COMMISSION ANNOUNCEMENTS

NEW APPOINTMENTS. Alan B. Levenson, Director, Division of Corporation Finance, announced the following personnel changes in the Division:

W. Burrell Ellis has been named an Assistant Director of the Division. Mr. Ellis' primary area of responsibility will be the supervision and coordination of the work of the three branches of corporate analysis and examination processing materials filed by investment companies under the Securities Act of 1933 and the Investment Company Act of 1940. Mr. Ellis joined the staff of the Commission January 1963 as a financial analyst in the Division of Corporate Regulation. He was designated Branch Chief in 1968 and has served in that capacity since. Mr. Ellis received his BS in 1948 from Hampton Institute, Hampton, Va.

Charles C. Leber has been designated Branch Chief of one of the processing branches charged with the responsibility for the analysis and examination of materials filed under the Securities Act of 1933 and certain portions of the Securities Exchange Act of 1934. Mr. Leber joined the staff of the Commission and Division in May 1966 and held the position of senior financial analyst in the Branch at the time of his appointment. Mr. Leber received his BS degree from the University of Richmond in 1963 and his MBA from American University in 1966.

H. Berlin Texier has been named Chief of the Branch of Corporate Analysis and Examination for Oil and Gas Drilling Programs. This branch is located in the Office of Oil and Gas and handles materials filed under the Acts in this specialized area. Mr. Texier joined the staff of the Commission in October 1959. He has served continuously in the Division of Corporation Finance in increasingly more important positions. Mr. Texier graduated magna cum laude from Georgetown University in 1952 and received his L.L.B. from Albany Law School in 1955.

Larry M. Rosenstein will become Special Counsel to the Director. In this capacity, Mr. Rosenstein will concentrate on investment company matters. One of his first major responsibilities will be implementation of the recent report of the advisory committee on investment companies and advisers. Mr. Rosenstein joined the staff of the Commission in January 1968. He has served in progressively more responsible positions in the Division of Trading and Markets and the Division of Corporate Regulation before joining this Division in August 1972. During the period June 1969 to March 1970, Mr. Rosenstein served as Legal Assistant to the Chairman. Mr. Rosenstein attended Duke University in Durham, N.C. and received his A.B. degree in 1963. He received his L.L.B. from the University of North Carolina Law School in 1966.

SPENCE AND GREEN CHEMICAL CO., REG A TEMPORARILY SUSPENDED. The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of common stock of Spence and Green Chemical Company (SG) of Crosby, Tex. No underwriter has been named for the offering by SG.

Pursuant to a notification filed on September 14, 1972, SG proposed to offer 104,250 shares of its common stock at $2.50 per share. According to the order, the Commission has reason to believe that: (a) the notification and offering circular contain untrue statements of material facts and omit to state material facts necessary to make the statements made, in the light of the circumstances under which they were made, not misleading with respect to the use of proceeds from the sale of securities by the company, the prior sale of unregistered securities of SG by the company and affiliates, the lack of current information regarding the status of the company's notes payable to stockholders and others, the risks inherent in an investment in the securities of SG, and the absence of any disclosure of how raw materials available from sources other than paper mills are to be utilized in the company's operations; (b) the terms and conditions of Regulation A have not been complied with in that there is a failure to state in the offering circular how the company's research and development and patents are to be applied commercially, the nature of the issuer's proposed products, information relating to transactions between management and the company, and information regarding the equipment and processes purportedly developed by the company; (c) the $500,000 ceiling available under Regulation A would be exceeded in that SG has never had a net income from operations and refuses to escrow the securities held by its directors, officers or promoters pursuant to Rule 255 of the Securities Act of 1933; and (d) the offering, if made, would be in violation of Section 17 of the Securities Act of 1933.

DISTRIBUTION OF SEC RELEASES. As has been previously announced, the Commission will begin publication of the SEC Docket in mid-February, 1973. This new compilation of releases will replace the Commission's free mailing lists. Those companies and persons registered with the Commission under the various acts will continue to receive copies of individual rules-related releases. This includes only those broker-dealers, investment advisers, listed companies, etc. who are required by law to file regular reports with the SEC. Private firms, other organizations and members of the public whose names are currently on Commission mailing lists will have to subscribe to the SEC Docket if they wish to automatically receive all releases.
