##### Rule 11.9. Orders and Modifiers

Users may enter into the System the types of orders listed in this Rule 11.9, subject to the limitations set forth in this Rule or elsewhere in these Rules.

(a)-(b) (No change.)

(c) (1)-(18) (No change.)

(19) Supplemental Peg Order. A non-displayed limit order that posts to the BATS Book, and thereafter is eligible for execution at the NBB for buy orders and NBO for sell orders against routable orders that are equal to or less than the aggregate size of the Supplemental Peg Order interest available at that price. Supplemental Peg Orders are passive, resting orders on the BATS Book and do not take liquidity. A User may specify a minimum execution quantity for a Supplemental Peg Order. A minimum execution quantity on a Supplemental Peg Order will no longer apply where the number of shares remaining after a partial execution are less than the minimum execution quantity. Supplemental Peg Orders are eligible for execution in a given security during the Pre-Opening Session, Regular Trading Hours, and After Hours Trading Session. Supplemental Peg Orders are not eligible for execution in the Opening Process. A Supplemental Peg Order does not execute at a price that is inferior to a Protected Quotation, and is not permitted to execute if the NBBO is locked or crossed. Any and all remaining, unexecuted Supplemental Peg Orders are cancelled at the conclusion of the After Hours Trading Session.
