Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Equity 7, Section 118(a) to Adopt Pricing for the Recently Adopted SCAR Routing Strategy

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 22, 2019, Nasdaq BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Equity 7, Section 118(a), as described further below.

The text of the proposed rule change is available on the Exchange’s Website at http://nasdaqbx.cchwallstreet.com/, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to adopt pricing for the recently adopted SCAR routing strategy,\(^3\) which will be implemented on May 13, 2019.\(^4\) In sum, SCAR is a routing option under which orders check the System\(^5\) for available shares and simultaneously route to the other equity markets operated by Nasdaq, Inc., The Nasdaq Stock Market (“Nasdaq”) and Nasdaq PSX (“PSX” and together with Nasdaq and the Exchange, the “Nasdaq Affiliated Exchanges”).\(^6\)

The Exchange initially filed the proposed pricing changes on May 13, 2019 (SR-BX-2019-014). On May 22, 2019, the Exchange withdrew that filing and submitted this filing.

The Exchange now proposes to adopt the following pricing for SCAR orders in securities listed on Nasdaq (“Tape C”), NYSE (“Tape A”), and on exchanges other than Nasdaq and NYSE (“Tape B”) (collectively, “Tapes”), which execute on Nasdaq and PSX:\(^7\)

\(^4\) See Equity Trader Alert #2019-29.

\(^5\) The term “System” shall mean the automated system for order execution and trade reporting owned and operated by the Exchange. See Rule 4701(a).

\(^6\) If shares remain unexecuted after routing, they are posted on the Exchange’s book or cancelled. Once on the book, should the order subsequently be locked or crossed by another market center, the System will not route the order to the locking or crossing market center. See Rule 4758(a)(1)(A)(x).

\(^7\) Orders using the SCAR routing option that execute on the Exchange would be subject to the Exchange’s standard fees and rebates. Currently, members that do not meet certain volume thresholds that would qualify them for a better rate (such as a liquidity removal credit) are assessed a standard transaction fee of $0.0003 per share for orders in any Tape
• SCAR orders executed on Nasdaq will be assessed a charge of $0.00295 per share in any Tape securities priced at $1 or more per share.

• SCAR orders executed on PSX will be assessed a charge of $0.0029 per share in any Tape securities priced at $1 or more per share.

• SCAR orders executed on Nasdaq or PSX in any Tape securities priced below $1 per share will be assessed a charge of 0.30% of the total transaction cost.\(^8\)

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,\(^9\) in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,\(^10\) in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the pricing structure proposed above for SCAR is reasonable, equitable, and not unfairly discriminatory because the fees are generally set at levels intended to incentivize members to use this new routing strategy while also allowing the Exchange to recoup the costs of providing routing services. For instance, the proposed $0.00295 per share charge for orders in any Tape securities priced at $1 or more per share that route to and execute on Nasdaq using the SCAR routing strategy is lower than the standard transaction charge of $0.0030 per

share that would apply if the order executed directly on Nasdaq as the home exchange.\textsuperscript{11} Similarly, the proposed $0.0029 per share charge for such orders that route to and execute on PSX is lower than the standard transaction charge of $0.0030 per share that would apply if the order executed directly on PSX as the home exchange.\textsuperscript{12} As such, the proposed SCAR pricing is set at rates that make it more economical for members to use this routing strategy, especially for those members that do not already add and/or remove large amounts of volume on Nasdaq and PSX directly.

The Exchange also believes that the proposed SCAR credits and charges for all Tape securities priced at $1 or more per share are set at appropriate levels for the reasons that follow. The Exchange believes that the proposed $0.0029 charge for SCAR orders that route and execute on PSX is aligned with the $0.0029 charge currently assessed by Cboe BYX Exchange (“BYX”), Cboe BZX Exchange (“BZX”), and Cboe EDGA (“EDGA”) to their members using the ALLB, a routing strategy similar to SCAR in that ALLB routes between affiliated exchanges only,\textsuperscript{13} to route orders to their affiliate, Cboe EDGX Exchange (“EDGX”).\textsuperscript{14} The Exchange also believes

\textsuperscript{11} This fee would apply unless the member qualifies for a better rate (such as a discounted fee or credit) by meeting certain volume thresholds. See Nasdaq Equity 7, Section 118(a).

\textsuperscript{12} This fee would apply unless the member qualifies for a better rate (such as a discounted fee or credit) by meeting certain volume thresholds. See PSX Equity 7, Section 3, Order Execution and Routing.

\textsuperscript{13} Unlike SCAR, which routes simultaneously to Nasdaq, PSX, and BX simultaneously in accordance with the System routing table, the ALLB routing strategy offered by BZX, BYZ, EDGA, and EDGX first checks the local book before being routed to the affiliated exchanges in accordance with the applicable system routing table. See Securities Exchange Act Release No. 85368 (March 20, 2019), 84 FR 11362 (March 26, 2019) (SR-BX-2019-004).

that the proposed $0.00295 charge for SCAR orders that route and execute on Nasdaq is set at an appropriate level because it remains lower with the $0.0030 charge currently assessed by BYX, EDGX, and EDGA to their members using the ALLB routing strategy to route orders to their affiliate, BZX.\textsuperscript{15} Given that Nasdaq is a more active market than PSX, the Exchange is proposing an incrementally higher routing charge for this market as opposed to the proposed charge for PSX because the Exchange believes that the higher volume on Nasdaq coupled with the proposed fee will be more effective in recouping the costs of providing routing services. The Exchange still believes that the proposed SCAR pricing for Nasdaq is set at an appropriate because it remains lower than the standard transaction charge of $0.0030 for accessing Nasdaq directly as well as the $0.0030 fee assessed by EDGX, EDGA, and BYX for their similar ALLB routing strategy, each as discussed above.

The Exchange also believes that it is reasonable, equitable, and not unfairly discriminatory to assess the proposed charge for SCAR orders executed on Nasdaq or PSX in any Tape securities priced below $1 per share because it is consistent with what it currently charges for all orders in securities priced at less than $1 per share that route and execute at an away venue.\textsuperscript{16} Lastly, the Exchange believes that the proposed pricing changes are equitable and not unfairly discriminatory because they will apply uniformly to all members.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The

\textsuperscript{16} See Equity 7, Section 118(b).
Exchange operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the proposed pricing for SCAR orders are intended to recoup the Exchange’s costs associated with providing routing services while providing incentives to members to make use of the Exchange’s optional routing functionality. As discussed above, the Exchange believes that its proposed pricing remains competitive with other equity exchanges. In addition, because the Exchange’s routing services are the subject of competition, including price competition, from other exchanges and broker-dealers that offer routing services, as well as the ability of members to use their own routing capabilities, it is likely that the Exchange will lose market share as a result of the changes if they are unattractive to market participants. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.
