Subject: RE: madoff -

Just FYI:

my questions:

1. Does Madoff provide anything to the hedge funds re: what they pay Madoff in commissions? I find it hard to believe that the hedge funds would be in the dark about what they pay Madoff.
2. Confirm that he has no email communications whatsoever re: any of the requests.
3. How does Madoff determine the time to execute the orders? We know that the black box actually does the legwork in executing the orders, but it doesn't do anything until Madoff decides when.
4. Madoff needs to give us more of an explanation as to the account statements.
