

### ISIIPC & Interpol Discovers \$1.3 billion hiding by Madoff in Malaysia

ISIIPC managing director Mr. Dominique Logan in charge of the discovery unit said "We have been tracking this stolen fund for couple of months but after concrete information got to us that Madoff might have hiding some funds in various discrete locations our teams interrogated some of Madoff past workers and with the interview we had with Madoff last month we were able to conclude our investigation. It is hard to imagine that such kind of cash can be hiding in a remote area in Malaysia whereas other people are losing their homes and property because of the scandal Madoff committed".

The Malaysian Government has been notified about the recovered funds and have taking measures to help liquidate the funds, after press briefing Malaysian Minister of finance II of Malaysia Mr. Ahmad Husni Hanadziah said "we are real sorry and surprised that Madoff will take our country as a source to launder and hide such huge amount of funds, our government will jointly support the ISIIPC & Interpol on security and movement of the discovered fund in order for it to be distributed amongst the acclaimers affected by Madoff scam". ISIIPC will be signing a joint transfer agreement with the Central Bank Malaysia (CBM) on the movement of the funds to the central bank of Malaysia.

CBM's Governor Zeti Akhtar Aziz said "with the urgency at hand we will allocate some smaller commercial banks who will partake in refunding the victims affected by Madoff via offshore wire transfer to their various banks, our banks must follow the instruction given to them before they can release any funds to acclaimers when we start the refunding".

A federal judge issued an order that may help investors swindled by the scheme recover some of their money. The order paved the way for the International Securities Investor Protection Corporation (ISIIPC) in notifying their branch office at the U.S about the on going discovery of funds at Malaysia therefore urging the Madoff Trustee chairman Irving H. Picard, and his trustee members to make a list of the acclaimers affected by Madoff scheme in anyway so that their refunds can be remitted to all affected by the scheme.

"We have been given go ahead by the International Securities Investor Protection Corporation (ISIIPC) Switzerland to work very closely with ISIIPC U.S.A to ensure that investors affected are totally refunded to the maximum extent possible," Picard said. Authorities continue to unravel the far-reaching Ponzi scheme masterminded by Madoff that bankrupted some once-wealthy investors and forced many nonprofit groups and foundations to shut down or make drastic cuts.
