SECURITIES AND EXCHANGE COMMISSION  
(Release No. 34-85169; File No. SR-CBOE-2019-012)  

February 21, 2019  

Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Amend its Fees Schedule  

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”), and Rule 19b-4 thereunder, notice is hereby given that on February 11, 2019, Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.  

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change  

Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) proposes to amend its fees schedule. The text of the proposed rule change is provided in Exhibit 5.  

The text of the proposed rule change is also available on the Exchange’s website (http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.  

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change  

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places

---

specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to make a number of changes to its Fees Schedule, effective February 1, 2019.3

Volume Incentive Program

The Exchange first proposes to amend the Volume Incentive Program (“VIP”). By way of background, under VIP, the Exchange credits each Trading Permit Holder (“TPH”) the per contract amount set forth in the VIP table for Public Customer orders (“C” origin code) transmitted by that TPH (with certain exceptions) which is executed electronically on the Exchange, provided the TPH meets certain volume thresholds in a month.4 The Exchange proposes to amend the volume thresholds for Tiers 4 and 5. The proposed change is as follows:

<table>
<thead>
<tr>
<th>Tier</th>
<th>Percentage Thresholds of National Customer Volume in All Underlying Symbols Excluding Underlying Symbol List A, Sector Indexes, DJX, MXEA, MXEF, MNX, NDX, XSP and XSPAM (Monthly)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>Current</strong></td>
</tr>
<tr>
<td>1</td>
<td>0.00% - 0.75%</td>
</tr>
<tr>
<td>2</td>
<td>Above 0.75% to 2.00%</td>
</tr>
<tr>
<td>3</td>
<td>Above 2.00% to 3.00%</td>
</tr>
<tr>
<td>4</td>
<td>Above 3.00% to 4.00%</td>
</tr>
<tr>
<td>5</td>
<td>Above 4.00%</td>
</tr>
</tbody>
</table>

3 The Exchange initially filed the proposed fee changes on February 1, 2019 (SR-CBOE-2019-009). On business date February 4, 2019, the Exchange withdrew that filing and submitted SR-CBOE-2019-010. On business date February 11, 2019, the Exchange withdrew that filing and submitted this filing.

4 See Cboe Options Fees Schedule, Volume Incentive Program.
The purpose of these changes is to adjust for current volume trends while maintaining an incremental incentive for TPHs to strive for the highest tier level.

**RUT Transaction Fee**

The Exchange next proposes to increase the transaction fee for Market-Maker orders in RUT options. Currently, the Exchange charges $0.20 per contract for Market-Makers’ RUT orders. The Exchange proposes to increase the transaction rate to $0.30 per contract. The Exchange notes the proposed rate change is less than the amount assessed for similar transactions on another Exchange and is also similar to Market-Maker fees assessed for other proprietary products.\(^5\)

**ETF and ETN Options Transaction Fee**

The Exchange proposes to amend the fees for electronic Customer orders (origin code “C”) for ETF and ETN options. Currently the Exchange waives transaction fees for (1) all customer orders executed in open outcry or AIM, and (2) customer electronic executions of 249 contracts or less in ETF and ETN options in Penny and Non-Penny classes. The Exchange proposes to amend the transaction fee for Customer electronic executions in ETF and ETN options such that it will waive the transaction fees for all Customer electronic executions that add liquidity (i.e., “Maker” transactions). The Exchange will charge $0.18 per contract on all Customer electronic executions if the original order size is 100 contracts or greater and if it removes liquidity (i.e., “Taker” transactions) in ETF and ETN options.

The Exchange also proposes to amend Footnote 9 to make corresponding changes to the footnote text regarding the proposed change described above and also explicitly

\[^5\] See Cboe BZX Fees Schedule. See also Cboe Options Fees Schedule, SPX Liquidity Provider Sliding Scale.
make clear what transactions the Exchange would consider to be Maker (and therefore have no fees assessed) and Taker (and therefore be assessed $0.18 per contract, if equal to or greater than 100 contracts). Particularly, the Exchange proposes to provide that the Taker fee applies to electronic volume only, but is not applied to the following: (i) trades on the open and (ii) QCC orders. The Taker fees would apply to the following volume: (i) volume resulting from a Customer’s orders and/or quotes removing other market participants’ resting orders and/or quotes and (ii) volume resulting from a Customer’s primary orders in (i) unpaired auctions (i.e., Hybrid Agency Liaison (“HAL”) and HAL on the Open (“HALO”)) and (ii) Complex Order Auction (COA)). The Maker fee waiver would apply to the following volume: (i) volume resulting from executions against a Customer’s resting orders and/or quotes and (ii) volume resulting from a Customer’s responses to auctions (i.e., HAL, HALO and COA responses). The Exchange notes it similarly has clarified what volume is considered Taker versus Maker in Footnote 44 of the Fees Schedule which relates to the Liquidity Provider Sliding Scale Adjustment Table.⁶

**SPXW Priority Surcharge**

The Exchange proposes to amend the Customer Priority Surcharge for SPXW (“SPXW Surcharge”). Currently, the Exchange assesses a SPXW Surcharge of $0.10 per contract for Customer orders in SPXW that are executed electronically (with some exceptions).⁷ The Exchange proposes to extend the SPXW Surcharge to all market participants other than Market-Makers, which aligns its applicability to the same market participants as the SPX Hybrid Execution Surcharge.

⁶ See Cboe Options Fees Schedule, Footnote 44.
⁷ See Cboe Options Fees Schedule, Footnote 31.
In connection with the proposed change, and in order to make the Fees Schedule easier to read, the Exchange proposes to relocate the SPXW Surcharge to its own line item grouped together with the SPX Hybrid Execution Surcharge and rename the SPX Hybrid Execution Surcharge, such that both surcharges will be grouped together as the “Execution Surcharge” (one for SPX and one for SPXW). The Exchange also proposes to (i) update Footnote 31 of the Fees Schedule, which is currently appended to the SPXW Surcharge, to eliminate references to the SPXW Customer Priority Surcharge and (ii) in its place, append Footnote 21 to the SPXW surcharge (and add references to “SPXW Execution Surcharge” in Footnote 21). The Exchange also proposes to amend Footnote 21 to eliminate the second and third surcharge exemptions listed relating to Market-Maker transactions. Particularly, Footnote 21 provides, among other things, that the SPX Execution Surcharge will not apply to (i) executions by Market-Makers against orders in the complex order auction (COA) and Simple Auction Liaison (SAL) systems in their appointed classes and (ii) executions by Market-Makers against orders in the electronic book, Hybrid Agency Liaison (HAL) and the complex order book in their appointed classes. The Exchange notes that since neither the SPX Execution Surcharge nor SPXW Execution Surcharge, even as amended, apply to Market-Maker orders, this language is moot and obsolete. The Exchange therefore proposes to eliminate it from the Fees Schedule to avoid confusion. The Exchange notes that the remaining two exemptions set forth under Footnote 21 of the Fees Schedule currently apply to both the SPX and SPXW Execution Surcharges.
Supplemental VIX Total Firm Discount

The Exchange next proposes to eliminate its Supplemental VIX Total Firm Volume Discount (“Supplemental VIX Discount”). The Supplemental VIX Discount allows VIX options transaction fees for Clearing TPHs’ (including its Non-TPH Affiliates) proprietary orders to be discounted provided a Clearing TPH reaches certain VIX firm volume percentage thresholds during a calendar month. The Exchange no longer wishes to offer the Supplement VIX Discount program and therefore proposes to eliminate it from its Fees Schedule.

Trading Permits Sliding Scale Program

The Exchange proposes to amend its Market Maker and Floor Broker Trading Permit Sliding Scale Programs (“TP Sliding Scales”). The TP Sliding Scales allow Market Makers and Floor Brokers to pay reduced rates for their Trading Permits if they commit in advance to a specific tier that includes a minimum number of eligible Market Maker and Floor Broker Trading Permits, respectively, for each calendar year. The Exchange notes that in October 2019, it is migrating the current Cboe Options trading platform onto new technology and in connection with such migration, is anticipating a new Trading Permit structure. As such, the Exchange proposes to provide that any commitment to Trading Permits under the TP Sliding Scales shall be in place through September 2019, instead of the calendar year, and proposes to update Footnotes 24 and 25 accordingly.

Facility Fees

The Exchange next proposes to amend certain facility fees. First, the Exchange proposes to increase fees for access badges. Currently, the Exchange charges $120 per
Floor Manager Badge and $60 per Clerk Badge. The Exchange proposes to increase the Floor Manager Badge to $130 per badge and the Clerk Badge to $70 per badge. The Exchange notes these fees have not been raised in several years. The Exchange also proposes to eliminate the following Badge-related fees which are assessed per occurrence: Badge Issuance, Replacement Badge, Unreturned Security Access Badge, Temporary Badge – Non Trading Permit Holder, Temporary Badge – Trading Permit Holder, and Unreturned Temporary Badge.

The Exchange is also proposing to eliminate the fees relating to coat room services, as such service will be eliminated as of February 1, 2019. Particularly, the $25 per month for Coat Room Checking and $15 per Occurrence for Lost or Damaged Trading Jackets fees will be eliminated.

**VIX and Sector License Index Surcharge**

The Exchange proposes to extend the current waiver of the VIX and Sector Index License Surcharge of $0.10 per contract for Clearing Trading Permit Holder Proprietary (“Firm”) (origin codes “F” or “L”) VIX and Sector Index orders that have a premium of $0.10 or lower and have series with an expiration of seven (7) calendar days or less. The Exchange adopted the current waiver to reduce transaction costs on expiring, low-priced VIX options as well as Sector Index options, which the Exchange believed would encourage Firms to seek to close and/or roll over such positions, including facilitating customers to do so, in order to free up capital and encourage additional trading. The Exchange had proposed to waive the surcharge through December 31, 2018, at which time the Exchange had stated that it would evaluate whether the waiver has in fact prompted Firms to close and roll over these positions as intended. The Exchange believes
the waiver encourages Firms to do so and as such, proposes to renew the waiver of the surcharge through June 30, 2019, at which time the Exchange will again reevaluate whether the waiver has continued to prompt Firms to close and roll over these positions. Accordingly, the Exchange proposes to delete the reference to the current waiver period of December 31, 2018 from the Fees Schedule and replace it with June 30, 2019.

**Global Trading Hour Fees**

In order to promote and encourage trading during the Global Trading Hours (“GTH”) session, the Exchange previously waived GTH Trading Permit and Bandwidth Packet fees for one (1) of each initial Trading Permits and one (1) of each initial Bandwidth Packet, per affiliated TPH. The Exchange notes that waiver expired December 31, 2018. The Exchange also waived fees through December 31, 2018 for a CMI and FIX login ID if the CMI and/or FIX login ID is related to a waived GTH Trading Permit and/or waived Bandwidth packet. In order to continue to promote trading during GTH, the Exchange wishes to renew these waivers through June 30, 2019.

**RLG, RLV, RUI, AWDE, FTEM, FXTM and UKXM Transaction Fees**

In order to promote and encourage trading of seven FTSE Russell Index products (i.e., Russell 1000 Growth Index (“RLG”), Russell 1000 Value Index (“RLV”), Russell 1000 Index (“RUI”), FTSE Developed Europe Index (“AWDE”), FTSE Emerging Markets Index (“FTEM”), China 50 Index (“FXTM”) and FTSE 100 Index (“UKXM”)), the Exchange had waived all transaction fees (including the Floor Brokerage Fee, Index License Surcharge and CFLEX Surcharge Fee) for each of these products. This waiver expired December 31, 2018. To continue promoting the trading of these options classes, the Exchange proposes to renew the fee waiver through June 30, 2019.
UKXM DPM Payment

The Exchange previously offered a compensation plan to the Designated Primary Market-Maker(s) ("DPM(s)") appointed in UKXM to offset its DPM costs. Specifically, the Fees Schedule provides that DPM(s) appointed for an entire month in UKXM will receive a payment of $5,000 per month, through December 31, 2018. The Exchange proposes to renew the compensation plan through June 30, 2019 to continue to incentivize the DPM(s) to continue to serve as a DPM in this product.

Footnote 42 References

The Exchange lastly proposes to delete all appended references to Footnote 42. The Exchange notes that effective, July 2, 2018, the Exchange eliminated the FLEX Asian & Cliquet FLEX Trader Incentive Program, which program was described in Footnote 42 of the Fees Schedule. Although, the program was eliminated (along with the contents of Footnote 42), the Exchange inadvertently omitted to delete appended references to Footnote 42 in the Fees Schedule. The Exchange proposes to correct that oversight and delete such references, which will avoid potential confusion.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act. Specifically, the Exchange believes the proposed rule change is consistent with the

---

Section 6(b)(5)\textsuperscript{10} requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,\textsuperscript{11} which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities.

First, the Exchange believes adjusting the VIP volume thresholds for Tiers 4 and 5 is reasonable because it adjusts for the current volume trends and makes it slightly easier for TPHs to meet the qualifying criteria to achieve the highest tier, Tier 5. The Exchange also notes that the credits offered under VIP are not changing. Rather, the rebalance of tiers still allows the Exchange to maintain an incremental incentive for TPHs to strive for the highest tier level, which provides increasingly higher credits. The Exchange believes it is equitable and not unfairly discriminatory because the proposed changes to the qualifying volume thresholds apply to all TPHs uniformly.

The Exchange believes increasing the fee for Market-Maker executions in RUT is reasonable because the proposed rate change is less than the amount assessed for similar transactions on another Exchange and is also similar to Market-Maker fees assessed for

\begin{footnotes}
\end{footnotes}
other proprietary products. The Exchange believes that this proposed change is also equitable and not unfairly discriminatory because the proposed changes will apply equally to all Market-Makers uniformly.

The Exchange believes the proposed rule change to waive fees for Customer electronic executions in ETF and ETN options that add liquidity, but assess $0.18 per contract for such executions that remove liquidity and are of an order size of 100 contracts or greater, is reasonable because Customers will pay nothing for these executions where they add liquidity and will be paying the same rate as is currently provided for under the fees schedule (i.e., $0.18 per contract) when they remove liquidity. The Exchange believes the proposed rule change is equitable and not unfairly discriminatory because the proposed rule change applies to all Customers equally. Additionally, the proposed rule change is designed to encourage posted liquidity to the Exchange. Particularly, the Exchange believes it’s equitable and not unfairly discriminatory to assess this fee for orders that remove liquidity and not orders that add liquidity because the Exchange wants to encourage market participation and price improvement. The Exchange believes the proposed updates to Footnote 9 provide clarity in the Fees Schedule and alleviates potential confusion as to what volume would be considered “Taker” vs “Maker” for purposes of this fee. The alleviation of confusion removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest.

The Exchange believes extending the applicability of the SPXW Execution Surcharge to all market participants other than Market-Makers is reasonable as it aligns

12 See Cboe BZX Fees Schedule. See also Cboe Options Fees Schedule, SPX Liquidity Provider Sliding Scale.
the applicability of the surcharge to the same market participants subject to the SPX Hybrid Execution Surcharge and because the surcharge amount is not changing. The Exchange believes it’s equitable and not unfairly discriminatory to apply the SPXW Execution Surcharge to all market participants other than Market-Makers because Market-Makers, unlike other market participants, take on a number of obligations, including quoting obligations, that other market participants do not have. The Exchange believes the proposed updates to Footnotes 21 and 31 in connection with the proposed SPXW Execution Surcharge change provides clarity in the Fees Schedule and alleviates potential confusion, thereby removing impediments to and perfecting the mechanism of a free and open market and a national market system, and, in general, protecting investors and the public interest.

The Exchange believes it’s reasonable to eliminate the Supplemental VIX Discount because it is not required to provide such a discount. Additionally, the Exchange notes that Clearing TPHs have other opportunities to obtain a discount on VIX executions, such as via the Cboe Proprietary Product Sliding Scale programs. The Exchange believes it’s equitable and not unfairly discriminatory because it applies uniformly to all Clearing TPHs.

The Exchange believes amending the TP Sliding Scales to provide that any commitment to Trading Permits under the TP Sliding Scales shall be in place through September 2019, instead of the calendar year, is reasonable because the discounted Trading Permit rates and tier levels are not changing. The Exchange believes this proposed rule change is reasonable, equitable and not unfairly discriminatory because, as discussed above, the Exchange anticipates modifying the current Trading Permit structure
upon the migration of its trading system in October 2019. The Exchange notes that through September 2019, Floor Brokers and Market-Makers are still eligible to take advantage of these sliding scale programs, which offer discounts on Trading Permits. Additionally, the proposed rule change applies to all Markets-Makers and Floor Brokers uniformly.

The Exchange believes the proposed rule change to eliminate per occurrence badge issuance fees and coat room services fees are reasonable as TPHs will no longer be subject to these fees. Additionally, with respect to the coat room service fees, the Exchange notes such services will be eliminated as of February 1, 2019. Additionally, the proposed elimination applies to all TPHs. The Exchange believes the proposed increases to the Floor Manager and Clerk Badge fees are reasonable because they are a moderate increase, these fees have not been increased in several years, and other badge-related fees are being eliminated. Additionally the proposed fee increases applies to all TPHs who need to avail themselves of these badges.

The Exchange believes it’s appropriate to continue to waive the VIX and Sector Index License Surcharges for Clearing Trading Permit Holder Proprietary Sector Index and VIX orders that have a premium of $0.10 or lower and have series with an expiration of 7 calendar days or less because the Exchange wants to continue encouraging Firms to roll and close over these positions. Particularly, the Exchange believes it’s reasonable to waive the entire $0.10 per contract surcharge because without the waiver of the surcharge, firms are less likely to engage in these transactions, as opposed to other VIX and Sector Index transactions, due to the associated transaction costs. The Exchange believes it’s equitable and not unfairly discriminatory to limit the waiver to Clearing
Trading Permit Holder Proprietary orders because they contribute capital to facilitate the execution of Sector Index customer orders and VIX customer orders with a premium of $0.10 or lower and series with an expiration of 7 calendar days or less. Finally, the Exchange believes it’s reasonable, equitable and not unfairly discriminatory to provide that the surcharge will be waived through June 30, 2019, as it gives the Exchange additional time to evaluate if the waiver is continuing to have the desired effect of encouraging these transactions.

The Exchange believes renewing the waiver of GTH Trading Permit and Bandwidth Packet fees for one of each type of Trading Permit and Bandwidth Packet, per affiliated TPH through June 30, 2019 is reasonable, equitable and not unfairly discriminatory, because those respective fees would be waived in their entirety, which promotes and encourages trading during the GTH session and applies to all GTH TPHs. The Exchange believes it’s also reasonable, equitable and not unfairly discriminatory to waive fees for Login IDs related to waived Trading Permits and/or Bandwidth Packets in order to promote and encourage ongoing participation in GTH and also applies to all GTH TPHs.

The Exchange believes it is reasonable, equitable and not unfairly discriminatory to renew the waiver of all transaction fees for RLG, RLV, RUI, AWDE, FTEM, FXTM and UKXM transactions, including the Floor Brokerage fee, the License Index Surcharge and CFLEX Surcharge Fee, because the respective fees are being waived in their entirety, which promotes and encourages trading of these products which are still relatively new and applies to all TPHs.
The Exchange believes that it is reasonable, equitable and not unfairly discriminatory to renew the compensation plan to the DPM appointed in UKXM to continue to offset its ongoing DPM costs and continue to incentivize the DPM to continue to serve as a DPM in this product.

Lastly, the Exchange believes eliminating references to Footnote 42 (which footnote does not currently contain any language and is obsolete) alleviates potential confusion. The alleviation of confusion removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition that are not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because, while different fees and rebates are assessed to different market participants in some circumstances, these different market participants have different obligations and different circumstances. For example, Clearing TPHs have clearing obligations that other market participants do not have. Market-Makers have quoting obligations that other market participants do not have. There is also a history in the options markets of providing preferential treatment to customers, as they often do not have as sophisticated trading operations and systems as other market participants, which often makes other market participants prefer to trade with customers. Further, the Exchange fees and rebates, both current and those proposed to be changed, are intended to encourage market participants to bring increased volume to the Exchange
(which benefits all market participants), while still covering Exchange costs (including those associated with the upgrading and maintenance of Exchange systems).

The Exchange does not believe that the proposed rule changes will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the proposed changes are intended to promote competition and better improve the Exchange’s competitive position and make Cboe Options a more attractive marketplace in order to encourage market participants to bring increased volume to the Exchange (while still covering costs as necessary). Further, the proposed changes only affect trading on the Exchange. To the extent that the proposed changes make Cboe Options a more attractive marketplace for market participants at other exchanges, such market participants are welcome to become Cboe Options market participants.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act\textsuperscript{13} and paragraph (f) of Rule 19b-4\textsuperscript{14} thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in

\textsuperscript{14} 17 CFR 240.19b-4(f).
furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission’s Internet comment form (http://www.sec.gov/rules/sro.shtml); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-CBOE-2019-012 on the subject line.

Paper comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-CBOE-2019-012. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s Internet website (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld.
from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street, NE, Washington, D.C. 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-CBOE-2019-012 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁵

Eduardo A. Aleman
Deputy Secretary
