Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend the Fees Schedule

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on January 30, 2013, Chicago Board Options Exchange, Incorporated (the “Exchange” or “CBOE”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to eliminate the customer transaction fee for XSP index options. Currently, the Exchange has a \$0.18 customer transaction fee per contract for all index products, with some exceptions.<sup>3</sup> The Exchange is proposing to eliminate those customer transaction fees for transactions in XSP index options. Eliminating the customer transaction fee for XSP index options will allow Trading Permit Holders who engage in XSP options trading the opportunity to pay lower fees for such transactions and provide greater incentives for customers to trade XSP index options. Thus, the proposed changes to the customer XSP options transaction fees are designed to attract greater customer order flow to the Exchange. This would bring greater liquidity to the market, which benefits all market participants.

The propose changes are to take effect on February 1, 2013.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.<sup>4</sup> Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,<sup>5</sup> which provides that Exchange

<sup>5</sup> 15 U.S.C. 78f(b)(4).

rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities.

In particular, the proposed change is reasonable because it will allow TPHs who engage in XSP options trading the opportunity to pay lower fees for such transactions. The proposed changes to the customer XSP options transaction fees are equitable and not unfairly discriminatory because they are designed to attract greater customer order flow to the Exchange. This would bring greater liquidity to the market, which benefits all market participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed changes to customer XSP options transaction fees will cause any unnecessary burden on intramarket competition because, while customers are assessed different, and often lower, fee rates than other market participants, this is a common practice within the options marketplace, and customers often do not have the sophisticated trading algorithms and systems that other market participants often possess. Further, to the extent that any change in intramarket competition may result from the proposed changes to customer XSP options transaction fees, such possible change is justifiable and offset because the changes to such fees are designed to attract greater customer order flow to the Exchange. This would bring greater liquidity to the market, which benefits all market participants. The Exchange does not believe that the proposed changes to customer XSP options transaction fees will cause any unnecessary burden on intermarket competition because the changes are minimal and apply to a single index on the Exchange. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they

deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange, and the Exchange believes that such structure will help the Exchange remain competitive with those fees and rebates assessed by other venues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>6</sup> and paragraph (f) of Rule 19b-4<sup>7</sup> thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
