(Release No. 34-68361; File No. SR-BOX-2012-020)

December 5, 2012

Self-Regulatory Organizations; BOX Options Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposal to Expand the Short Term Options Series Program

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that, on December 4, 2012, BOX Options Exchange LLC (the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

BOX Options Exchange LLC (the “Exchange”) proposes to amend interpretive material to Rule 5050 and to Rule 6090 to expand the Short Term Option Series Program. The text of the proposed rule change is available from the principal office of the Exchange, on the Exchange’s Internet website at <http://boxexchange.com>, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend IM-5050-6 to Rule 5050 and IM-6090-2 to Rule 6090 to provide for the ability to open up to five consecutive expirations under the Short Term Option Series Program (“Weeklys Program”) for trading on BOX, to allow for the Exchange to delist certain series in the Weeklys Program that do not have open interest and to expand the number of series in the Weeklys Program under limited circumstances when there are no series at least 10% but not more than 30% away from the current price of the underlying security.<sup>3</sup>

Currently, BOX may select up to 30 currently listed option classes on which Short Term Option Series (“STOS”) may be opened in the Weeklys Program and BOX may also match any option classes that are selected by other securities exchanges that employ a similar program under their respective rules.<sup>4</sup> For each option class eligible for participation in the Weeklys Program, the Exchange may open up to 30 STOS for each expiration date in that class.

This proposal seeks to allow the Exchange to open STOS for up to five consecutive week expirations. The Exchange intends to add a maximum of five consecutive week expirations under the Weeklys Program; however it will not add a STOS expiration in the same week that a monthly options series expires or, in the case of Quarterly Option Series, on an expiration that coincides with an expiration of Quarterly Option Series on the same class. In other words, the

<sup>3</sup> The Exchange adopted the Weeklys Program on a permanent basis on July 15, 2010. See Securities Exchange Act Release No. 62505 (July 15, 2010), 75 FR 42792 (July 22, 2010) (SR-BX-2010-047).

<sup>4</sup> See Securities Exchange Act Release No. 65773 (November 17, 2011), 76 FR 72490 (November 23, 2011) (SR-BX-2011-075). See also, Exchange IM-5050-6(b)(1) and note that currently, BOX may open Short Term Options Series that expire on the Friday of the following business week.

total number of consecutive expirations will be five, including any existing monthly or quarterly expirations.<sup>5</sup>

The Exchange notes that the Weeklys Program has been well-received by market participants, in particular by retail investors. The Exchange believes that the current proposed revision to the Weeklys Program will permit the Exchange to meet increased demand from BOX market participants and provide them with the ability to hedge in a greater number of option classes and series.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority have the necessary systems capacity to handle the potential additional traffic associated with trading of an expanded number of expirations that participate in the Weeklys Program.

In addition, the Exchange is proposing to add new language to IM-5050-6(b) and IM-6090-2(b) to allow the Exchange, in the event that the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security, to delist series with no open interest in both the call and the put series having a: (i) strike higher than the highest strike price with open interest in the put and/or call series for a given expiration month; and (ii) strike lower than the lowest strike price with open interest in the put and/or the call series for a given expiration month, so as to list series that are at least 10% but not more than 30% above or below the current price of the underlying security. Further, in the event that all existing series have open interest and there are no series at least 10% above or

---

<sup>5</sup> For example, if quarterly options expire week 1 and monthly options expire week 3 from now, the proposal would allow the following expirations: week 1 quarterly, week 2 STOS, week 3 monthly, week 4 STOS, and week 5 STOS. If quarterly options expire week 3 and monthly options expire week 5, the following expirations would be allowed: week 1 STOS, week 2 STOS, week 3 quarterly, week 4 STOS, and week 5 monthly.

below the current price of the underlying security, the Exchange may list additional series, in excess of the 30 allowed currently under IM-5050-6(b) and IM-6090-2(b) that are at least 10% and not more than 30% above or below the current price of the underlying security. This change is being proposed notwithstanding the current cap of 30 series per class under the Weeklys Program.

The Exchange believes that it is important to allow investors to roll existing option positions. Ensuring that there are always series at least 10% but not more than 30% above or below the current price of the underlying security will allow investors the flexibility they need to roll existing positions.

## 2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act,<sup>6</sup> in general, and Section 6(b)(5) of the Act,<sup>7</sup> in particular, in that it is designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that expanding the Weeklys Program will result in a continuing benefit to investors by giving them more flexibility to closely tailor their investment decisions and hedging decisions in a greater number of securities.

The Exchange also believes that expanding the Weeklys Program will provide the investing public and other market participants with additional opportunities to hedge their investment thus allowing these investors to better manage their risk exposure. While the expansion of the Weeklys Program will generate additional quote traffic, the Exchange does not

<sup>7</sup> 15 U.S.C. 78f(b)(5).

believe that this increased traffic will become unmanageable since the proposal remains limited to a fixed number of expirations.

The Exchange believes that the ability to delist series with no open interest in both the call and the put series will benefit investors by devoting the current cap in the number of series to those series that are more closely tailored to the investment decisions and hedging decisions of investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In this regard and as indicated above, the Exchange notes that proposal is a competitive filing and believes this proposed rule change is necessary to permit fair competition among the options exchanges.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and, by its terms, does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>8</sup> and Rule 19b-4(f)(6) thereunder.<sup>9</sup>

---

<sup>8</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>9</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business

The Exchange has requested that the Commission waive the 30-day operative delay. The Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest because the proposal is substantially similar to those of other exchanges that have been approved by the Commission and permit such exchanges to open up to five consecutive expirations under their respective STOS Programs as well as allow for the exchanges to delist any series in the STOS Programs that do not have open interest and expand the number of series per class permitted in the STOS Programs under limited circumstances.<sup>10</sup> Therefore, the Commission designates the proposal operative upon filing.<sup>11</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
