Maksym Puzin

Principal Advisor, Digital Assets Investment

+1 917-607-1136

Educational Background and Business Experience

Maksym Puzin holds a Bachelor's degree in Computer Science and has amassed a significant breadth of experience across multiple sectors, underpinning his expertise in financial technology and digital assets. Over a decade, Mr. Puzin has developed an extensive background, beginning with a five-year tenure in the banking, consulting, and insurance industries. This period provided him with a solid foundation in traditional financial services and a deep understanding of the financial systems' operational and strategic aspects.

Transitioning to the fintech sector, Mr. Puzin dedicated another five years to exploring and contributing to the intersection of finance and technology. His role in fintech was pivotal in gaining a profound comprehension of the technological innovations driving the cryptocurrency industry and emerging digital asset classes. His expertise encompasses not just the technical aspects of blockchain and digital currencies but also the practical application of these technologies in modern investment strategies.

At Digital Assets Investment, Mr. Puzin combines his extensive background in finance, technology, and fintech to offer unique insights and strategies focused on cryptocurrency investments. His approach is informed by a deep understanding of both the technological underpinnings of digital assets and their evolving role in the global financial landscape.
