13	Market-Maker, Clearing Trading Permit Holder, JBO participant, broker-dealer and non-Trading Permit Holder market-maker transaction fees are capped at $0.00 for all merger, short stock interest, reversal, conversion and jelly roll strategies executed in open outcry on the same trading day in the same option class across all symbols in equities, ETFs and ETNs. A "merger strategy" is defined as transactions done to achieve a merger arbitrage involving the purchase, sale and exercise of options of the same class and expiration date, each executed prior to the date on which shareholders of record are required to elect their respective form of consideration, i.e., cash or stock. A "short stock interest strategy" is defined as transactions done to achieve a short stock interest arbitrage involving the purchase, sale and exercise of in-the–money options of the same class. A "reversal strategy" is established by combining a short security position with a short put and a long call position that shares the same strike and expiration. A "conversion strategy" is established by combining a long position in the underlying security with a long put and a short call position that shares the same strike and expiration. A "jelly roll strategy" is created by entering into two separate positions simultaneously. One position involves buying a put and selling a call with the same strike price and expiration. The second position involves selling a put and buying a call, with the same strike price, but with a different expiration from the first position. Strategies tied to QCC orders will not be eligible to receive a strategy rebate. Strategies defined in this footnote 13 will not be eligible for an ORS/CORS subsidy. [Strategy orders must be marked with a code approved by the Exchange identifying the orders as eligible for the fee cap. Strategy orders executed in September 2020 may also qualify for the fee cap if a rebate request with supporting documentation is submitted to the Exchange within 3 business days of September 30, 2020.]
