**IM-7270-7**

Participants may use the Facilitation Mechanism according to paragraph (a) of this Rule 7270 to execute block-size Complex Orders of fifty (50) contracts per leg or more (as defined in Rule 7240) at a net price. Participants may enter Responses for Complex Orders at net prices, and bids and offers for Complex Orders will participate in the execution of an order being executed as provided in paragraph (a) of this Rule 7270. Responses to a Complex Order within the Facilitation Auction mechanism may be submitted for any size up to the size of the entire Complex Order, however, the Responses must be for all Legs of the Complex Order. Responses must be priced at the price of the Agency Order or at a better price and must not exceed the size of the Agency Order.

Notwithstanding any other provisions of this rule 7270, the priority and execution rules for Complex Orders contained in Rule 7240(b)(2) and (3) will continue to apply. For purposes of determining priority and trade allocation under Rule 7270(a)(3), the Trading Host will consider interest on the BOX Book and interest on the Complex Order Book and Responses to the Facilitation Auction. Notwithstanding Rule 7270(a)(3)(i), any interest on the BOX Book will execute at its stated price against the Agency Order.
