Re: File # S7-1-04

Dear Chairman Donaldson:

I commend you for your proposed rule change that will provide investors with greater choice in the national securities market.

The opt-out proposal will end the outdated trade through rule and expand the power of the investors to determine how their order is executed and which factors should be considered in that execution.

Speed can be more important than price at times just like price can be more important than speed at times. This rule gives a clear choice to the investor.

Sincerely,
Thomas E. Jackson
