Item 4 – Advisory Services

A. Firm Information

The Wealth Alliance, LLC (“WA” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). The Advisor is organized as a limited liability company (“LLC”) under the laws of the State of Delaware in December 2018 and became a registered investment advisor in August 2019. WA is owned by Wealth Alliance Holdings, LLC which is owned equally by RJC Financial LLC and E-Ditty Financial LLC. Robert Conzo is the primary owner of RJC Financial LLC. Eric Diton is the primary owner of E-Ditty Financial LLC. This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by WA.

B. Advisory Services Offered

WA offers investment advisory services designed to meet the needs of individuals, high net worth individuals and families as well as trusts, estates, businesses, and retirement plans (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. WA’s fiduciary commitment is further described in the Advisor’s Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

Investment Management Services

WA provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and related advisory services. WA works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create an investment strategy. WA will then design an investment strategy that may include the Advisor’s internal investment management and/or the use of unaffiliated investment managers and investment platforms (herein collectively referred to as “Independent Managers”).

Internal Management – WA will construct Client portfolios utilizing mutual funds, exchange-traded funds (“ETFs”), individual equities, individual bonds and alternative investments. The Advisor may also utilize other types of investments, as appropriate, to meet the needs of the Client. WA may retain certain legacy investments based on portfolio fit and/or tax considerations.

WA’s investment approach is primarily long-term focused, but the Advisor may buy, sell or re-allocate investments that have been held for less than one year to meet the objectives of the Client or due to market conditions. WA will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

WA evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. WA may recommend, on occasion, redistributing investment allocations to diversify the portfolio. WA may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. WA may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

At no time will WA accept or maintain custody of a Client’s funds or securities, except for the limited authority as detailed in Item 15 - Custody. All Client assets will be managed within the designated account[s] at the Custodian, pursuant to the terms of the advisory agreement. Please see Item 12 – Brokerage Practices.

Use of Independent Managers – WA will regularly recommend a Client utilize one or more unaffiliated investment managers or investment platforms (collectively “Independent Managers”) for all or a portion of a Client’s investment portfolio. The use of an Independent Manager is based on the Client’s needs, objectives, financial situation and other factors. WA often recommends Adhesion Wealth Advisor Solutions (“Adhesion”) and its related entities (herein Adhesion), 55I, LLC d/b/a 55ip (“55ip”), and Envestnet to Clients. The Client is typically required to authorize and enter into a platform services and investment management agreement with the Independent Manager that defines the terms of services, level of authority granted to the Independent Manager and the fees to be charged to the Client. The Advisor will perform initial and ongoing oversight and due diligence over each Independent Manager to ensure the platform and selected investment strategies remain aligned with Clients investment objectives and overall best interests. The Advisor will also assist the Client in developing and maintaining the investment allocations and managing the ongoing Client relationship. The Client will be provided with the Independent Manager’s Form ADV Part 2A – Disclosure Brochure (or a brochure that makes the appropriate disclosures).

Retirement Accounts – When the Advisor provides investment advice to Clients regarding ERISA retirement accounts or individual retirement accounts (“IRAs”), the Advisor is a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act (“ERISA”) and/or the Internal Revenue Code (“IRC”), as applicable, which are laws governing retirement accounts. When deemed to be in the Client’s best interest, the Advisor will provide investment advice to a Client regarding a distribution from an ERISA retirement account or to roll over the assets to an IRA, or recommend a similar transaction including rollovers from one ERISA sponsored Plan to another, one IRA to another IRA, or from one type of account to another account (e.g. commission-based account to fee-based account). Such a recommendation creates a conflict of interest if the Advisor will earn a new (or increase its current) advisory fee as a result of the transaction. No client is under any obligation to roll over a retirement account to an account managed by the Advisor.

Financial Planning Services

WA will typically provide a variety of financial planning and consulting services to Clients, either as a component of investment management services or for a separate engagement and fee. The Advisor, at its sole discretion, may waive its financial planning fee for investment management Clients. Services are offered in several areas of a Client’s financial situation, depending on their goals and objectives. Generally, such financial planning services will involve preparing a financial plan or rendering a financial consultation based on the Client’s financial goals and objectives. This planning or consulting may encompass one or more areas of need, including, but not limited to investment planning, retirement planning, estate planning, personal savings, education savings, insurance needs, and other areas of a Client’s financial situation.

A financial plan developed for or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and/or charitable giving programs. WA may also refer Clients to an accountant, attorney or other specialist, as appropriate for their unique situation. For consulting or ad-hoc engagements, the Advisor may not provide a written summary. Plans or consultations are typically completed within six months of contract date, assuming all information and documents requested are provided promptly.

Financial planning and consulting recommendations pose a conflict between the interests of the Advisor and the interests of the Client. For example, the Advisor has an incentive to recommend that Clients engage the Advisor for investment management services or to increase the level of investment assets with the Advisor, as it would increase the amount of advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor.

Retirement Plan Advisory Services

WA provides retirement plan advisory services on behalf of the retirement plans (each a “Plan”) and the company (the “Plan Sponsor”). The Advisor’s retirement plan advisory services are designed to assist the Plan Sponsor in

meeting its fiduciary obligations to the Plan and its Plan Participants. Each engagement is customized to the needs of the Plan and Plan Sponsor. Services generally include:

- Vendor Analysis
- Plan Participant Enrollment and Education Assistance
- Investment Policy Statement (“IPS”) Design and Monitoring and Review
- Investment Oversight Services (ERISA 3(21))
- Investment Management Services (ERISA 3(38))
- Performance Reporting
- Ongoing Investment Recommendation and Assistance
- ERISA 404(c) Assistance

These services are provided by WA serving in the capacity as a fiduciary under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). In accordance with ERISA Section 408(b)(2), the Plan Sponsor is provided with a written description of WA’s fiduciary status, the specific services to be rendered and all direct and indirect compensation the Advisor reasonably expects under the engagement.

C. Client Account Management

Prior to engaging WA to provide investment advisory services, each Client is required to enter into one or more agreements with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – WA, in connection with the Client, will develop a strategy targeted to achieve the Client’s investment goals and objectives.
- Asset Allocation – WA will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Portfolio Construction – WA will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – WA will provide investment management and ongoing oversight of the Client’s portfolio.

D. Wrap Fee Programs

WA includes, in addition to securities transaction fees for certain mutual funds, custodial costs, independent managers fees, administrative fees (herein “Covered Costs”) together with its investment advisory fees. Including these fees into a single asset-based fee is considered a “Wrap Fee Program”. The Advisor customizes its investment management services for its Clients. The Advisor sponsors the WA Wrap Fee Program solely as a supplemental disclosure regarding the combination of fees. Depending on the level of trading required for the Client’s account[s] in a particular year, the Client may pay more or less in total fees than if the Client paid its own transaction fees. Please see Appendix 1 – Wrap Fee Program Brochure, which is always included as a supplement to this Disclosure Brochure.

E. Assets Under Management

As of December 31, 2022 WA manages \$1,476,685,246 in Client assets, all of which are managed on a discretionary basis. Client’s may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client shall sign one or more agreements that detail the responsibilities of WA and the Client.

A. Fees for Advisory Services

Investment Management Services

Investment advisory fees are paid in advance of each calendar quarter, pursuant to the terms of the investment advisory agreement. Investment advisory fees are based on the market value of assets under management at the end of the prior calendar quarter. Investment advisory fees range from 0.25% to 1.75% based on several factors, including, but not limited to: the services offered to the Client, the complexity of the services to be provided, the level of Client assets managed by the Advisor, and/or the overall relationship with the Advisor.

The investment advisory fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by WA will be independently valued by the designated Custodian. The Advisor will conduct periodic reviews of the Custodian's valuations.

Clients may make additions to and withdrawals from their account[s] at any time, subject to WA's right to terminate an account. Additions may be in cash or securities provided that WA reserves the right to liquidate any transferred securities or decline to accept particular securities into a Client's account[s]. Clients may withdraw account assets on notice to WA, subject to the usual and customary securities settlement procedures. However, WA designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a Client's investment objectives. WA may consult with its Clients about the options and ramifications of transferring securities. However, Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, fees assessed at the mutual fund level (i.e. contingent deferred sales charge) and/or tax ramifications.

Use of Independent Managers

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio utilizing one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. The Advisor will only earn its investment advisory fee as described above. The Advisor will allocate a portion of the advisory fee collected to the Independent Manager pursuant to the terms of the executed agreement between the Advisor and the Independent Manager.

Financial Planning Services

The Advisor offers its services on an hourly basis or for a fixed fee. Hourly engagements are billed at an hourly rate of up to \$500. Fixed fees are based on the expected number of hours to complete the engagement at the negotiated hourly rate. Fees may be negotiable based on the nature and complexity of the services to be provided and the overall relationship with the Advisor. For Clients that engage WA for ongoing investment management services, the Advisor may include financial planning services at no additional cost to the Client. An estimate for total hours and/or total costs will be provided to the Client prior to engaging for these services.

Retirement Plan Advisory Services

Fees for retirement plan advisory services are charged an annual asset-based fee of up to 1.00% and are billed in advance of each month or quarter, pursuant to the terms of the retirement plan advisory agreement. Retirement plan fees are based on the market value of assets under management at the end of the prior billing period. Fees may be negotiable depending on the size and complexity of the Plan.

B. Fee Billing

Investment Management Services

Investment advisory fees will be calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the beginning of the respective quarter-end date. The amount due is calculated by applying the quarterly rate (annual rate divided by the number of days in the year, multiplied by the number of days in the quarter) to the total assets under management with WA at the end of the prior quarter. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written

authorization permitting advisory fees to be deducted by WA to be paid directly from their accounts held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Use of Independent Managers

For Client accounts implemented through an Independent Manager, the Client's overall fees will include WA's investment advisory fee (as noted above) plus investment management fees and/or platform fees charged by the Independent Manager. For Clients invested in WA's wrap program, the fees for Independent Managers are also included as part of the Client's Covered Costs. Generally, the Advisor will assume the responsibility for calculating the Client's fees and deducting all fees from the Client's account[s]. In certain instances, the Independent Manager may assume responsibility for calculating and deducting their own fees from the Client's account[s].

Financial Planning Services

Financial planning fees may be invoiced up to 50% of the expected total fee upon execution of the financial planning agreement. Upon completion of the engagement deliverable[s], the remaining balance of the engagement fees shall be invoiced by the Advisor and are due upon receipt of the invoice.

Retirement Plan Advisory Services

Retirement plan advisory fees may be directly invoiced to the Plan Sponsor or deducted from the assets of the Plan, depending on the terms of the retirement plan advisory agreement.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. WA includes Covered Costs as part of its overall investment advisory fee through the WA Wrap Fee Program. Securities transaction fees for Client-directed trades may be charged back to the Client. The Advisor's recommended custodian does not charge securities transaction fees for ETF and equity trades in Client accounts, provided that the Client's accounts meet the terms and conditions of the Custodian's brokerage requirements. However, the Custodian does typically charge for mutual funds and other types of investments.

Securities transaction fees for Client-directed trades may be charged back to the Client. Please see Item 4.D. above as well as Appendix 1 – Wrap Fee Program Brochure. The Client may also incur other costs assessed by the Custodian or other parties for account related activity fees, such as wire transfer fees, fees for trades executed away from the Custodian (if applicable) and other fees.

In addition, all fees paid to WA for investment advisory services are separate and distinct from the expenses charged by mutual funds, ETFs and alternative investments to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of WA, but would not receive the services provided by WA which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by WA to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

D. Advance Payment of Fees and Termination

Investment Management Services

WA is compensated for its investment management services in advance of the quarter in which services are rendered. Either party may request to terminate the investment advisory agreement at any time, by providing advance written notice to the other party. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client shall be responsible for bona fide investment advisory services rendered up to and including the effective date of termination and such fees will be due and payable by the Client. Upon termination, the Advisor will promptly refund any unearned, prepaid advisory fees. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent. At the Advisor's discretion fees may be collected in arrears.

Use of Independent Managers

In the event that the Advisor has determined that an Independent Manager is no longer in the Client's best interest or a Client should wish to terminate their relationship with the Independent Manager, the terms for the termination will be set forth in the respective agreements between the Client or the Advisor and the Independent Manager. WA will assist the Client with the termination and transition as appropriate.

Financial Planning Services

WA requires an advance deposit as described above. Either party may terminate the financial planning agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the financial planning agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Client shall be billed for actual hours logged on the planning project times the contractual hourly rate, or in the event of a fixed fee engagement, the percentage of the engagement deliverables completed. Upon termination, the Advisor will refund any unearned, prepaid fees. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent. At the Advisor's discretion fees may be collected in arrears.

Retirement Plan Advisory Services

WA is compensated for its retirement plan advisory services at the beginning of the period before services are rendered. Either party may request to terminate a retirement plan advisory agreement, at any time, by providing advance written notice to the other party. The Client shall be responsible for retirement plan advisory fees up to and including the effective date of termination. Upon termination, the Advisor will refund any unearned, prepaid retirement plan advisory fees from the effective date of termination to the end of the billing period. The Client's retirement plan advisory agreement with the Advisor is non-transferable without the Client's prior consent. At the Advisor's discretion fees may be collected in arrears.

E. Compensation for Sales of Securities

WA does not buy or sell securities to earn securities transaction fees and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

Certain Advisory Persons are also Registered Representatives of Purshe Kaplan Sterling Investments, Inc. ("PKS"). PKS is a registered broker-dealer (CRD No. 35747), member FINRA, SIPC. In one's separate capacity as a Registered Representative of PKS, an Advisory Person will implement securities transactions under PKS and not through WA. In such instances, the Advisory Person will receive commission-based compensation in connection with the purchase and sale of securities, including 12b-1 fees for the sale of investment company products. Compensation earned by the Advisory Person in one's capacity as a Registered Representative is separate and in addition to the Advisor's fees. This practice presents a conflict of interest because the Advisory Person who is a Registered Representative has an incentive to effect securities transactions for the purpose of generating commissions rather than solely based on the Client. Clients are not obligated to implement any recommendation provided by the Advisor nor Advisory Persons. Neither the Advisor nor Advisory Persons will earn ongoing investment advisory fees in connection with any products or services implemented in the Advisory Person's separate capacity as a Registered Representative. Please see Item 10 – Other Financial Industry Activities and Affiliations.

Certain Advisory Persons are also licensed as independent insurance professionals. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to Clients. Insurance commissions earned by these persons are separate and in addition to the advisory fees charged by WA. This practice presents a conflict of interest because the persons providing investment advice on behalf of the Advisor who are also an insurance agents have an incentive to recommend insurance products to Clients for the purpose of generating commissions rather than solely based on Client needs. However, Clients are under no obligation, contractually or otherwise, to purchase insurance products through any Advisory Person affiliated with the Advisor. Please see Item 10 – Other Financial Industry Activities and Affiliations.

Item 6 – Performance-Based Fees and Side-By-Side Management

WA does not charge performance-based fees for its investment advisory services. The fees charged by WA are as described in Item 5 above and are not based upon the capital appreciation of the funds or securities held by any Client.

WA does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

WA provides investment advisory services to individuals, high net worth individuals, families, trusts, estates, businesses, and retirement plans. WA does not impose a minimum account or relationship size; however, its services are typically designed to meet the needs of high net worth Clients. Certain independent managers may impose a minimum fee.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

WA primarily employs fundamental and technical analysis methods in developing investment strategies for its Clients. Research and analysis from WA are derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in "Item 13 – Review of Accounts".

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to Clients. Technical analysis may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that WA will be able to accurately predict such a reoccurrence.

As noted above, WA generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. WA will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, WA may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. WA will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the

analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing a Client's account[s]. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Following are some of the risks associated with the Advisor's investment approach:

Market Risks – The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks – The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETF have a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Fixed Income Risks – Fixed Income securities, such as bonds, are subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond's time to maturity, and the coupon rate of the bond. (2) reinvestment risk, i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return, (4) credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation, (5) rating downgrades, i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as desired if there is no readily available market for the bond.

Mutual Fund Risks – The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily; therefore, a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Options Contracts – Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Margin Borrowings – The use of short-term margin borrowings may result in certain additional risks to a Client. For example, if securities pledged to a broker-dealer to secure a Client's margin account[s] decline in value, pursuant to which the Client could be subject to a "margin call", pursuant to which it must either deposit additional funds with the broker-dealer or be the subject of mandatory liquidation of the pledged securities to compensate for the decline in value.

Alternative Investments (Limited Partnerships) - The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving WA or its Management Persons. WA values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. The backgrounds of the Advisor and its Advisory Persons are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor's firm name or with CRD# 305052.

Item 10 – Other Financial Industry Activities and Affiliations

Broker-Dealer Affiliation

As noted in Item 5, certain Advisory Persons are also Registered Representatives of PKS. In one's separate capacity as a Registered Representative of PKS, an Advisory Person will receive commissions for the implementation of recommendations for commissionable transactions. Clients are not obligated to implement any recommendation provided by the Advisory Person. Neither the Advisor nor the Advisory Person will earn ongoing investment advisory fees in connection with any services implemented in the Advisory Person's separate capacity as a Registered Representative.

Insurance Agency Affiliations

As noted in Item 5, certain Advisory Persons are also licensed insurance professionals. Implementations of insurance recommendations are separate and apart from one's role with WA. As an insurance professional, an Advisory Person will receive customary commissions and other related revenues from the various insurance companies whose products are sold. The Advisory Person is not required to offer the products of any particular insurance company. Commissions generated by insurance sales do not offset regular advisory fees. This practice presents a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by the Advisory Person or the Advisor.

Use of Independent Managers

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio with one or more Independent Managers. The Advisor does not receive any compensation nor does this present a material conflict of interest. The Advisor will only earn its investment advisory fee as described in Item 5.A.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

WA has implemented a Code of Ethics that defines the Advisor's fiduciary commitment to each Client. This Code of Ethics applies to all persons associated with WA ("Supervised Persons"). The Code of Ethics was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to the Client. WA and its personnel owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of WA Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code of Ethics covers a range of topics that address employee ethics and conflicts of interest. To request a copy of the Code of Ethics, please contact the Advisor at (631) 670-0682.

B. Personal Trading with Material Interest

WA allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. WA does not act as principal in any transactions. In addition, the Advisor does

not act as the general partner of a fund, or advise an investment company. WA does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

WA allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that are recommended (purchase or sell) to Clients presents a potential conflict of interest that, as fiduciaries, must be disclosed to you and mitigated through policies and procedures. As noted above, the Advisor has adopted a Code of Ethics, which addresses insider trading (material non-public information controls) and personal securities reporting procedures. When trading for personal accounts, Supervised Persons of WA have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by WA requiring reporting of personal securities trades by its employees for review by the Chief Compliance Officer ("CCO"). The Advisor has also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While WA allows Supervised Persons to purchase or sell of the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterward. **At no time will WA transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

WA generally does not have discretionary authority to select the broker-dealer/custodian for custody and execution services, except as noted below. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize WA to direct trades to this Custodian as agreed in the investment advisory agreement. In such instances, WA does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

In certain circumstances, WA may obtain an additional authorization from the Client to trade-away from the Custodian for access to fixed income securities to achieve best execution for the Client. In such instances, the Client will complete additional authorizations with the Custodian for the discretionary authority to trade away from the Custodian. Under this brokerage arrangement, WA may execute fixed income securities away from the Client's Custodian [at another broker-dealer] through a prime brokerage arrangement. In such arrangements, Advisory Persons of the Advisor executes bond trades in one's individual capacity with PKS [Please see Item 10] and deliver the bond to the Client's Account[s] for custody. The Client is not charged an advisory fee on these assets. Instead, the Advisory Person is compensated via commissions through PKS in one's capacity as a Registered Representative. The Custodian may also charge an additional trade-away fee for these transactions in addition to the normal securities transaction costs.

Where WA does not exercise discretion over the selection of the Custodian, it may recommend the Custodian to Clients for custody and execution services. WA may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and its overall reputation. Clients are not obligated to use the Custodian recommended by the Advisor and will not incur any extra fee or cost associated with using a custodian not recommended by WA. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. As certain Advisory Persons of WA are also Registered Representatives of PKS, PKS must also approve any broker-dealer or custodian for use by the Advisor.

WA will generally recommend that Typically, WA will recommend that Clients establish their account[s] with Fidelity Clearing & Custody Solutions and related entities of Fidelity Investments, Inc. (collectively "Fidelity"), a FINRA-registered broker-dealer and member SIPC. WA established the institutional relationship with Fidelity to serve as the Client's "qualified custodian" and assist the Advisor in managing Client account[s].

Access to the Fidelity platform is provided at no charge to the Advisor. The Fidelity platform includes brokerage, custody, administrative support, record keeping, technology and related services designed to support registered investment advisors like WA in serving Clients. These services are intended to serve the best interests of the Advisor's Clients.

Fidelity may charge brokerage commissions (securities transaction fees) for effecting certain securities transactions. Fidelity enables the Advisor to obtain certain no-load mutual funds without securities transaction fees and other no-load funds at nominal transaction charges. Fidelity's commission rates are generally considered discounted from customary retail commission rates. However, the commissions and transaction fees charged by Fidelity may be higher or lower than those charged by other custodians and broker-dealers.

WA has also received economic benefits from Fidelity including financial start-up support, discounts and other benefits. These economic benefits are further described in Item 14 below.

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with the broker-dealer/custodian in exchange for research and other services. **WA does not participate in soft dollar programs sponsored or offered by any broker-dealer. However, the Advisor does receive certain economic benefits from Fidelity. Please see Item 14 below.**

2. Brokerage Referrals - WA does not receive any compensation from any third party in connection with the recommendation for establishing a brokerage account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis", where WA will place trades within the established account[s] at the Custodian designated by the Client, unless prime brokerage authorization is provided to the Advisor. Further, all Client accounts are traded within their respective account[s], unless otherwise instructed. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). However, as noted above, certain fixed income securities may be purchased in one's capacity as a Registered Representative of PKS and not under WA. WA will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the designated Custodian. When utilizing mutual funds, the Advisor will seek to utilize the lowest cost share class available to the Client. The Custodian will typically, but may not always, have access to the lowest cost share class available from the fund provider.

The Advisor has determined in good faith that the commissions charged by Fidelity are reasonable in relation to the value of the services the Advisor and its Clients receive. In seeking best execution, the determinative factor is not necessarily the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the Custodian's services, including the value of research provided, execution capability, commission rates, and responsiveness. Although the investment research products and services that may be obtained by the Advisor will generally be used to service all of the Advisor's Clients, they may not equally benefit all Clients. Please also see Item 14.

B. Aggregating and Allocating Trades

WA will typically not aggregate Client trades, as each account is managed on a Client by Client basis. When WA aggregates client trades, the primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the broker. WA will execute its transactions through an unaffiliated broker-dealer selected by the Client. WA may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-

allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage particular Client's accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Investments in Client accounts are monitored on a regular and continuous basis by Advisory Persons of WA under the supervision of William Franey, Chief Compliance Officer. Formal reviews are generally conducted at least annually or more frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify WA if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by WA

Participation in Institutional Advisor Platform

As noted in item 12, WA has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s].

As part of the arrangement, Fidelity also makes available to the Advisor, at no additional charge to the Advisor, certain research and brokerage services, including research services obtained by Fidelity directly from independent research companies. The Advisor may also receive additional services and support from Fidelity. As a result of receiving such services for no additional cost, the Advisor has an incentive to continue to use or expand the use of Fidelity's services. The Advisor examined this potential conflict of interest when it chose to enter into the relationship with Fidelity and has determined that the relationship with Fidelity remains in the best interests of the Advisor's Clients in connection with its fiduciary obligations, including its duty to seek best execution. Please see Item 12 above.

The Advisor receives access to software, vendors, and related support without cost or at a discount because the Advisor renders wealth management services to Clients that maintain assets at Fidelity. The software and related systems support benefit the Advisor and indirectly benefit the Clients. However, all services provided may not be utilized for all Clients.

Further, Fidelity has provided the Advisor with substantial financial support (further details of the financial support received will be provided upon request) in connection with the initial launch and early operations of the Advisor's business. Fidelity provided this financial support due to the level of Client assets expected to be transitioned to the Fidelity custodial platform. The Advisor is not obligated to trade in the Client's accounts to receive these benefits and does not receive higher compensation from effecting transactions in a Client's account[s]. The Advisor is authorized to use the financial support received from Fidelity for certain start-up, technology and transition costs. For instance, the financial support was utilized to cover account transfer fees charged by the Client's former

custodian when transitioning to Fidelity. The financial support has also been used to obtain technology and other support services that directly benefit the Advisor and may benefit the Client indirectly.

In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of these economic benefits from Fidelity creates a conflict of interest as these economic benefits may influence the Advisor's recommendation of Fidelity as a Custodian over another custodian that does not furnish similar software, systems, back-office support, financial support, and/or other economic benefits. Notwithstanding the conflicts noted herein, the Advisor firmly believes that Fidelity provides the Client and the Advisor with excellent value and support.

B. Compensation for Client Referrals

Certain Clients may be referred to the Advisor by either an affiliated or unaffiliated party (herein "Promoter") and receive, directly or indirectly, compensation for the Client referral. In such instances, the Advisor will compensate the Promoter a fee in accordance with Rule 206(4)-1 of the Advisers Act and any corresponding state securities requirements. Any such compensation shall be paid solely from the investment advisory fees earned by the Advisor, and shall not result in any additional charge to the Client.

Item 15 – Custody

WA does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor's fee and certain money movement authority as described below. All Clients must place their assets with a "qualified custodian". Clients are required to engage the Custodian to retain their funds and securities and direct WA to utilize the Custodian for the Client's security transactions, except for certain fixed income securities, as noted in Item 12 above. WA encourages Clients to review statements provided by the account Custodian. For more information about Custodians and brokerage practices, see "Item 12 – Brokerage Practices".

If the Client gives the Advisor authority to move money from one account to another account, the Advisor may have custody of those assets. In order to avoid additional regulatory requirements, the Custodian and the Advisor have adopted safeguards to ensure that the money movements are completed in accordance with the Client's instructions.

Item 16 – Investment Discretion

WA generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by WA. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by WA will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

WA does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither WA, nor its management, have any adverse financial situations that would reasonably impair the ability of WA to meet all obligations to its Clients. Neither WA, nor any of its Advisory Persons, has been subject to a bankruptcy or financial compromise. WA is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect fees of \$1,200 or more for services to be performed six months or more in advance.

Item 4 – Services Fees and Compensation

A. Services

The Wealth Alliance, LLC (“WA” or the “Advisor”) provides customized investment advisory services for its Clients. This Wrap Fee Program Brochure is provided as a supplement to the WA Disclosure Brochure (Form ADV 2A). This Wrap Fee Program Brochure is provided along with the complete Disclosure Brochure to provide full details of the business practices and fees when selecting WA as your investment advisor.

As part of the investment advisory fees noted in Item 5 of the Disclosure Brochure, WA includes, in addition to securities transaction fees for certain mutual funds, custodial costs, Independent Manager fees, and administrative fees, (herein “Covered Costs”) as part of the overall investment advisory fee. Securities regulations often refer to this combined fee structure as a “Wrap Fee Program”. The Advisor’s recommended Custodian does not charge securities transaction fees for exchange traded fund (“ETF”) and equity trades in Client accounts, provided that the Client’s accounts meets the terms and conditions of the Custodian’s brokerage requirements. However, the Custodian typically charges for mutual funds and other types of investments. The Advisor sponsors the WA Wrap Fee Program.

The sole purpose of this Wrap Fee Program Brochure is to provide additional disclosure relating the combination of Covered Costs into a single “bundled” investment advisory fee. This Wrap Fee Program Brochure references back to the WA Disclosure Brochure in which this Wrap Fee Program Brochure serves as an Appendix.

WA provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and related advisory services. WA works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create an investment strategy. WA will then design an investment strategy that may include the Advisor’s internal investment management and/or the use of independent managers.

Internal Management – WA will construct Client portfolios utilizing mutual funds, exchange-traded funds (“ETFs”), individual equities, individual bonds and alternative investments. The Advisor may also utilize other types of investments, as appropriate, to meet the needs of the Client. WA may retain certain legacy investments based on portfolio fit and/or tax considerations.

Use of Independent Managers – WA will recommend that Clients utilize one or more unaffiliated investment managers or investment platforms (collectively “Independent Managers”) for all or a portion of a Client’s investment portfolio. The use of an Independent manager is based on the Client’s needs, objectives, financial situation and other factors. WA often recommends Adhesion Wealth Advisor Solutions (“Adhesion”) and its related entities (herein Adhesion) and 551, LLC d/b/a 55ip (“55ip”) to Clients. The Client is typically required to authorize and enter into a platform services and investment management agreement with the Independent Manager[s] that defines the terms of services level of authority granted to the Independent Manager and the fees to be charged to the Client. The Advisor will perform initial and ongoing oversight and due diligence over each Independent Manager to ensure the platform and selected investment strategies remain aligned with Clients investment objectives and overall best interests. The Advisor will also assist the Client in developing and maintaining the investment allocations and managing the ongoing Client relationship. The Client will be provided with the Independent Manager’s Form ADV Part 2A – Disclosure Brochure (or a brochure that makes the appropriate disclosures).

Please see Item 4 – Advisory Services of the Disclosure Brochure for details on WA’s investment philosophy and related services.

B. Program Costs

Advisory services provided by WA are offered in a wrap fee structure whereby Covered Costs are included in the overall investment advisory fee paid to WA. As the level of trading in a Client’s account[s] may vary from year to year, the annual cost to the Client may be more or less than engaging for advisory services where the Covered Costs are borne separately by the Client. The cost of the Wrap Fee Program varies depending on services to be

provided to each Client, however, the Client is not charged more if there is higher trading activity or other Covered Costs in the Client's account[s]. A Wrap Fee structure presents a conflict of interest as the Advisor is incentivized to limit the number of trades placed in the Client's account[s] or to utilize securities that do not have transaction fees. As noted above, the Advisor's recommended Custodian does not charge securities transaction fees for ETF and equity trades in Client accounts, but typically charges for mutual funds and other types of investments. As such, the Advisor is incentivized to utilize ETFs and other equity securities to limit the overall cost to the Advisor. The Advisor will only place Client assets into a Wrap Fee Program when it is believed to be in the Client's best interest.

WA will select, recommend and/or retain mutual funds on a fund by fund basis. Due to specific custodial and/or mutual fund company constraints; specific selling agreements between the custodian(s) and the mutual fund company constraints, material tax consideration; and/or other factors, WA will select, recommend and/or retain certain investments that may carry a higher internal expense than other share classes offered by the investment provider. All investment costs are continuously evaluated and monitored by WA and are all disclosed to the Client. WA will work to select the lowest cost investment options that are available to the Advisor and the Client with all of the aforementioned factors considered in an effort to keep investment costs low and to work toward achieving the Client's financial objectives and stated investment guidelines. **Please see Item 5 – Fees and Compensation of the Disclosure Brochure for complete details on fees.**

C. Fees

Investment advisory fees are paid in advance of each calendar quarter, pursuant to the terms of the investment advisory agreement. Investment advisory fees are based on the market value of assets under management at the end of the prior calendar quarter. Investment advisory fees range from 0.25% to 1.75% based on several factors, including, but not limited to: the services offered to the Client, the complexity of the services to be provided, the level of Client assets managed by the Advisor, and/or the overall relationship with the Advisor.

The investment advisory fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by WA will be independently valued by the designated Custodian. The Advisor will conduct periodic reviews of the Custodian's valuations.

Clients may make additions to and withdrawals from their account[s] at any time, subject to WA's right to terminate an account. Additions may be in cash or securities provided that WA reserves the right to liquidate any transferred securities or decline to accept particular securities into a Client's account[s]. Clients may withdraw account assets on notice to WA, subject to the usual and customary securities settlement procedures. However, WA designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a Client's investment objectives. WA may consult with its Clients about the options and ramifications of transferring securities. However, Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, fees assessed at the mutual fund level (i.e. contingent deferred sales charge) and/or tax ramifications.

Use of Independent Managers

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio utilizing one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. The Advisor will only earn its investment advisory fee as described above. The Advisor will allocate a portion of the advisory fee collected to the Independent Manager pursuant to the terms of the executed agreement between the Advisor and the Independent Manager.

As noted above, the Wrap Fee Program includes normal Covered Costs incurred in connection with the discretionary investment management services provided by WA as part of its overall investment advisory fee. Securities transaction fees for Client-directed trades may be charged back to the Client. Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s].

Clients will incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. In addition, all fees paid to WA for investment advisory services or part of the Wrap Fee

Program are separate and distinct from the expenses charged by mutual funds, exchange-traded funds (“ETFs”) and alternative investments to their shareholders, if applicable. These fees and expenses are described in each fund’s prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. Additionally, account activity fees, such as electronic funds and wire transfers fees, certificate delivery fees, markups and markdowns, bid-ask spreads, selling concessions, and other miscellaneous fees and expenses as outlined in the account opening paperwork executed with the Custodian, are generally charged to the Client. Clients are encouraged to refer to the account opening paperwork executed with the Custodian for an outline of all third party fees covered under this Wrap Fee Program. The Advisor does not control nor share in these fees. The Client should review both the fees charged by the fund[s] and the fees charged by WA to fully understand the total fees to be paid. Please see Item 5.C. – Other Fees and Expenses in the Disclosure Brochure (included with this Wrap Fee Program Brochure).

D. Compensation

WA is the sponsor and portfolio manager of this Wrap Fee Program. WA receives investment advisory fees paid by Clients for participating in the Wrap Fee Program and pays the Covered Costs associated with the management of the Client’s account[s].

Item 5 – Account Requirements and Types of Clients

WA provides investment advisory services to individual, high net worth individuals, families, trusts, estates and businesses. WA does not impose a minimum account or relationship size; however, its services are typically designed to meet the needs of high net worth Clients. Please see Item 7 – Types of Clients in the Disclosure Brochure for additional information.

Item 6 – Portfolio Manager Selection and Evaluation

Portfolio Manager Selection

WA serves as sponsor and as portfolio manager for the services under this Wrap Fee Program.

The Advisor will also recommend that a Client utilize an Independent Manager for all or a portion of a Client’s investment portfolio. The Advisor will assist in the development of the initial policy recommendations and managing the ongoing Client relationship. The Advisor will also perform initial and ongoing oversight and due diligence over the selected Independent Managers to ensure the Independent Managers’ strategies and target allocations remain aligned with its Clients’ investment objectives and overall best interests.

Related Persons

WA’s Advisory Persons serve as portfolio managers for this Wrap Fee Program. WA does not serve as a portfolio manager for any third-party wrap fee programs.

Performance-Based Fees

WA does not charge performance-based fees for its investment advisory services. The fees charged by WA are as described in “Item 5 – Fees and Compensation” above and are not based upon the capital appreciation of the funds or securities held by any Client.

WA does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Supervised Persons

WA Advisory Persons serve as portfolio managers for Client accounts, including the services described in this Wrap Fee Program Brochure. Details of the advisory services provided are included in Item 4.A. of the Disclosure Brochure.

Methods of Analysis

Please see Item 8 of the Disclosure Brochure (included with this Wrap Fee Program Brochure) for details on the research and analysis methods employed by the Advisor.

Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. WA will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account[s]. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing a Client's account[s]. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Following are some of the risks associated with the Advisor's investment approach:

Market Risks – The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks – The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETF have a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Fixed Income Risks – Fixed Income securities, such as bonds, are subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond's time to maturity, and the coupon rate of the bond. (2) reinvestment risk, i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return, (4) credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation, (5) rating downgrades, i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as desired if there is no readily available market for the bond.

Mutual Fund Risks – The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily; therefore, a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Options Contracts – Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Margin Borrowings – The use of short-term margin borrowings may result in certain additional risks to a Client. For example, if securities pledged to a broker-dealer to secure a Client's margin account[s] decline in value, pursuant to which the Client could be subject to a "margin call", pursuant to which it must either deposit additional funds with the broker-dealer or be the subject of mandatory liquidation of the pledged securities to compensate for the decline in value.

Alternative Investments (Limited Partnerships) - The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor. Please see Item 8.B. – Risk of Loss in the Disclosure Brochure for details on investment risks.

Proxy Voting

WA does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 7 – Client Information Provided to Portfolio Managers

A portion of assets may be managed by an Independent Manager, where Client information will be shared with other portfolio managers. Clients participating in the Wrap Fee Program generally grant WA the authority to discuss certain non-public information with the Independent Managers engaged to manage their accounts. Depending upon the specific arrangement, the Advisor is authorized to disclose various personal information including, without limitation: names, phone numbers, addresses, social security numbers, driver's license, tax identification numbers and account numbers. WA may also share certain information related to its Clients' financial positions and investment objectives in an effort to ensure that the Independent Managers' investment decisions remain aligned with its Clients' best interests. This information is communicated on an initial and ongoing basis, or as otherwise necessary to the management of its Clients' portfolios.

Item 8 – Client Contact with Portfolio Managers

There are no restrictions on Clients' ability to correspond with WA. Clients can generally contact the Independent Managers managing their portfolios through WA by providing the Advisor with written request and identification of the questions or issues to be discussed with the Independent Managers. After receiving the Client's written request, WA, at its sole discretion, may contact the Independent Managers for the Client or arrange for the Independent Managers and the Client to communicate directly.

Other Financial Activities and Affiliations

Please see Items 10 and 14 of the Form ADV Part 2A – Disclosure Brochure (included with this Wrap Fee Program Brochure).

B. Code of Ethics, Review of Accounts, Client Referrals, and Financial Information

WA has implemented a Code of Ethics that defines the Advisor's fiduciary commitment to each Client. This Code of Ethics applies to all persons subject to WA's compliance program ("Supervised Persons"). Complete details on the WA Code of Ethics can be found under Item 11 – Code of Ethics, Participation in Client Transactions and Personal Trading in the Disclosure Brochure (included with this Wrap Fee Program Brochure).

Review of Accounts

Investments in Client accounts are monitored on a regular and continuous basis by Advisory Persons of WA under the supervision of William Franey, the Chief Compliance Officer ("CCO"). Details of the review policies and practices are provided in Item 13 of the Form ADV Part 2A – Disclosure Brochure.

Other Compensation

Participation in Institutional Advisor Platform (Fidelity) – WA has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s].

As part of the arrangement, Fidelity also makes available to the Advisor, at no additional charge to the Advisor, certain research and brokerage services, including research services obtained by Fidelity directly from independent research companies. The Advisor may also receive additional services and support from Fidelity. As a result of receiving such services for no additional cost, the Advisor has an incentive to continue to use or expand the use of Fidelity's services. The Advisor examined this potential conflict of interest when it chose to enter into the relationship with Fidelity and has determined that the relationship with Fidelity remains in the best interests of the Advisor's Clients in connection with its fiduciary obligations, including its duty to seek best execution. Please see Item 12 above.

The Advisor receives access to software, vendors, and related support without cost or at a discount because the Advisor renders wealth management services to Clients that maintain assets at Fidelity. The software and related systems support benefit the Advisor and indirectly benefit the Clients. However, all services provided may not be utilized for all Clients.

Further, Fidelity has provided the Advisor with substantial financial support (further detail of the financial support received will be provided upon request) in connection with the initial launch and early operations of the Advisor's business. Fidelity provided this financial support due to the level of Client assets expected to be transitioned to the Fidelity custodial platform. The Advisor is not obligated to trade in the Client's accounts to receive these benefits and does not receive higher compensation from effecting transactions in a Client's account[s]. The Advisor is authorized to use the financial support received from Fidelity for certain start-up, technology and transition costs. For instance, the financial support was utilized to cover account transfer fees charged by the Client's former custodian when transitioning to Fidelity. The financial support has also been used to obtain technology and other support services that directly benefit the Advisor and may benefit the Client indirectly.

In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of these economic benefits from Fidelity creates a conflict of interest as these economic benefits may influence the Advisor's recommendation of Fidelity as a Custodian over another custodian that does not furnish similar software, systems, back-office support, financial support, and/or other economic benefits. Notwithstanding the conflicts noted herein, the Advisor firmly believes that Fidelity provides the Client and the Advisor with excellent value and support.

Please see Item 14 – Other Compensation in the Form ADV Part 2A – Disclosure Brochure (included with this Wrap Fee Program Brochure) for details on additional compensation that may be received by WA or its Advisory Persons. Each Advisory Person's Brochure Supplement (also included with this Wrap Fee Program Brochure) provides details on any outside business activities and the associated compensation.

In such instances, the Advisor will compensate the Promoter a fee in accordance with Rule 206(4)-1 of the Advisers Act and any corresponding state securities requirements. Any such compensation shall be paid solely from the investment advisory fees earned by the Advisor, and shall not result in any additional charge to the Client.

CERTIFIED FINANCIAL PLANNER™ (“CFP®”)

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP® (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP® Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- *Education* – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP® Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP® Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- *Examination* – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances;
- *Experience* – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- *Ethics* – Agree to be bound by CFP® Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- *Continuing Education* – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- *Ethics* – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP® Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.
