**723. Price Improvement Mechanism for Crossing Transactions**

(a) The Price Improvement Mechanism is a process by which an Electronic Access Member can provide price improvement opportunities for a transaction wherein the Electronic Access Member seeks to facilitate an order it represents as agent, and/or a transaction wherein the Electronic Access Member solicited interest to execute against an order it represents as agent (a “Crossing Transaction”).

(b) Crossing Transaction Entry. A Crossing Transaction is comprised of the order the Electronic Access Member represents as agent (the “Agency Order”) and a counter-side order for the full size of the Agency Order (the “Counter-Side Order”). The Counter-Side Order may represent interest for the Member’s own account, or interest the Member has solicited from one or more other parties, or a combination of both.

For the period beginning January 19, 2017 until a date specified by the Exchange in a Regulatory Information Circular, which date shall be no later than April 15, 2017, the following provisions shall be in effect:

(1) If the Agency Order is for less than 50 option contracts, and if the difference between the National Best Bid and National Best Offer (“NBBO”) is \$0.01, the Electronic Access Member shall not enter a Crossing Transaction unless such Crossing Transaction is entered at one minimum price improvement increment better than the NBBO on the opposite side of the market from the Agency Order and better than the limit order or quote on the ISE Gemini order book on the same side of the Agency Order. Failure to provide such price improvement will subject Members to the fines set forth in ISE Rule 1614(d)(4).

(1)2) If the Agency Order is for 50 option contracts or more, or if the difference between the NBBO is greater than \$0.01, [A]a Crossing Transaction must be entered only at a price that is equal to or better than the [national best bid or offer (“]NBBO[”)] and better than the limit order or quote on the ISE Gemini order book on the same side of the Agency Order.

(2)3) The Crossing Transaction may be priced in one-cent increments.

([3]4) The Crossing Transaction may not be canceled, but the price of the Counter-Side Order may be improved during the exposure period.

After the date specified by the Exchange in a Regulatory Information Circular, which date shall be no later than April 15, 2017, the following provisions shall be in effect:

(1) If the Agency Order is for less than 50 option contracts, and if the difference between the National Best Bid and National Best Offer (“NBBO”) is \$0.01, the Crossing Transaction must be entered at one minimum price improvement increment better than the NBBO on the opposite side of the market from the Agency Order and better than the limit order or quote on the ISE Gemini order book on the same side of the Agency Order.

(2) If the Agency Order is for 50 option contracts or more, or if the difference between the NBBO is greater than \$0.01, a Crossing Transaction must be entered only at a price that is equal to or better than the national best bid or offer (“NBBO”) and better than the limit order or quote on the ISE Gemini order book on the same side of the Agency Order.

(3) The Crossing Transaction may be priced in one-cent increments.

(4) The Crossing Transaction may not be canceled, but the price of the Counter-Side Order may be improved during the exposure period.
