

INVESTOR PROTECTION RESOURCES FOR SENIORS

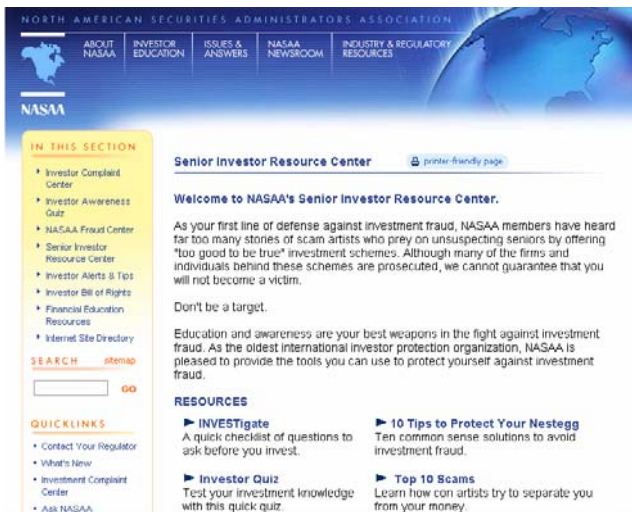

As your first line of defense against investment fraud, members of the North American Securities Administrators Association (NASAA) have heard too many stories of scam artists who prey on unsuspecting seniors by offering investment schemes that are just "too good to be true."

Although many of the individuals behind these schemes are prosecuted, we cannot guarantee that you will not become a victim. Education and awareness are your best weapons in the fight against investment fraud.

NASAA is a voluntary association whose membership consists of state, provincial, and territorial securities administrators in the 50 states, the District of Columbia, Puerto Rico, Canada, and Mexico. Our members share a common goal of protecting investors and are pleased to offer several resources to help senior investors protect themselves from investment fraud and abuse.
