II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its fees schedule to adopt a provision relating to billing errors and fee disputes. Particularly, the Exchange proposes to provide that after three calendar months, all fees and rebates assessed by the Exchange would be considered final. More specifically, the Exchange would adopt language in the fees schedule that would provide that all fees and rebates assessed prior to the three full calendar months before the month in which the Exchange becomes aware of a billing error shall be considered final. Particularly, the Exchange will resolve an error by crediting or debiting Members and Non-Members based on the fees or rebates that should have been applied in the three full calendar months preceding the month in which the Exchange became aware of the error, including to all impacted transactions that occurred during those months.⁵ The Exchange will apply the three month look back regardless

⁵ For example, if the Exchange becomes aware of a transaction fee billing error on January 4, 2021, the Exchange will resolve the error by crediting or debiting Members based on the fees or rebates that should have been applied to any impacted transactions during October, November and December 2020. The Exchange notes that because it bills in arrears, the Exchange would be able to correct the error in advance of issuing the January 2021 invoice and therefore, transactions impacted through the date of discovery (in this example, January 4, 2021) and thereafter, would be billed correctly.

of whether the error was discovered by the Exchange or by a Member or Non-Member that submitted a fee dispute to the Exchange. The Exchange also proposes to provide all disputes concerning fees and rebates assessed by the Exchange would have to be submitted to the Exchange in writing and accompanied by supporting documentation.

The purpose of the proposed change is to encourage Members and Non-Members to promptly review their Exchange invoices so that any disputed charges can be addressed in a timely manner. The Exchange notes that it provides Members with both daily and monthly fee reports and thus believes they should be aware of any potential billing errors within three months. Requiring that Members and Non-Members submit disputes in writing and provide supporting documentation encourages them to promptly review their invoices so that any disputed charges can be addressed in a timely manner while the information and data underlying those charges (e.g., applicable fees and order information) is still easily and readily available. This practice will avoid issues that may arise when Members or Non-Members do not dispute an invoice in a timely manner and will conserve Exchange resources that would have to be expended to resolve untimely billing disputes. As such, the proposed rule change would alleviate administrative burdens related to billing disputes, which could divert staff resources away from the Exchange's regulatory and business purposes. The proposed rule change to provide all fees and rebates are final after three calendar months also provides both the Exchange and Members and Non-Members finality and the ability to close their books after a known period of time.

The Exchange notes that a number of exchanges have explicitly stated that they consider all fees to be final after a similar period of time.⁶ Additionally, several other exchanges have

⁶ See e.g. Securities Exchange Act Release No. 87650 (December 3, 2019), 84 FR 67304

adopted similar provisions in their rules that provide for a process for Members and Non-Members to submit fee disputes.⁷ The proposed billing policy will apply to all charges and rebates reflected in the Exchange's fees schedule.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁸ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁹ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁰ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

¹⁰ Id.

With respect to the proposed billing procedure, the Exchange believes that the requirement to submit all billing disputes in writing, and with supporting documentation is reasonable because the Exchange provides Members with ample tools to monitor and account for various charges incurred in a given month. Additionally, the Exchange notes that most Members and Non-Members that pay exchange fees are sophisticated entities, so it is appropriate to expect them to promptly review their invoices for errors and to be capable of identifying such errors. The proposed provision also promotes the protection of investors and the public interest by providing a clear and concise mechanism for Members and Non-Members to dispute fees and for the Exchange to review such disputes in a timely manner. Moreover, the proposed billing dispute language, which will lower the Exchange's administrative burden, is similar to billing dispute language of other exchanges.¹¹ In addition, the proposed billing procedure is fair, equitable, and not unfairly discriminatory because it will apply equally to all Members (and Non-Members that pay Exchange fees).

The Exchange also believes that providing that all fees and rebates are final after three months (i.e., resolving billing errors only for the three full calendar months preceding the month in which the Exchange became aware of the error), is reasonable as both the Exchange and Members and Non-Members have an interest in knowing when its fee assessments are final and when reliance can be placed on those assessments. Indeed, without some deadline on billing errors, the Exchange and Members and Non-Members would never be able to close their books with any confidence. Furthermore, as noted above, a number of Exchanges similarly consider their fees final after a similar period of time.¹² The proposed change is also equitable, and not

¹¹ See supra note 7.

¹² See supra note 6.

unfairly discriminatory because it will apply equally to all Members (and Non-Members that pay Exchange fees) and apply in cases where either the Member (or Non-Member) discovers the error or the Exchange discovers the error.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. With respect to the billing procedure and billing error policy, the proposed rule change would establish a clear process that would apply equally to all Members. Additionally, the proposed rule change is similar to rules of other exchanges. The Exchange does not believe such proposed changes would impair the ability of Members or competing order execution venues to maintain their competitive standing in the financial markets. Moreover, because the proposed changes would apply equally to all Members, the proposal does not impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No comments were solicited or received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

¹³ 15 U.S.C. 78s(b)(3)(A).

¹⁴ 17 CFR 240.19b-4(f)(6).

If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.
