SUPPLEMENTARY INFORMATION

I. Discussion

Until recently, the support functions of the Commission were allocated primarily to the Office of the Executive Director (“OED”). In 2010, however, the Commission established the Office of the Chief Operating Officer (“OCOO”) and allocated some support and administrative functions to OCOO. Then, on April 19, 2011, the Commission approved the consolidation of the OED with the OCOO in an effort to
streamline the organizational structure of the agency and add clarity and efficiency to the functions of the Chief Operating Officer.

These amendments harmonize the Commission’s rules with the consolidation already approved by replacing references to the Executive Director with references to the Chief Operating Officer. These include references to the Executive Director in rules describing the responsibilities of the Executive Director and officers serving under the Executive Director; rules delegating authority to the Executive Director and officers serving under the Executive Director; and rules relating to the classification and declassification of national security information and material. As a result of these amendments, these rules now will apply to the Chief Operating Officer and officers serving under the Chief Operating Officer, as applicable.

The amendments also make conforming changes to Commission rules relating to the offices that report to the OCOO. They amend provisions relating to the Office of the Comptroller to reflect that this office is now known as the Office of Financial Management and headed by the Chief Financial Officer. They amend provisions relating to the Office of Administrative and Personnel Management to reflect that the functions of this office are now performed by the Office of Human Resources and the Office of Administrative Services. They amend provisions relating to the former Office of Freedom of Information and Privacy Act Operations to reflect that this Office is now known as the Office of FOIA, Records Management, and Security. And, they remove a reference to the Office of Filings and Information Services, to reflect that this Office no longer exists.
Finally, the amendments would remove from the description of the functions of the COO (previously the description of the functions of the Executive Director) the functions of prescribing procurement regulations, entering into contracts, designating contracting officers, and making procurement determinations. We believe it is appropriate to retain for the Chairman the flexibility to designate the person or persons who shall perform these functions, rather than to specify by rule that these functions are allocated to the COO.

II. Related Matters

A. Administrative Procedure Act and Other Administrative Laws

The Commission has determined that these amendments to its rules relate solely to the agency’s organization, procedure, or practice. Accordingly, the provisions of the Administrative Procedure Act regarding notice of proposed rulemaking and opportunity for public participation are not applicable.\(^1\) The Regulatory Flexibility Act, therefore, does not apply.\(^2\) Because these rules relate solely to the agency’s organization, procedure, or practice and do not substantially affect the rights or obligations of non-agency parties, they are not subject to the Small Business Regulatory Enforcement Fairness Act.\(^3\) Finally, these amendments do not contain any collection of information requirements as defined by the Paperwork Reduction Act of 1995, as amended.\(^4\)

B. Cost-Benefit Analysis

---

\(^1\) 5 U.S.C. 553(b).

\(^3\) 5 U.S.C. 804.

\(^4\) 44 U.S.C. 3501 - 3520.
The Commission is sensitive to the costs and benefits imposed by its rules. The amendments adopted today are procedural in nature and will produce the benefit of facilitating the efficient operation of the Commission. The Commission also believes that these rules will not impose any costs on non-agency parties, or that if there are any such costs, they are negligible.

C. Consideration of Burden on Competition

Section 23(a)(2) of the Exchange Act requires the Commission, in making rules pursuant to any provision of the Exchange Act, to consider among other matters the impact any such rule would have on competition. The Commission does not believe that the amendments that the Commission is adopting today will have any impact on competition because they impose no new burden upon market participants and are intended to facilitate the efficient operation of the Commission.
