7039. BX Last Sale and NASDAQ Last Sale Plus Data Feeds

(a) BX Last Sale. The Exchange shall offer proprietary data feeds containing real-time last sale information for trades executed on the Exchange. There shall be no fee for BX Last Sale Data Feeds.

- (1) "BX Last Sale for Nasdaq" shall contain all transaction reports for Nasdaq-listed securities; and
- (2) "BX Last Sale for NYSE/Amex" shall contain all such transaction reports for NYSE- and Amex-listed securities.

(b) NASDAQ Last Sale Plus ("NLS Plus"). NLS Plus is a comprehensive data feed produced by NASDAQ OMX Information LLC. It provides last sale data as well as consolidated volume of NASDAQ U.S. equity markets (BX, The NASDAQ Stock Market ("NASDAQ"), and NASDAQ OMX PSX ("PSX")) and the NASDAQ/FINRA Trade Reporting Facility ("TRF"). NLS Plus also reflects cumulative volume real-time trading activity across all U.S. exchanges for Tape C securities and 15-minute delayed information for Tape A and B securities. NLS Plus also contains: Trade Price, Trade Size, Sale Condition Modifiers, Cumulative Consolidated Market Volume, End of Day Trade Summary, Adjusted Closing Price, IPO Information, and Bloomberg ID. Additionally, pertinent regulatory information such as Market Wide Circuit Breaker, Reg SHO Short Sale Price Test Restricted Indicator, Trading Action, Symbol Directory, Adjusted Closing Price, and End of Day Trade Summary are included. NLS Plus may be received by itself or in combination with NASDAQ Basic.

- (1) Reserved.
