Rule 11.9 Order Execution

(a) No change.

(b) (1) No change.

(2) No change.

(3) *Routing Options*. The System provides a variety of routing options. Routing options may be combined with all available order types and times-in-force, with the exception of order types and times-in-force whose terms are inconsistent with the terms of a particular routing option. The System will consider the quotations only of accessible markets. The term “System routing table” refers to the proprietary process for determining the specific trading venues to which the System routes orders and the order in which it routes them. The Exchange reserves the right to maintain a different System routing table for different routing options and to modify the System routing table at any time without notice. The System routing options are:

(a) – (b) No change.

(c) The following routing strategies check the System for available shares and then are sent to destinations on the System routing table. If shares remain unexecuted after routing, they are posted on the book, unless otherwise instructed by the User. For strategies in paragraphs (i)-(iii) below, Users may elect that any remainder of an order be posted on the book or to another destination on the System routing table.

(i)	ROUE
(ii)	ROUT
(iii)	ROUX
(iv)	ROUQ
(v)	ROUZ

(d) – (q) No change.
