Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval to a Proposed Rule Change by the Chicago Board Options Exchange, Inc. Relating to the Handling of Satisfaction Orders Pursuant to the Plan for the Purpose of Creating and Operating an Intermarket Option Linkage

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on May 11, 2004, the Chicago Board Options Exchange, Inc. (“CBOE” or “Exchange”) submitted to the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to amend its rules regarding how its members handle Satisfaction Orders<sup>3</sup> pursuant to the Linkage Plan.

The text of the proposed rule change is available at the Exchange and at the Commission.

<sup>3</sup> A “Satisfaction Order” is defined as an order sent through the Options Intermarket Linkage to notify a Participant of a Trade-Through and to seek satisfaction of the liability arising from that Trade-Through. A “Trade-Through” is a transaction in an options series at a price that is inferior to the National Best Bid or Offer. See Sections 2(16)(c) and 2(29) of the Plan for the Purpose of Creating and Operating an Intermarket Option Linkage (the “Linkage Plan”), respectively.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it had received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to implement a proposed rule change related to proposed Joint Amendment No. 11 to the Linkage Plan.<sup>4</sup> That amendment to the Linkage Plan, together with this proposed rule change, will enhance the manner in which the CBOE processes Satisfaction Orders following a Trade-Through. If the displayed price that is traded through represents a customer order, the CBOE Designated Primary Market Maker ("DPM"), specialist, or specialist equivalent of another participant in the Linkage Plan ("Participant")<sup>5</sup> can send a

<sup>5</sup> A "Participant" is defined as an Eligible Exchange whose participation in the Linkage Plan has become effective pursuant to Section 4(c) of the Linkage Plan. See Section 2(24) of the Linkage Plan. Currently, the Participants in the Linkage Plan are the International Securities Exchange, Inc., the American Stock Exchange LLC, the CBOE, the Pacific Exchange, Inc. the Philadelphia Stock Exchange, Inc. and the Boston Stock Exchange, Inc.

Satisfaction Order requiring the member on the exchange who caused the Trade-Through to satisfy the customer order.<sup>6</sup> The CBOE proposes the following changes.

First, Section 8(c)(ii)(B)(2) of the Linkage Plan and CBOE Rule 6.83 (the “Rule”) currently permit a DPM to send a Satisfaction Order for the full size of the customer order traded through, regardless of the size of the transaction that caused the Trade-Through (although the Participant receiving the Satisfaction Order that elects to execute it must limit its execution to the size of the Trade-Through). Because the recipient of the Satisfaction Order can limit the execution of the Satisfaction Order to the size of the Trade-Through, this proposed rule change would provide that the size of the Satisfaction Order be limited to the lesser of the size of the customer order traded through and the size of the transaction that caused the Trade-Through.

Second, the Linkage Plan<sup>7</sup> and the Rule currently permit a DPM to reject an execution (“fill”) of a Satisfaction Order if the customer order that underlies the Satisfaction Order either has been filled on the CBOE or has been canceled while the Satisfaction Order is being processed. However, if the order is filled or canceled, there is no current requirement to cancel the pending Satisfaction Order, which leads to the rejection of Satisfaction Order fills that may have been avoided had the Satisfaction Order been canceled. To address this issue, the proposed rule change would require the DPM to cancel a pending Satisfaction Order as soon as practical if the underlying customer order is filled or canceled.

Third, as noted above, a DPM can reject a Satisfaction Order fill if the underlying customer order is executed or canceled while the Satisfaction Order is pending. However, it is possible that the DPM itself could trade against the customer order before the DPM receives a

notice that the Satisfaction Order has been filled. In this case, the CBOE believes that it would be inappropriate to reject the fill. Accordingly, the proposed rule change would provide that the DPM must accept the fill of the Satisfaction Order in that scenario.

2. Statutory Basis

The CBOE believes that the proposed rule is consistent with Section 6(b) of the Act,<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5)<sup>9</sup> in particular in that it should promote just and equitable principles of trade, serve to remove impediments to and perfect the mechanism of a free and open market and a national market system, and protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Solicitation of Comments

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.<sup>10</sup> In particular, the Commission finds that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act<sup>11</sup> which requires, among other things, that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and to protect investors and the public interest. The Commission believes that the proposed rule change should facilitate the handling of Satisfaction Orders in an efficient and fair manner.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of the notice thereof in the Federal Register. As noted above, the proposed rule change incorporates changes into the CBOE Rules that correspond to changes made to the Linkage Plan through Joint Amendment No. 11, which was published for public comment in the Federal Register on May 19, 2004.<sup>12</sup> The Commission received no comments in response to publication of Joint Amendment No. 11. The Commission believes that no new issues of regulatory concern are being raised by CBOE's proposed rule change. The
