II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Section II.C (QOO Order Rebate) of the BOX Fee Schedule. Specifically, the Exchange proposes to remove the monthly rebate cap of \$30,000 per month per Broker Dealer. Currently, Floor Brokers are eligible to receive a \$0.075 per contract rebate for all QOO Orders executed on the BOX Trading Floor. The rebate is not applied to Public Customer executions, executions subject to the Strategy QOO Order Fee Cap, or Broker Dealer executions where the Broker Dealer is facilitating a Public Customer.

The Exchange notes that it is not making any other changes to the QOO Order Rebate, and that the QOO rebate will continue to apply to both sides of the paired QOO Order. The rebate will not apply to Public Customer executions, executions subject to the Strategy QOO Order Fee Cap, or Broker Dealer executions where the Broker Dealer is facilitating a Public Customer.

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act, in general, and Section 6(b)(4) and 6(b)(5) of the Act,⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among BOX Participants and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

BOX established the QOO Order Rebate program and the monthly rebate cap in August 2017.⁶ As discussed in the 2017 proposal to establish the QOO Order Rebate program and rebate cap, the rebate was created to incentivize order flow to the BOX Trading Floor. Unlike competing exchanges, the Exchange does not offer a front-end order entry on the BOX Trading Floor. With this Participants have two possible means of bringing orders to the Exchange's Trading Floor for possible execution: (1) they can invest in the technology, systems and personnel to participate on the Trading Floor and deliver the order to the Exchange matching engines for validation and execution; or (2) they can utilize the services of another Participant acting as a Floor Broker. The QOO Order Rebate program was established to attract order flow by rewarding Floor Brokers with rebates for directing qualifying orders to the BOX Trading Floor.

The Exchange now believes that removing the rebate cap is reasonable, because it will continue to allow Floor Brokers to price their services at a level that would enable them to attract increased QOO order flow from market participants who might otherwise utilize the front-end order entry mechanism offered by the Exchange's competitors, instead of incurring the cost in

⁵ 15 U.S.C. 78f(b)(4) and (5).

⁶ See Securities Exchange Act Release Nos. 34-81504 (August 30, 2017), 82 FR 42195 (September 6, 2017) (SR-BOX-2017-28).

time and resources to install and develop their own internal systems to deliver QOO orders directly to the Exchange system. As such, the Exchange believes it is beneficial from a competitive standpoint to continue to offer the rebate to the executing Floor Broker on a QOO order without capping the dollar amount allowed for the rebate. Further, the Exchange believes removing the rebate cap will encourage Floor Brokers to bring additional QOO order flow to the Exchange because Floor Brokers will be further incentivized by the removal of the QOO Order Rebate cap for these specific QOO orders. Lastly, the Exchange believes the proposed change is reasonable and appropriate, as the Exchange is offering eligible participants greater opportunities to lower their fees related to the execution of qualifying QOO transactions.

In addition, the Exchange believes that removing the QOO Order Rebate cap is reasonable as a competing exchange with a similar rebate program offered to Floor Brokers currently has a rebate cap twelve times higher than the QOO Order Rebate cap on BOX.⁷

The Exchange believes that the removal of the rebate cap is equitable and not unfairly discriminatory because the proposal allows all similarly situated Floor Brokers to benefit from the removal of the QOO Order Rebate cap. Furthermore, the Exchange believes that all market participants would benefit from additional trading opportunities generated from increased order flow due to the removal of the QOO Order Rebate cap. The Exchange believes that it is equitable and not unfairly discriminatory to remove the QOO Order rebate cap for Floor Brokers, as the previous cap only applied to Floor Brokers and not to Floor Market Makers. Floor Market

⁷ See NYSE Arca Options Fees and Charges, Qualified Contingent Cross (“QCC”) Transactions Fees and Credits, Footnote 13 (stating the “maximum Floor Broker credit paid shall not exceed \$375,000 per month per Floor Broker firm.”). Similar to the Floor Broker Credit for Executed QCC Transactions on NYSEArca, the QOO Order Rebate on BOX is applied to both sides of the paired order and is directed to the Floor Broker, and not to the Participant who is assessed the QOO Order fee. Finally, similar to the BOX QOO Rebate, the NYSE Arca QCC credit is only applied when the Floor Broker executes the QCC Order manually on the NYSE Arca trading floor.

Makers only represent their own interest on the Trading Floor and thus do not need additional incentives.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that its proposal to remove the QOO Order Rebate cap does not impose a burden on competition. The Exchange notes that it operates in a highly competitive market in which competitors are free to modify their own fee schedules in response, and the Exchange believes that the degree to which rebate increases impose any burden on competition is limited. As noted above, one of the Exchange's competitors offers QCC credit cap that is twelve times higher than the Exchange's QOO Order Rebate cap.⁸ In addition, as mentioned above, the Floor Broker Credit for QCC Transactions on NYSEArca is similar to the QOO Order Rebate on BOX in that it is applied to both sides of the paired order and is directed to the Floor Broker and not to the Participant who is assessed the QOO Order fee. Moreover, similar to the BOX QOO Rebate, the NYSEArca QCC credit is only applied when the Floor Broker executes the QCC Order manually on the NYSEArca trading floor.

Further, the Exchange does not believe that removing the QOO Order rebate cap will impose an undue burden on intra-market competition because all Floor Brokers will remain eligible to transact QOO Orders and receive the same rebate. Further, the Exchange believes that the removal of the rebate cap will promote competition by allowing Floor Brokers to competitively price their services and for the Exchange to remain competitive with other exchanges.

⁸ Id. See also NASDQ PHLX ("Phlx") Pricing Schedule, Section 4 (stating the "maximum QCC Rebate to be paid in a given month will not exceed \$550,000."). The Exchange notes Phlx's QCC Rebate cap is over eighteen times higher than the QOO Order Rebate cap on BOX.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action
