Rule 2004. Position Limits for Broad-Based Index Options

(a) Rule 412 generally shall govern position limits for broad-based index options, as modified by this Rule 2004. There may be no position limit for certain Specified (as provided in Rule 2000) broad-based index options contracts. Except as

otherwise indicated below, the position limit for a broad-based index option shall be 25,000 contracts on the same side of the market. Reduced-value options on broad-based security indexes for which full-value options have no position and exercise limits will similarly have no position and exercise limits. All other broad-based index options contracts shall be subject to a contract limitation fixed by the Exchange, which shall not be larger than the limits provided in the chart below.

Rule 2009. Terms of Index Options Contracts

(a) *General.*

* * *

(4) “*European-Style Exercise.*” The following European-style index options, some of which may be A.M.-settled as provided in paragraph (a)(5), are approved for trading on the Exchange:

(i) – (lxxxviii) No Change
(lxxxix) Mini DAX Index

(5) *A.M.-Settled Index Options*. The last day of trading for A.M.-settled index options shall be the business day preceding the last day of trading in the underlying securities prior to expiration. The current index value at the expiration of an A.M.-settled index option shall be determined, for all purposes under these Rules and the Rules of the Clearing Corporation, on the last day of trading in the underlying securities prior to expiration, by reference to the reported level of such index as derived from first reported sale (opening) prices of the underlying securities on such day, except that:

(i) In the event that the primary market for an underlying security does not open for trading on that day, the price of that security shall be determined, for the purposes of calculating the current index value at expiration, as set forth in Rule 2008(g), unless the current index value at expiration is fixed in accordance with the Rules and By-Laws of the Clearing Corporation; and

(ii) In the event that the primary market for an underlying security is open for trading on that day, but that particular security does not open for trading on that day, the price of that security, for the purposes of calculating the current index value at expiration, shall be the last reported sale price of the security.

The following A.M.-settled index options are approved for trading on the Exchange:

(i) – (lxxxviii) No Change
(lxxxix) Mini DAX Index

* * *

(c) *Procedures for Adding and Deleting Strike Prices*. The procedures for adding and deleting strike prices for index options are provided in Rule 504, as amended by the following:

(1) The interval between strike prices will be no less than \$5.00; provided, that in the case of the following classes of index options, the interval between strike prices will be no less than \$2.50:

(i) - (lxxxviii) No Change
(lxxxix) Mini DAX Index, if the strike price is less than \$200.00
