

Since recipients maintain NASA's official records for its assets in their possession, NASA uses the data contained in recipients' reports for annual financial statements and property management. As a result, NASA is changing the date for submission of annual Inventory Reports from October 31 to October 15 of each year.

NASA published an interim rule in the **Federal Register** (69 FR 5016) on February 3, 2004. No public comments were received in response to the interim rule. However, the interim rule failed to revise the property reporting date in sections 1260.74, Property use, disposition, and vesting of title; 1260.75, Summary of Report Requirements; and 1274.933. This final rule revises these dates consistent with the interim rule. This change is consistent with the intent and changes made in the interim rule and therefore, publication for public comment is not considered necessary.

This final rule is not a significant regulatory action, and therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This final rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

NASA certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because it requires no additional work.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because this final rule does not impose any new recordkeeping or information collection requirements, or collection of information from offerors, contractors, or members of the public that require the approval of the Office of Management (OMB) and Budget under 44 U.S.C. 3501, *et. seq.*
