II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule for trading on BOX. Specifically, the Exchange proposes to revise certain qualification thresholds in Sections I.B.1 of the BOX Fee Schedule, Primary Improvement Order and I.B.2 of the BOX Fee Schedule, the BOX Volume Rebate ("BVR"). Changes to the Fee Schedule pursuant to this proposal will be effective November 11, 2016.⁵

Primary Improvement Order

Under the tiered fee schedule for Primary Improvement Orders, the Exchange assesses a per contract execution fee to all Primary Improvement Order executions where the corresponding PIP or COPIP Order is from the account of a Public Customer. Percentage thresholds are calculated on a monthly basis by totaling the Initiating Participant's Primary Improvement Order volume submitted to BOX, relative to the total national Customer volume in multiply-listed options classes. The Exchange proposes to adjust the percentage thresholds in Tiers 4 and 5.

⁵ The Exchange notes that while a Participant's monthly volume and percentage threshold will remain unchanged, under this proposal their percentage threshold may fall into a different Tier for the remaining trading days in the month. Consequently, a Participant may receive a higher rebate/lower fee for transactions executed within these trading days.

Specifically, the Exchange proposes to change Tier 4 from “0.500% to 0.949%” to “0.500% to 0.799%” and Tier 5 from “0.950% and Above” to “0.800% and Above.” The Exchange notes that it is not proposing any changes to the fees within the Primary Improvement Order fee structure and the quantity submitted will continue to be calculated on a monthly basis by totaling the Initiating Participant’s Primary Improvement Order volume submitted to BOX, relative to the total national Customer volume in multiply-listed options classes.

BVR

Next, the Exchange proposes to adjust certain percentage thresholds within the BVR. Under the BVR, the Exchange offers a tiered per contract rebate for all Public Customer PIP Orders and COPIP Orders of 100 and under contracts that do not trade solely with their contra order. Percentage thresholds are calculated on a monthly basis by totaling the Participant’s PIP and COPIP volume submitted to BOX, relative to the total national Customer volume in multiply-listed options classes. The Exchange proposes to adjust the percentage thresholds in Tiers 3 and 4. Specifically, the Exchange proposes to change Tier 3 from “0.340% to 0.949%” to “0.340% to 0.799%” and Tier 4 from “0.950% and Above” to “0.800% and Above.” The Exchange notes that it is not proposing any changes to the fees within the BVR. The quantity submitted will continue to be calculated on a monthly basis by totaling the Participant’s PIP and COPIP volume submitted to BOX, relative to the total national Customer volume in multiply-listed options classes.

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act, in general, and Section 6(b)(4) and 6(b)(5) of the Act,⁶ in particular, in that it

⁶ 15 U.S.C. 78f(b)(4) and (5).

provides for the equitable allocation of reasonable dues, fees, and other charges among BOX Participants and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

BOX believes it is reasonable, equitable and not unfairly discriminatory to adjust the monthly Percentage Thresholds of National Customer Volume in Multiply-Listed Options Classes. The volume thresholds with their tiered fees and rebates are meant to incentivize Participants to direct order flow to the Exchange to obtain the benefit of the lower fee or higher rebate, which in turn benefits all market participants by increasing liquidity on the Exchange.

The Exchange believes the proposed amendments to the Primary Improvement Order percentage thresholds are reasonable, equitable and not unfairly discriminatory. The proposed changes to the thresholds are equitable and not unfairly discriminatory as they are available to all BOX Participants that initiate Auction Transactions, and Participants may choose whether or not to take advantage of the percentage thresholds and their applicable discounted fees. Further, the Exchange believes that the proposed changes are reasonable and competitive as they will further incentivize Participants to direct order flow to the Exchange, benefiting all market participants.

The Exchange also believes the proposed amendments to the BVR in Section I.B.2 of the BOX Fee Schedule are reasonable, equitable and not unfairly discriminatory. The BVR was adopted to attract Public Customer order flow to the Exchange by offering these Participants incentives to submit their Public Customer PIP and COPIP Orders to the Exchange and the Exchange believes it is appropriate to now amend the BVR. The Exchange believes it is equitable and not unfairly discriminatory to amend the BVR, as all Participants have the ability to qualify for a rebate, and rebates are provided equally to qualifying Participants. Other

exchanges employ similar incentive programs;⁷ and the Exchange believes that the proposed changes to the volume thresholds are reasonable and competitive when compared to incentive structures at other exchanges. Finally, the Exchange believes it is reasonable and appropriate to continue to provide incentives for Public Customers, which will result in greater liquidity and ultimately benefit all Participants trading on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange is simply proposing to amend certain percentage thresholds for Auction Transaction fees and rebates in the BOX Fee Schedule. The Exchange believes that the volume based rebates and fees increase intermarket and intramarket competition by incenting Participants to direct their order flow to the exchange, which benefits all participants by providing more trading opportunities and improves competition on the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action
