Rule 3.21. Customer Disclosures

No Member may accept an order from a customer for execution in the Early Trading, Pre-Opening or After Hours Trading Session without disclosing to such customer that extended hours trading involves material trading risks, including the possibility of lower liquidity, high volatility, changing prices, unlinked markets, an exaggerated effect from news announcements, wider spreads and any other relevant risk. The absence of an updated underlying index value or intraday indicative value is an additional trading risk in extended hours for UTP Derivative Securities (as defined in Rule 14.11(j)). Orders may be executed on the Exchange or routed away from the Exchange during Regular Trading Hours and during the Early Trading, Pre-Opening and After Hours Trading Sessions.

Rule 11.9. Orders and Modifiers

Users may enter into the System the types of orders listed in this Rule 11.9, subject to the limitations set forth in this Rule or elsewhere in these Rules.

(a) General Order Types

(1) (No change).

(2) BATS Market Order. An order to buy or sell a stated amount of a security that is to be executed at the NBBO when the order reaches the Exchange. BATS market orders shall not trade through Protected Quotations. A BATS market order that is designated as BATS Only with a time-in-force of Day will be cancelled if, when reaching the Exchange, it cannot be executed on the System in accordance with Rule 11.13(a)(1) unless the reason that such BATS market order cannot be executed is because it is entered into the System and the NBO (NBB) is greater (less) than the Upper (Lower) Price Band, in which case such order will be posted by the System to the BATS Book, displayed at the Upper (Lower) Price Band, and re-priced as set forth in Rule 11.18(e)(5)(B). A BATS market order to sell with a time-in-force of Day that is marked short that cannot be executed because of the existence of a Short Sale Circuit Breaker will be posted by the System to the BATS Book subject to the price sliding process as set forth in paragraph (g) below. A BATS market order will default to a time-in-force of Day unless otherwise specified by a User. A BATS market order that is designated as BATS Only with a time-in-force other than Day will be cancelled if, when reaching the Exchange, it cannot be executed on the System in accordance with Rule 11.13(a)(4).
BATS market orders that are designated as BATS Post Only are rejected. BATS market orders that are not designated as BATS Only and that cannot be executed in accordance with Rule 11.13(a)(4) on the System when reaching the Exchange will be eligible for routing away pursuant to Rule 11.13(b). Any portion of a BATS market order that would execute at a price more than $0.50 or 5 percent worse than the NBBO at the time the order initially reaches the Exchange, whichever is greater, will be cancelled. BATS market orders are not eligible for execution during the Early Trading Session, Pre-Opening Session or the After Hours Trading Session.

(b) Time-in-Force. Orders must have one of the following time-in-force terms.

(1) – (7) (No change).

(8) Pre-Opening Session Plus (“PRE”). A limit order that is designated for execution during the Pre-Opening Session and Regular Trading Hours. Any portion not executed expires at the end of Regular Trading Hours.

(9) Pre-Opening Session ‘til Extended Day (“PTX”). A limit order that is designated for execution during the Pre-Opening Session, Regular Trading Hours, and the After Hours Session. Any portion not executed expires at the end of the After Hours Session.

(10) Pre-Opening Session ‘til Day (“PTD”). A limit order that is designated for execution during the Pre-Opening Session, Regular Trading Hours, and the After Hours Session. Any portion not executed will be cancelled at the expiration time assigned to the order, which can be no later than the close of the After Hours Trading Session.

(c) Other Types of Orders.

(1) – (15) (No change).

(16) Market Maker Peg Order. A limit order that, upon entry or at the beginning of Regular Trading Hours, as applicable, the bid or offer is automatically priced by the System at the Designated Percentage (as defined in Rule 11.8) away from the then current NBB and NBO, or if no NBB or NBO, at the Designated Percentage away from the last reported sale from the responsible single plan processor in order to comply with the quotation requirements for Market Makers set forth in Rule 11.8(d). Users may submit Market Maker Peg Orders to the Exchange starting at the beginning of [the Pre-Opening] Early Trading Session, but the order will not be executable or automatically priced until the beginning of Regular Trading Hours and will expire at the end of Regular Trading Hours. Upon reaching the Defined Limit (as defined in Rule 11.8), the price of a Market Maker Peg Order bid or offer will be adjusted by the System to the Designated Percentage away from the then current NBB and NBO, or, if no NBB or NBO, the order will, by default, be the Designated Percentage away from the last
reported sale from the responsible single plan processor. If a Market Maker Peg Order bid or offer moves a specified number of percentage points away from the Designated Percentage towards the then current NBB or NBO, which number of percentage points will be determined and published in a circular distributed to Members from time to time, the price of such bid or offer will be adjusted to the Designated Percentage away from the then current NBB and NBO. If no NBB or NBO, the order will be adjusted to the Designated Percentage away from the last reported sale from the responsible single plan processor. If, after entry, the Market Maker Peg Order is priced based on the last reported sale from the single plan processor and such Market Maker Peg Order is established as the NBB or NBO, the Market Maker Peg Order will not be subsequently adjusted in accordance with this rule until either there is a new consolidated last sale or a new NBB or NBO is established by a national securities exchange. Market Maker Peg Orders are not eligible for routing pursuant to Rule 11.13(b) and are always displayed on the Exchange. Notwithstanding the availability of Market Maker Peg Order functionality, a Market Maker remains responsible for entering, monitoring, and re-submitting, as applicable, quotations that meet the requirements of Rule 11.8(d). A new timestamp is created for the order each time that it is automatically adjusted. For purposes of this paragraph, the Exchange will apply the Designated Percentage and Defined Limit as set forth in Rule 11.8, subject to the following exceptions. For all NMS stocks with a price less than $1 per share that are not included in the S&P 500® Index, Russell 1000® Index, and a pilot list of Exchange Traded Products, the Exchange will use the Designated Percentage and Defined Limit applicable to NMS stocks equal to or greater than $1 per share that are not included in the S&P 500® Index, Russell 1000® Index, and a pilot list of Exchange Traded Products. Market Maker Peg Orders may only be entered by a registered Market Maker. Market Maker Peg Orders will expire at the end of Regular Trading Hours.

(17) – (18)  (No change).

(19)  **Supplemental Peg Order.** A non-displayed limit order that posts to the BATS Book, and thereafter is eligible for execution at the NBB for buy orders and NBO for sell orders against routable orders that are equal to or less than the aggregate size of the Supplemental Peg Order interest available at that price. Supplemental Peg Orders are passive, resting orders on the BATS Book and do not take liquidity. A User may specify a minimum execution quantity for a Supplemental Peg Order. A minimum execution quantity on a Supplemental Peg Order will no longer apply where the number of shares remaining after a partial execution are less than the minimum execution quantity. Supplemental Peg Orders are eligible for execution in a given security during the Early Trading Session, Pre-Opening Session, Regular Trading Hours, and After Hours Trading Session. Supplemental Peg Orders are not eligible for execution in the Opening Process. A Supplemental Peg Order does not execute at a price that is inferior to a Protected Quotation, and is not permitted to execute if the NBBO is locked or crossed. Any and all remaining, unexecuted Supplemental Peg Orders are cancelled at the conclusion of the After Hours Trading Session.
Rule 11.13. Order Execution and Routing

(a) Execution Against the BATS Book

(1) (No change).

(2) Compliance with Regulation NMS and Trade-Through Protection.

(A) (No change).

(B) Other Trading Sessions. For any execution to occur during the Early Trading Session, Pre-Opening Session or the After Hours Trading Session, the price must be equal to or better than the highest Protected Bid or lowest Protected Offer, unless the order is marked ISO or a Protected Bid is crossing a Protected Offer.

(3) – (4) (No change).

(b) – (e) (No change).

11.17. Clearly Erroneous Executions

(a) – (b) (No change).

(c) Thresholds. Determinations of whether an execution is clearly erroneous will be made as follows:

(1) Numerical Guidelines. Subject to the provisions of paragraph (c)(3) below, a transaction executed during Regular Trading Hours or during the Early Trading, Pre-Opening or After Hours Session shall be found to be clearly erroneous if the price of the transaction to buy (sell) that is the subject of the complaint is greater than (less than) the Reference Price by an amount that equals or exceeds the Numerical Guidelines set
forth below. The execution time of the transaction under review determines whether the threshold is Regular Trading Hours or Early Trading, Pre-Opening or After Hours Trading Session(s) (which occur before and after the Regular Trading Hours). The Reference Price will be equal to the consolidated last sale immediately prior to the execution(s) under review except for: (A) Multi-Stock Events involving twenty or more securities, as described in paragraph (c)(2) below; and (B) in other circumstances, such as, for example, relevant news impacting a security or securities, periods of extreme market volatility, sustained illiquidity, or widespread system issues, where use of a different Reference Price is necessary for the maintenance of a fair and orderly market and the protection of investors and the public interest.

(3) Additional Factors. Except in the context of a Multi-Stock Event involving five or more securities, an Official may also consider additional factors to determine whether an execution is clearly erroneous, including but not limited to, system malfunctions or disruptions, volume and volatility for the security, derivative securities
products that correspond to greater than 100% in the direction of a tracking index, news released for the security, whether trading in the security was recently halted/resumed, whether the security is an initial public offering, whether the security was subject to a stock-split, reorganization, or other corporate action, overall market conditions, Early Trading, Pre-Opening or After Hours Session executions, validity of the consolidated tape[s] trades and quotes, consideration of primary market indications, and executions inconsistent with the trading pattern in the stock. Each additional factor shall be considered with a view toward maintaining a fair and orderly market and the protection of investors and the public interest.

CHAPTER XIV. BATS EXCHANGE LISTING RULES

Rule 14.6. Obligations for Companies Listed on the Exchange

(a) (No change.)

(b) Obligation to Make Public Disclosure

(1) Disclosure of Material Information

Except in unusual circumstances, an Exchange-listed Company shall make prompt disclosure to the public through any Regulation FD compliant method (or combination of methods) of disclosure of any material information that would reasonably be expected to affect the value of its securities or influence investors’ decisions. The Company shall, prior to the release of the information, provide notice of such disclosure to the Exchange’s Surveillance Department at least ten minutes prior to public announcement if the information involves any of the events set forth in Interpretation and Policy .01 to this Rule and the public release of the material information is made during the Exchange market hours. If the public release of the material information is made outside of the Exchange market hours, the Exchange Companies must notify the Exchange’s Surveillance Department of the material information prior to [7:50] 6:50 a.m. ET. As described in Interpretation and Policy .01, prior notice to the Exchange’s Surveillance Department must be made through the electronic disclosure submission system available at the Exchange’s Web site, except in emergency situations.
(2) Disclosure of Notification of Deficiency

As set forth in Rule 14.12(e), a Company that receives a notification of deficiency from the Exchange is required to make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing receipt of the notification and the Rule(s) upon which the deficiency is based. However, note that in the case of a deficiency related to the requirement to file a periodic report contained in Rule 14.6(c)(1) or (2), the Company is required to make the public announcement by issuing a press release. As described in Rule 14.6(b)(1) above and Interpretation and Policy .01 below, the Company must notify the Exchange’s Surveillance Department about the announcement through the electronic disclosure submission system available on the Exchange’s Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the public announcement is made during the Exchange market hours, the Company must notify the Exchange’s Surveillance Department at least ten minutes prior to the announcement. If the public announcement is made outside of the Exchange market hours, the Company must notify the Exchange’s Surveillance Department of the announcement prior to [7:50]6:50 a.m. ET.

(c) – (e) (No change.)

Interpretations and Policies

.01 Disclosure of Material Information

(a) General Disclosure Requirements

Rule 14.6(b)(1) requires that, except in unusual circumstances, Exchange Companies disclose promptly to the public through any Regulation FD compliant method (or combination of methods) of disclosure any material information that would reasonably be expected to affect the value of their securities or influence investors’ decisions. Exchange Companies must notify the Exchange at least ten minutes prior to the release to the public of material information that involves any of the events set forth below when the public release of the information is made during Exchange market hours ([8:00]7:00 a.m. to 5:00 pm. ET). If the public release of the material information is made outside of the Exchange market hours, the Exchange Companies must notify the Exchange’s Surveillance Department of the material information prior to [7:50]6:50 a.m. ET. Under unusual circumstances Companies may not be required to make public disclosure of material events; for example, where it is possible to maintain confidentiality of those events and immediate public disclosure would prejudice the ability of the Company to pursue its legitimate corporate objectives. However, the Exchange Companies remain obligated to disclose this information to the Exchange upon request pursuant to Rule 14.6(a).

* * * * *

(b) Notification to the Exchange’s Surveillance Department
Companies must notify the Exchange’s Surveillance Department prior to the distribution of certain material news at least ten minutes prior to public announcement of the news when the public release of the information is made during the Exchange market hours ([8:00]7:00 a.m. to 5:00 pm. ET). If the public release of the material information is made outside of the Exchange market hours, The Exchange must notify the Exchange’s Surveillance Department of the material information prior to [7:50]6:50 a.m. ET. Except in emergency situations, this notification must be made through the Exchange’s electronic disclosure submission system available on the Exchange’s Web site. In emergency situations, Companies may instead provide notification by telephone or facsimile. Examples of an emergency situation include: lack of computer or internet access; technical problems on the Exchange and a material development such that no draft disclosure document exists, but immediate notification to the Exchange’s Surveillance Department is important based on the material event.

* * * * *

(c) Trading Halts

* * * * *

The Exchange’s Surveillance Department is required to keep non-public information, confidential and to use such information only for regulatory purposes.

Companies are required to notify the Exchange’s Surveillance Department of the release of material information included in the following list of events at least ten minutes prior to the release of such information to the public when the public release of the information is made during Exchange market hours ([8:00]7:00 a.m. to 5:00 pm. ET):

1. Financial-related disclosures, including quarterly or yearly earnings, earnings restatements, pre-announcements or “guidance.”
2. Corporate reorganizations and acquisitions, including mergers, tender offers, asset transactions and bankruptcies or receiverships.
3. New products or discoveries, or developments regarding customers or suppliers (e.g., significant developments in clinical or customer trials, and receipt or cancellation of a material contract or order).
4. Senior management changes of a material nature or a change in control.
5. Resignation or termination of independent auditors, or withdrawal of a previously issued audit report.
6. Events regarding the Company’s securities — e.g., defaults on senior securities, calls of securities for redemption, repurchase plans, stock splits or changes in dividends, changes to the rights of security holders, or public or private sales of additional securities.
7. Significant legal or regulatory developments. Regulation FD
8. Any event requiring the filing of a Form 8-K.

If the public release of the material information is made outside of Exchange market hours, Exchange Companies must notify the Exchange’s Surveillance Department of the material
information prior to [7:50]6:50 a.m. ET. It should also be noted that every development that might be reported to the Exchange in these areas would not necessarily be deemed to warrant a trading halt. In addition to the list of events set forth above, the Exchange encourages Companies to avail themselves of the opportunity for advance notification to the Exchange’s Surveillance Department in situations where they believe, based upon their knowledge of the significance of the information, that a temporary trading halt may be necessary or appropriate.

.02 Use of Regulation FD Compliant Methods in the Disclosure of Material Information

Regardless of the method of disclosure that a Company chooses to use, Companies are required to notify the Exchange’s Surveillance Department of the release of material information that involves any of the events set forth above at least ten minutes prior to its release to the public when the public release of the information is made during Exchange market hours ([8:00]7:00 a.m. to 5:00 pm. ET). If the public release of the material information is made outside of Exchange market hours, Exchange Companies must notify the Exchange’s Surveillance Department of the material information prior to [7:50]6:50 a.m. ET. When a Company chooses to utilize a Regulation FD compliant method for disclosure other than a press release or Form 8-K, the Company will be required to provide prior notice to the Exchange’s Surveillance Department of: 1) the press release announcing the logistics of the future disclosure event; and 2) a descriptive summary of the material information to be announced during the disclosure event if the press release does not contain such a summary.
