Rule 6.53C. Complex Orders on the Hybrid System

(a) Definition: For purposes of the electronic trading of complex orders pursuant to this Rule, a complex order is any order for the same account as defined below:

(1) A "complex order" is any order involving the execution of two or more different options series in the same underlying security occurring at or near the same time in a ratio that is equal to or greater than one-to-three (.333) and less than or equal to three-to-one (3.00) (or such lower ratio as may be determined by the Exchange on a class-by-class basis) and for the purpose of executing a particular investment strategy. Only those complex orders with no more than the applicable number of legs, as determined by the Exchange on a class-by-class basis, are eligible for processing.

(2) A "stock-option order" is an order to buy or sell a stated number of units of an underlying stock or a security convertible into the underlying stock ("convertible security") coupled with the purchase or sale of options contract(s) on the opposite side of the market representing either (i) the same number of units of the underlying stock or convertible security, or (ii) the number of units of the underlying stock necessary to create a delta neutral position, but in no case in a ratio greater than eight-to-one (8.00), where the ratio represents the total number of units of the underlying stock or convertible security in the option leg to the total number of units of the underlying stock or convertible security in the stock leg [eight (8) option contracts per unit of trading of the underlying stock or convertible security established for that series by the Clearing Corporation] (or such lower ratio as may be determined by the Exchange on a class-by-class basis). Only those stock-option orders with no more than the applicable number of legs, as determined by the Exchange on a class-by-class basis, are eligible for processing.

Section E: Order Protection; Locked and Crossed Markets

Rule 6.80. Definitions

The following terms shall have the meaning specified in this Rule solely for the purpose of this Section E:

* * * * *

(4) "Complex Trade" means: (i) the execution of an order in an option series in conjunction with the execution of one or more related order(s) in different option series in

the same underlying security occurring at or near the same time in a ratio that is equal to or greater than one-to-three (.333) and less than or equal to three-to-one (3.0) and for the purpose of executing a particular investment strategy; or (ii) the execution of a stock-option order to buy or sell a stated number of units of an underlying stock or a security convertible into the underlying stock ("convertible security") coupled with the purchase or sale of option contract(s) on the opposite side of the market representing either (A) the same number of units of the underlying stock or convertible security, or (B) the number of units of the underlying stock or convertible security necessary to create a delta neutral position, but in no case in a ratio greater than eight-to-one (8.00), where the ratio represents the total number of units of the underlying stock or convertible security in the option leg to the total number of units of the underlying stock or convertible security in the stock leg [eight (8) option contracts per unit of trading of the underlying stock or convertible security established for that series by the Clearing Corporation] (or such lower ratio as may be determined by the Exchange on a class-by-class basis). Only those stock-option orders with no more than the applicable number of legs, as determined by the Exchange on a class-by-class basis, are eligible for processing.
