Rule 11.6  Definitions

(a) – (c) No change.

(d)  Discretionary Range. An instruction the User may attach to an order to buy (sell) a stated amount of a security at a specified, displayed or non-displayed ranked price with discretion to execute up (down) to another specified, non-displayed price. Resting orders with a Discretionary Range instruction will be executed at a price that uses the minimum amount of discretion necessary to execute the order against an incoming order. An order with a Discretionary Range instruction resting on the EDGA Book will execute at its least aggressive price when matched for execution against an incoming order that also contains a Discretionary Range instruction, as permitted by the terms of both the incoming and resting order. [To the extent an order with a Discretionary Range instruction’s displayed or non-displayed ranked price is equal to an incoming order with a Post Only instruction that does not remove liquidity on entry pursuant to Rule 11.6(n)(4), the order with a Discretionary Range instruction will remove liquidity against such incoming order.] Any contra-side order that executes against a resting order with a Discretionary Range instruction at its displayed or non-displayed ranked price, or [that contains a time-in-force of Immediate-or-Cancel or Fill-or-Kill and] a price in the discretionary range, will remove liquidity against the order with a Discretionary Range instruction. Where an incoming order with a Post Only instruction does not remove liquidity on entry pursuant to Rule 11.6(n)(4) against a resting order with a Discretionary Range instruction, the discretionary range of the resting order with a Discretionary Range instruction will be shortened to equal the limit price of the incoming contra-side order with a Post Only instruction. [Any contra-side order with a time-in-force other than Immediate-or-Cancel or Fill-or-Kill and a price in the discretionary range but not at the displayed or non-displayed ranked price will be posted to the EDGA Book and then the Discretionary Order will remove liquidity against such posted order.] An order with a Discretionary Range instruction that is eligible for routing away pursuant to Rule 11.11 will be routed away from the Exchange at its full discretionary price.

(e) – (s) No change.
