RE: SEC FILE NO. 4-500  
REQUEST FOR RULEMAKING REGARDING MEMBER RECORDS OF "SHORT"  
POSITIONS AND REPORTING AND PUBLIC DISSEMINATION OF AGGREGATE  
POSITION BY SECURITY

Dear Mr. Jonathan G. Katz,

Your working behind the scenes is greatly appreciated. Especially, your continuing efforts to make a "transparent" penny stock market.

The reason for writing is of a slightly different persuasion; a particular persuasion of an underlying fraud that continues to take place in the market--fraudulence that is allowed and somehow protected somewhere in Government or outside:

Rule No. 4-500, is, as very important today, as it is tomorrow. Today, it will protect investments already existing. Tomorrow, it will protect investors in the future. And being an investor of today, it is necessary to worry about my family's future, tomorrow.

There is no joke here. The current market and SEC hearings into CMKX is destroying peoples investments and lives; persons such as members of my family that have invested everything in the truth and honesty that is supposed to exist in government-and the diligence that is supposed to take place in a corrupt society. Should a police officer observe an abuse, action would be taken immediately. However, these truths don't exist. And it is going to be very harmful to my family to lose stake in the above mentioned company.

A lawyer friend, told me the terminology behind aggressive actions, taking place by a single individual, that has mass media coverage backing his movement to expose certain specific people with no great purpose. He used the term "scalping." And, with no further ado, there is no time to wait for an aggressive scalper to be let loose after the key protection is in place for market makers that are manipulating penny stocks.

We do not need an individual to start turning over the corruption in the market at some later date, uselessly, using today's investors--we would probably rather strike deals if we had to (giving up certain rights established by law and an ongoing heritage turning sour). We need this uncovered by an honest, hard-working individual, such as yourself.

Please make no delay in uncovering this matter. We don't need any more "scalpers" or manipulations of laws that exist here in the United States. And, some of us, have little time.

Your comments on this matter would be welcomed. Thank you for your time and consideration.

Sincerely,  
David J. O'Hanlon  
Family Investment Representative
