offices, trusts, estates, businesses, and private foundations (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness, and good faith towards each Client and seeks to mitigate potential conflicts of interest. SineCera Capital's fiduciary commitment is further described in the Advisor's Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

FAMILY WEALTH ADVISORY SERVICES

Family Wealth Advisory Clients are generally ultra-high-net-worth families. This high-touch service offering begins with the Advisor assisting Clients in coordinating a team of professionals to oversee many facets of a Client's financial situation. The Advisor's specific services generally include investment management and financial planning in addition to strategic planning. Strategic planning may include but is not limited to: family values identification and alignment, succession planning, estate and tax planning, risk management, and insurance.

Investment Management Services

SineCera Capital provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary and non-discretionary investment management and related advisory services. SineCera Capital works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation to create a customized portfolio strategy. SineCera Capital will then construct an investment portfolio, consisting of low-cost, diversified mutual funds and/or exchange-traded funds (“ETFs”) to achieve the Client's investment goals. The Advisor may also utilize alternative investments, individual stocks, bonds, or options contracts to meet the needs of its Clients. The Advisor may retain certain types of investments based on a Client's legacy investments based on portfolio fit and/or tax considerations.

SineCera Capital's investment strategies are primarily long-term focused, but the Advisor may buy, sell, or re-allocate positions that have been held for less than one year to meet the objectives of the Client or due to market conditions. SineCera Capital will construct, implement, and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

SineCera Capital evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. SineCera Capital may recommend, on occasion, redistributing investment allocations to diversify the portfolio. SineCera Capital may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions

as a possible hedge against market movement. SineCera Capital may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of the Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client's risk tolerance.

At no time will SineCera Capital accept or maintain custody of a Client's funds or securities, except for the limited authority as outlined in Item 15 – Custody. All Client assets will be managed within the designated account[s] at the Custodian, pursuant to the terms of the advisory agreement. Please see Item 12 – Brokerage Practices.

Financial Planning Services

SineCera Capital will typically provide a variety of financial planning and consulting services to Clients as part of its family wealth advisory services. Services are offered in several areas of a Client's financial situation, depending on their goals and objectives. Generally, such financial planning services involve preparing a formal financial plan or rendering a specific financial consultation based on the Client's financial goals and objectives. This planning or consulting may encompass areas of need including but not limited to, investment planning, retirement planning, personal savings, education savings, and other areas of a Client's financial situation.

A financial plan developed for, or financial consultation rendered to, the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence- or alter retirement savings, establish education savings, and/or charitable giving programs. SineCera Capital may also refer Clients to an accountant, attorney, or other specialists as appropriate for their unique situation.

Financial planning and consulting recommendations pose a conflict between the interests of the Advisor and the interests of the Client. For example, the Advisor has an incentive to recommend that Clients engage the Advisor for investment management services or to increase the level of investment assets with the Advisor, as it would increase the amount of advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor.

The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the beginning of the respective month. The amount due is calculated by applying the monthly rate (annual rate divided by 12) to the total assets under management and/or reporting with SineCera Capital at the end of the prior month. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. Clients are urged to also review and compare the statement provided by the Advisor to the brokerage statement from the Custodian, as the Custodian does not perform a verification of fees. The Client is responsible for all custody and securities execution fees charged by the Custodian, as applicable. The Advisor's recommended Custodian does not charge securities transaction fees for ETF and equity trades in a Client's account, provided that the account meets the terms and conditions of the Custodian's brokerage requirements. However, the Custodian typically charges for mutual funds and other types of investments. The fees charged by SineCera Capital are separate and distinct from these custody and execution fees.

In addition, all fees paid to SineCera Capital for investment advisory services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody,

brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of SineCera Capital, but would not receive the services provided by SineCera Capital which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by SineCera Capital to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

D. Advance Payment of Fees and Termination

After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Advisor will refund any unearned, prepaid advisory fees from the effective date of termination to the end of the month. The Client's advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Item 6 – Performance-Based Fees and Side-By-Side Management

SineCera Capital does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

SineCera Capital offers investment advisory services to high-net-worth individuals, family offices, trusts, estates, businesses, and private foundations. Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

SineCera Capital exercises thoroughness and independence in conducting investment due diligence, giving investment advice, and executing investment strategies for its clients. As fiduciaries, decisions and actions related to our Client's assets are made with their best interest in mind. SineCera Capital

SineCera Capital, LLC

primarily employs fundamental and quantitative analysis methods combined with a risk parity approach. Research and analysis from SineCera Capital are derived from numerous sources, including financial media companies, third-party research materials, internet sources, and review of company activities, including annual reports, prospectuses, press releases, and research prepared by others.

Fundamental analysis

SineCera Capital utilizes economic and business indicators as investment selection criteria. This criteria consists generally of ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Quantitative Modeling and Analysis

Additionally, SineCera Capital may rely upon or develop quantitative-based research models for portfolio construction, back testing of investment strategies, developing capital market assumptions, and determining private market valuations. Although no model can test for every factor or outcome, the Advisor will seek to ensure its analysis incorporates a broad range of assumptions sufficient to capture the underlying characteristics of each investment. In developing or utilizing third-party models, the Advisor will consider the source and time series of the data. However, information from many commercially available databases may not effectively incorporate both positive and negative market cycles. When possible, the Advisor will seek to include factors that may have a substantial influence on an investment's value, which includes both positive and negative market events.

Risk Parity

SineCera Capital believes investment strategies should be constructed based upon each underlying investment's risk contribution to the overall portfolio. This Risk-Parity type approach seeks to balance the risk allocation as opposed to the asset allocation. Research has shown that the majority of investment return in a diversified asset allocation strategy is generated by exposure to three different types of risk premia:

1. *Equity Risk Premium* - Reward to stockholders for providing capital to underlying businesses and to the overall economy.
2. *Interest Rate Risk Premium* – Reward to bondholders for lending money to governments and corporations over the long term (which can be seen in a rising yield curve).
3. *Inflation Risk Premium* - Hedge for rising inflation, typically through exposure to commodities and/or inflation-linked bonds.

Based on research and historical analysis, this “risk focused” approach can generate superior risk-adjusted returns versus traditional “diversified” strategies that tend to have equity-centric risk profiles (i.e. most of the risk is concentrated in the equity allocation).

As noted above, SineCera Capital generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. SineCera Capital will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, SineCera Capital may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. SineCera Capital will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals. Please see Item 8.B. for risks associated with the Advisor's investment strategies as well as general risks of investing.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk, and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with the Advisor's investment strategies:

Market Risks

The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Bond ETFs

Bond ETFs are subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond's time to maturity, and the coupon rate of the bond. (2) reinvestment risk, i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return, (4) credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment

obligation, (5) rating downgrades, i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as there is no readily available market for the bond.

Mutual Fund Risks

The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Alternative Investments (Limited Partnerships)

The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

Real Estate Investment Trusts ("REITs")

Investing in Real Estate Investment Trusts ("REITs") involves certain distinct risks in addition to those risks associated with investing in the real estate industry in general. For Example, equity REITs may be affected by changes in the value of the underlying property owned by the REITs, while mortgage REITs may be affected by the quality of credit extended. REITs are subject to heavy cash flow dependency, default by borrowers and self-liquidation. REITs, especially mortgage REITs, are also subject to interest rate risk (i.e., as interest rates rise, the value of the REIT may decline).

Oil and Gas Interests

Investing oil and gas interest whether directly or as part of a fund/ETF involves distinct risks. The price of oil and gas interests may fluctuate to a greater degree than other securities and contain additional risks based on the supply and demand for oil and gas. Some of these additional risks include, the ability to obtain reliable oil and gas supply, oil and gas reserve estimates, the ability to locate markets for oil and gas, fluctuations in prices. The values of oil and gas interests are subject to market risk by a range of variables that could cause trends to differ materially.

Digital Assets Risks

Digital assets are highly speculative and volatile investments that may become illiquid at any time. Digital assets are loosely regulated. A Client could lose the entire value of their investment in digital assets and is only suitable for Clients with a high risk tolerance.

Leveraged ETF Risks

Leveraged ETFs seek to deliver multiples of the performance of the index or benchmark they track. These ETFs attempt to deliver some multiple of an index's daily returns (positive or negative). Please consider the implications to both the upside and the downside of multipliers. While it may seem that a 2x multiplier is a benefit in an up-market cycle' it is important to remember that the same multiplier applies when the ETF moves against the market. This could potentially result in significant losses, and highlights the additional risk associated with Leveraged ETFs.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving SineCera Capital or its owner [OR] management person[s]. SineCera Capital values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. The backgrounds of the Advisor or Advisory Persons are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor's firm name or CRD# 298872.

Item 10 – Other Financial Industry Activities and Affiliations

The sole business of SineCera Capital and its Advisory Persons is to provide investment advisory services to its Clients. Neither SineCera Capital nor its Advisory Persons are involved in other business endeavors. SineCera Capital does not maintain any affiliations with other firms, other than contracted service providers to assist with the servicing of its Client's accounts.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

SineCera Capital has implemented a Code of Ethics (the "Code") that defines the Advisor's fiduciary commitment to each Client. This Code applies to all persons associated with SineCera Capital ("Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to each Client. SineCera Capital and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of SineCera Capital's Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of the Code, please contact the Advisor at 512-980-4600 or via email at info@sineceracapital.com.

B. Personal Trading with Material Interest

SineCera Capital allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. SineCera Capital does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. SineCera Capital does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

SineCera Capital allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that are recommended (purchase or sell) to Clients presents a conflict of interest that, as fiduciaries, must be disclosed to Clients and mitigated through policies and procedures. As noted above, the Advisor has adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by SineCera Capital requiring reporting of personal securities trades by its Supervised Persons for review by the Chief Compliance Officer ("CCO"). The Advisor has also adopted written policies and procedures to detect the misuse of material, non-public information.

115 Wild Basin Rd. | Suite 100, Austin, TX 78746

Phone: 512-980-4600

<https://www.sineceracapital.com/>

D. Personal Trading at Same Time as Client

While SineCera Capital allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will SineCera Capital, or any Supervised Person of SineCera Capital, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

SineCera Capital does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize SineCera Capital to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, SineCera Capital does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

Where SineCera Capital does not exercise discretion over the selection of the Custodian, it may recommend the Custodian to Clients for custody and execution services. Clients are not obligated to use the Custodian recommended by the Advisor and will not incur any extra fee or cost associated with using a custodian not recommended by SineCera Capital. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. SineCera Capital may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and its reputation and/or the location of the Custodian's offices.

SineCera Capital will generally recommend that Clients establish their account[s] at Fidelity Brokerage Services LLC ("Fidelity") or Charles Schwab & Co., Inc. ("Schwab"), each of whom are FINRA-registered broker-dealers and members SIPC. SineCera Capital will also recommend Millennium Trust Company (Millennium). Fidelity, Schwab, or Millennium will serve as the Client's "qualified custodian". SineCera Capital maintains an institutional relationship with Fidelity, Schwab, and Millennium whereby the Advisor receives economic benefits from Fidelity, Schwab, or Millennium. Please see Item 14 below.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with a broker-dealer/custodian in exchange for research and other services. **SineCera Capital does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor receives certain economic benefits from the Custodian. Please see Item 14 below.**

2. Brokerage Referrals - SineCera Capital does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis", where SineCera Capital will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). SineCera Capital will not be obligated to select competitive bids on

securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the Custodian. SineCera Capital will execute its transactions through the Custodian as authorized by the Client. SineCera Capital may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Clients' accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Kevin Kaylakie, Chief Compliance Officer of SineCera Capital. Formal reviews are generally conducted at least annually or more frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify SineCera Capital if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by SineCera Capital

SineCera Capital is a fee-based advisory firm, that is compensated solely by its Clients and not from any investment product. SineCera Capital does not receive commissions or other compensation from product sponsors, broker-dealers or any un-related third party. SineCera Capital may refer Clients to various unaffiliated, non-advisory professionals (e.g. attorneys, accountants, estate planners) to provide certain financial services necessary to meet the goals of its Clients. Likewise, SineCera Capital may receive non-compensated referrals of new Clients from various third-parties.

Participation in Institutional Advisor Platform (Fidelity and Schwab, IB and Millennium)

SineCera Capital has established institutional relationships with Fidelity, Schwab, and Millennium ("Custodian") to assist the Advisor in managing Client account[s]. Access to each Custodian's platform is provided at no charge to the Advisor. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Fidelity, Schwab, or Millennium. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a Custodian creates a conflict of interest since these benefits may influence the Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services.

Participation in Institutional Advisor Platform (Fidelity)

As noted in item 12, SineCera Capital has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s].

As part of the arrangement, Fidelity also makes available at no additional charge to the Advisor certain research and brokerage services, including research services obtained by Fidelity directly from independent research companies. The Advisor may also receive additional services and support from Fidelity. As a result of receiving such services for no additional cost, the Advisor may have an incentive to continue to use or expand the use of Fidelity's services. The Advisor examined this potential conflict of interest when it chose to enter into the relationship with Fidelity and has determined that the relationship is in the best interests of the Advisor's Clients and satisfies its Client obligations, including its duty to seek best execution. Please see Item 12 above.

The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Fidelity. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a Custodian creates a conflict of interest since these benefits may influence the Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services.

B. Compensation for Client Referrals

The Advisor does not compensate, either directly or indirectly, any persons who are not supervised persons, for Client referrals.

Item 15 – Custody

SineCera Capital does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor's fees. All Clients must place their assets with a "qualified custodian". Clients are required to engage the Custodian to retain their funds and securities and direct SineCera Capital to utilize that Custodian for the Client's security transactions. Clients should review statements provided by the Custodian and compare to any reports provided by SineCera Capital to ensure accuracy, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 – Brokerage Practices.

Item 16 – Investment Discretion

SineCera Capital generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these

purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by SineCera Capital. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by SineCera Capital will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

SineCera Capital does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither SineCera Capital, nor its management, have any adverse financial situations that would reasonably impair the ability of SineCera Capital to meet all obligations to its Clients. Neither SineCera Capital, nor any of its Advisory Persons, have been subject to a bankruptcy or financial compromise. SineCera Capital is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect advance fees of \$1,200 or more for services to be performed six months or more in the future.

Certified Financial Planner™ (“CFP®”)

The Certified Financial Planner™, CFP® and federally registered CFP® (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner™ Board of Standards, Inc. (“CFP® Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- *Education* – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP® Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP® Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- *Examination* – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances;
- *Experience* – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- *Ethics* – Agree to be bound by CFP® Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- *Continuing Education* – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and

fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.
