Rule 515A. MIAX Price Improvement Mechanism ("PRIME") and PRIME Solicitation Mechanism

(a) Price Improvement Mechanism ("PRIME"). PRIME is a process by which a Member may electronically submit for execution ("Auction") an order it represents as agent ("Agency Order") against principal interest, and/or an Agency Order against solicited interest.

(1) Auction Eligibility Requirements. A Member (the "Initiating Member") may initiate an Auction provided all of the following are met:

(i) the Agency Order is in a class designated as eligible for PRIME as determined by the Exchange and within the designated Auction order eligibility size parameters as such size parameters are determined by the Exchange; and

(ii) the Initiating Member must stop the entire Agency Order as principal or with a solicited order at the better of the NBBO or the Agency Order's limit price (if the order is a limit order).

(iii) With respect to Agency Orders that have a size of less than 50 contracts, if at the time of receipt of the Agency Order, the NBBO has a bid/ask differential of $0.01, the System will reject the Agency Order.

(2) No change.

*****

Interpretations and Policies:

.01 - .07 No change.

.08 Reserved. [The minimum size requirement for PRIME Auctions to start at the NBBO is subject to a Pilot Program ending January 18, 2017. The Exchange will submit certain data, as required by the Commission, to provide supporting evidence that, among other things, there is meaningful competition for all size orders within the PRIME, that there is significant price improvement for all orders executed through the PRIME, and that there is an active and liquid market functioning on the Exchange outside of the PRIME. Any raw data which is submitted to the Commission will be provided on a confidential basis.]
.09 No change.
