CBOE Command Connectivity Charges			Assessed to TPHs and non-TPHs
Description	Fee	Frequency	Notes
Network Access Port (1 Gbps)	$500	Monthly	
Network Access Port (10 Gbps)	$3,000	Monthly	
Network Access Port (Disaster Recovery)	$250	Monthly	
CMI Login ID	$500	Monthly	CMI and FIX Login ID fees are waived for CMI and FIX Login IDs used to access the CFLEX system.
FIX Login ID	$500	Monthly	
Extra CMI CAS Server	$10,000	Monthly	For every 15 Trading Permits that a TPH that accesses CBOE Command via CMI holds, that TPH receives one CAS Server (plus one total backup CAS Server regardless of the number of Trading Permits that the TPH holds). The Exchange will aggregate the Trading Permits from affiliated TPHs (TPHs with at least 75% common ownership between the firms as reflected on each firm's Form BD, Schedule A) for purposes of determining the number of Trading Permits a TPH holds.

Hybrid Agency Liaison ("HAL") Step-Up Rebate			
Description	Rebate	Frequency	Notes
Hybrid Agency Liaison ("HAL") Step-Up Rebate	$0.10	per contract	The Exchange shall rebate to a market-maker $.10 per contract against transaction fees generated from a transaction on the HAL system in a penny pilot class, provided that at least 60% (70%, effective September 1, 2013) of the market-maker's quotes in that class (excluding mini-options and quotes in LEAPS series) in the prior calendar month were on one side of the NBBO.

Footnotes (Continued):	
Footnote Number	**Description**
	* * * * *
11	The Clearing Trading Permit Holder Fee Cap in all products except SPX, SPXpm, SRO, VIX or other volatility indexes, OEX or XEO (the "Fee Cap"), CBOE Proprietary Products Sliding Scale for Clearing Trading Permit Holder Proprietary Orders (the "Sliding Scale"), and the Clearing Trading Permit Holder Proprietary VIX Options Sliding Scale (the "VIX Options Sliding Scale") apply to (i) Clearing Trading Permit Holder proprietary orders ("F" origin code), and (ii) orders of Non-Trading Permit Holder Affiliates of a Clearing Trading Permit Holder. A "Non-Trading Permit Holder Affiliate" for this purpose is a 100% wholly-owned affiliate or subsidiary of a Clearing Trading Permit Holder that is registered as a United States or foreign broker-dealer and that is not a CBOE Trading Permit Holder. Only proprietary orders of the Non-Trading Permit Holder Affiliate ("L" origin code) effected for purposes of hedging the proprietary over-the-counter trading of the Clearing Trading Permit Holder or its affiliates will be included in calculating the Fee Cap, Sliding Scale and VIX Options Sliding Scale. Such orders must be marked with a code approved by the Exchange identifying the orders as eligible for the Fee Cap, Sliding Scale and VIX Options Sliding Scale. Each Clearing Trading Permit Holder is responsible for notifying the TPH Department of all of its affiliations so that fees and contracts of the Clearing Trading Permit Holder and its affiliates may be aggregated for purposes of the Fee Cap, Sliding Scale and VIX Options Sliding Scale. A Clearing Trading Permit Holder is required to certify the affiliate status of any Non-Trading Permit Holder Affiliate whose trading activity it seeks to aggregate. In addition, each Clearing Trading Permit Holder is required to inform the Exchange immediately of any event that causes an entity to cease to be an affiliate. The Exchange will aggregate the fees and trading activity of separate Clearing Trading Permit Holders for the purposes of the Fee Cap, Sliding Scale and VIX Options Sliding Scale if there is at least 75% common ownership between the Clearing Trading Permit Holders as reflected on each Clearing Trading Permit Holder's Form BD, Schedule A. A Clearing Trading Permit Holder's fees and contracts executed pursuant to a CMTA agreement (i.e., executed by another clearing firm and then transferred to the Clearing Trading Permit Holder's account at the OCC) are aggregated with the Clearing Trading Permit Holder's non-CMTA fees and contracts for purposes of the Fee Cap, Sliding Scale and VIX Options Sliding Scale. Transaction fees [and contract volume] resulting from any of the strategies defined in Footnote 13 will [not] apply towards reaching the Fee Cap [and the Sliding Scale volume thresholds]. For calculating a Clearing Trading Permit Holder's total proprietary product transaction fees, CBOE will use the following methodology: If using the VIX Options Sliding Scale plus the Sliding Scale (minus VIX volume) results in lower total Clearing Trading Permit Holder proprietary transaction fees than just using the Sliding Scale, CBOE will apply the new VIX Options Sliding Scale plus the Sliding Scale, and deduct the VIX options volume from the Sliding Scale. If using the VIX Options Sliding Scale plus the Sliding Scale (minus VIX options volume) results in higher total Clearing Trading Permit Holder proprietary transaction fees than just using the Sliding Scale, CBOE will apply only the Sliding Scale. For facilitation orders (other than SPX, SPXpm, SRO, VIX or other volatility indexes, OEX or XEO) ("facilitation orders" for this purpose to be defined as any paired order in which a Clearing Trading Permit Holder (F) origin code is contra to any other origin code, provided the same executing broker and clearing firm are on both sides of the order) executed electronically (including in AIM), open outcry, or as a QCC or FLEX transaction, CBOE will assess no Clearing Trading Permit Holder Proprietary transaction fees.
	* * * * *
13	Market-maker, Clearing Trading Permit Holder, JBO participant, broker-dealer and non-Trading Permit Holder market-maker transaction fees are capped at $1,000 for all (i) merger strategies and (ii) short stock interest strategies and [executed on the same trading day in the same options class. In addition, market-maker, broker-dealer and non-Trading Permit Holder market-maker transaction fees are capped] at $[1,000] 700 for all reversals, conversions and jelly roll strategies executed on the same trading day in the same option class, excluding any option class on which the Exchange charges the Index License surcharge fee under footnote 14 of this Fees Schedule. Such transaction fees for these strategies are further capped at $25,000 per month per initiating Trading Permit Holder[,]or TPH Organization (excluding Clearing Trading Permit Holders) [or JBO participant]. Index License surcharge fees associated with merger and short stock interest strategies will be passed through to trading participants on these strategies on a pro-rata basis. These surcharge fees will not be included in the calculation of the $1,000 per day per class fee cap or the $25,000 per month fee cap for merger and short stock interest strategies. Floor brokerage fees assessed on any of these strategies are eligible for a full rebate (see below). A "merger strategy" is defined as transactions done to achieve a merger arbitrage involving the purchase, sale and exercise of options of the same class and expiration date, each executed prior to the date on which shareholders of record are required to elect their respective form of consideration, i.e., cash or stock. A "short stock interest strategy" is defined as transactions done to achieve a short stock interest arbitrage involving the purchase, sale and exercise of in-the–money options of the same class. A "reversal strategy: is established by combining a short security position with a short put and a long call position that shares the same strike and expiration. A "conversion strategy" is established by combining a long position in the underlying security with a long put and a short call position that shares the same strike and expiration. A "jelly roll strategy" is created by entering into two separate positions simultaneously. One position involves buying a put and selling a call with the same strike price and expiration. The second position involves selling a put and buying a call, with the same strike price, but with a different expiration from the first position. To qualify transactions for the cap and floor brokerage fees rebate, a rebate request with supporting documentation must be submitted to the Exchange within 3 business days of the transactions.
	* * * * *
27	A customer large trade discount program in the form of a cap on customer ("C" origin code) transaction fees is in effect for the options set forth in the Customer Large Trade Discount table. Floor brokerage fees are not subject to the cap on fees. Qualification of an order for the fee cap is based on the trade date and order ID on each order. For complex orders, the total contracts of an order (all legs) are counted for purposes of calculating the fee cap. To qualify for the discount, the entire order quantity must be tied to a single order ID (unless the order is a complex order with a number of legs that exceeds system limitations) either within the CBOE Command system or in FBW or PULSe or in the front end system used to enter and/or transmit the order (provided the Exchange is granted access to effectively audit such front end system) (the order must be entered in its entirety on one system so that the Exchange can clearly identify the total size of the order). For an order entered via FBW, PULSe or another front end system, or a complex order with multiple order IDs, a customer large trade discount request must be submitted to the Exchange within 3 business days of the transactions and must identify all necessary information, including the order ID and related trade details.
