Not near me...I think closer to [Personal Privacy] office or the copier near Chris Lee...I think, because that is teh hall I usually take between my office area and the side you sit on.

It was the top box/my eye level, which is why I noticed it. But they were boxes, not file folders.

I remember seeing them because I thought to myself, hmmm, "I never heard anything more about that case, but it's going to storage"...

Hello Gen,

Can you remember if the boxes marked "Madoff" were in the hallway near your office or if not which hallway?

Thanks

Jackie

Mark,

There are absolutely NO Madoff files in my file cabinets.

I actually saw some boxes marked "Madoff" in the hallway last week with other items to be archived/stored. In fact, [Former OCIE Attorney Advisor] may have some items, as he was the primary person you assigned to work on the Madoff project when the mutual fund project began last year.

I will return to the office on June 7th, per the SRO calendar.

Gen, I think the Madoff files are locked in your file cabinets. Is the key in your office so we can get the files?
