II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange currently allows the entry of market orders, which are orders that are orders to buy or sell at the best price available at the time of execution ("Market Orders"). The purpose of this proposed rule change is to amend BATS Rule 21.1(d)(5) to reject Market Orders if they are received when the underlying security is subject to a "Limit State" or "Straddle State" as defined Limit in the Up-Limit Down Plan.⁶

The Limit Up-Limit Down Plan is designed to prevent executions from occurring outside of dynamic price bands disseminated to the public by the single plan processor as defined in the Limit Up-Limit Down Plan. Under the Plan, a Limit State will be declared if the national best offer equals the lower price band and does not cross the national best bid, or the national best bid equals the upper price band and does not cross the national best offer. A Straddle State is when

⁶ The Exchange notes that it will verify whether the underlying security is in a Limit State or Straddle State immediately prior to executing any Market Order.

the national best bid (offer) is below (above) the lower (upper) price band and the security is not in a Limit State, and trading in that security deviates from normal trading characteristics such that declaring a trading pause would support the Plan's goal to address extraordinary market volatility. Accordingly, when the underlying security is in a Limit State or Straddle State, there will not be a reliable price for the security to serve as a benchmark for the price of the related option. In such a state, the Exchange does not believe that it should permit the execution of Market Orders, which are un-priced orders that execute at the best price available at the time the Exchange receives such orders. The Exchange believes that the rejection of Market Orders when the underlying security is subject to a Limit State or Straddle State will help to maintain a fair and efficient marketplace for the execution of options.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act⁷ in general, and furthers the objectives of Section 6(b)(5) of the Act⁸ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The Exchange believes that the rejection of options Market Orders when the underlying security is in a Limit State or Straddle State will help to prevent executions that might occur at prices that have not been reliably formed. The Exchange believes that this change will help to protect, in particular, retail investors from executions of un-priced orders during times of significant volatility, and thus, believes the proposal to be consistent with the protection of investors and the public interest.

⁸ 15 U.S.C. 78f(b)(5).

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange believes other options exchanges are proposing to handle market orders subject to a Limit State or Straddle State in connection with the Limit Up-Limit Down Plan consistent with the Exchange's handling proposed by this filing.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
