(Release No. 34-56051; File No. SR-BSE-2007-30)

July 12, 2007

Self-Regulatory Organizations; Boston Stock Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Extension of the iShares Russell 2000 Index Fund Option Pilot Program until January 18, 2008

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 3, 2007, the Boston Stock Exchange, Inc. (“BSE” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been substantially prepared by BSE. The Exchange has filed the proposal pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6) thereunder,⁴ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend an existing pilot program that increases the position and exercise limits for options on the iShares Russell 2000 Index Fund (“IWM”) traded on the Exchange (“IWM Option Pilot Program”). The text of the proposed rule change is available at BSE, the Commission’s Public Reference Room, and www.bostonstock.com.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, BSE included statements concerning the purpose of

and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. BSE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to extend the IWM Option Pilot Program for an additional six-month period, through January 18, 2008,⁵ and to make non-substantive changes to simplify the rule text describing the IWM Option Pilot Program. The IWM Option Pilot Program increases the position and exercise limits for IWM options traded on the Exchange.⁶ The Exchange is not proposing any other changes to the IWM Option Pilot Program. The Exchange represents that it has not encountered any problems or difficulties relating to the IWM Option Pilot Program since its inception.

The proposal that established the IWM Option Pilot Program was designated by the Commission to be effective and operative upon filing and provided that it would run from January 23, 2007 through July 22, 2007.⁷ In that filing, the Exchange explained that in June

⁵ January 18, 2008 is the third Friday of the month (or expiration Friday), which is the day on which January 2008 IWM options will expire.

⁶ Pursuant to Chapter III, Section 7 of the Boston Options Exchange ("BOX") Rules, the exercise limit established under Chapter III, Section 7 for IWM options shall be equivalent to the position limit prescribed for IWM options in Supplementary Material .01 to Chapter III, Section 7. The increased exercise limits would only be in effect during the pilot period and the proposed six-month extension of that pilot period through January 18, 2008.

⁷ See Securities Exchange Act Release No. 55171 (January 25, 2007), 72 FR 4549 (January 31, 2007).

2005, as a result of a 2-for-1 stock split, the position limit for IWM options was temporarily increased from 250,000 contracts (covering 25,000,000 shares) to 500,000 contracts (covering 50,000,000 shares). At the time of the split, the furthest IWM option expiration date was January 2007. Therefore, the temporary increase of the IWM position limit was scheduled to automatically revert to the pre-split level (as provided for in connection with the Chapter III, Section 7 Pilot Program) of 250,000 contracts after expiration in January 2007.

As the Exchange described in the proposal that established the IWM Option Pilot Program, the Exchange believes that a position limit of 250,000 contracts is too low and may be a deterrent to the successful trading of IWM options. Importantly, options on IWM are 1/10th the size of options on the Russell 2000 Index (“RUT”), which have a position limit of 50,000 contracts.⁸ Traders who trade IWM options to hedge positions in RUT options are likely to find a position limit of 250,000 contracts in IWM options too restrictive and insufficient to properly hedge. For example, if a trader held 50,000 RUT options and wanted to hedge that position with IWM options, the trader would need – at a minimum – 500,000 IWM options to properly hedge the position. Therefore, the Exchange continues to believe that a position limit of 250,000 contracts is too low and may adversely affect market participants’ ability to provide liquidity in this product.

As the Exchange also described in the proposal that established the IWM Option Pilot Program, IWM options have grown to become one of the largest options contracts in terms of trading volume. For example, through May 29, 2007, year-to-date industry volume in IWM options has averaged over 460,000 contracts per day, for a total of over 61 million contracts. BOX alone has averaged 15,386 IWM option contracts per day during that time, for a total of

⁸ See Chapter XIV, Section 5 of BOX Rules.

almost 2 million contracts. In contrast, QQQQ options, which have a position limit of 900,000 contracts, have averaged almost 575,000 contracts per day in 2007.⁹

The Exchange believes that maintaining the increased position and exercise limits for IWM options will lead to a more liquid and more competitive market environment for IWM options that will benefit customers interested in this product. In fact, the Exchange has received positive feedback from market participants, who have expressed a desire that the IWM Option Pilot Program be renewed. For these reasons, the Exchange believes that the above stated reasons justify the IWM Option Pilot Program and requests that the Commission extend the IWM Option Pilot Program for an additional six-month time period, through January 18, 2008.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, because it is designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and practices, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or

other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the forgoing rule change does not: (1) significantly affect the protection of investors or the public interest; (2) impose any significant burden on competition; and (3) become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹² and Rule 19b-4(f)(6) thereunder.¹³

A proposed rule change filed under 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing.¹⁴ However, Rule 19b-4(f)(6)(iii)¹⁵ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver would permit position and exercise limits for options on IWM to continue at 500,000 option contracts for a six-month pilot period. For this reason, the Commission designates the proposed rule change to be operative upon filing with the Commission.¹⁶

¹² 15 U.S.C. 78s(b)(3)(A).

¹³ 17 CFR 240.19b-4(f)(6).

¹⁴ 17 CFR 240.19b-4(f)(6)(iii). In addition, Rule 19b-4(f)(6)(iii) requires that a self-regulatory organization submit to the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied the five-day pre-filing notice requirement.

¹⁵ Id.

¹⁶ For the purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

At any time within 60 days of the filing of such proposed rule change the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors or otherwise in furtherance of the purposes of the Act.
