Rule 503. Openings on the Exchange

(a)-(g) No change.

Interpretations and Policies:

.01 No change.

.02 SPIKES Index Options Settlement.

(a) **Exercise Settlement Value Date.** The exercise settlement value of a SPIKES Index option for all purposes under these Rules and the Rules of the Clearing Corporation shall be calculated on the specific date (usually a Wednesday) identified in the option symbol for the series. If that Wednesday or the Friday that is 30 days following that Wednesday is an Exchange holiday, the exercise settlement value shall be calculated on the business day immediately preceding that Wednesday.

(b) **Final Settlement Price Calculation.** The final settlement price calculation will occur on the morning of SPIKES Index options expiration. A Settlement Reference Price (“SRP”) will be calculated for each SPY option that is included in the Index, using the SPIKES Special Settlement Auction, described in Interpretations and Policies .03.

(c) **Expiration Date and Last Day of Trading.** The expiration date of a SPIKES Index option shall be the same day that the final settlement price calculation is performed. The last trading day for a SPIKES Index option shall be the business day immediately preceding the expiration date of the SPIKES Index option. When the last trading day is moved because of an Exchange holiday, the last trading day for an expiring SPIKES Index option contract will be the day immediately preceding the last regularly scheduled business day.

.03 SPIKES Special Settlement Auction.

(a) All provisions set forth in Exchange Rule 503, Openings on the Exchange, remain in effect unless superseded or modified by this Interpretation and Policy .03. On the dates on which the exercise and final settlement values are calculated for SPIKES Index options, the Exchange utilizes a modification to its Opening Process described below for all SPY options that expire 30 days after the SPIKES settlement, used to calculate the exercise/final settlement value of the SPIKES Index for expiring options contracts. The modification is referred to as the Special
Settlement Imbalance Process (“SSIP”), and is used to account for situations where there remains an order imbalance that must be filled at the opening price after the requisite number of iterations of the imbalance process takes place under Exchange Rule 503. Any interest priced through the opening price is deemed “must fill.”

(b) On the day of the SPIKES Special Settlement Auction, in addition to any other order types that may be accepted by the Exchange, the Exchange will also accept Settlement Auction Only Orders (“SAO Orders”) and Settlement Auction Only eQuotes (“SAO eQuotes”) (SAO Orders and SAO eQuotes are collectively referred to as “SAOs”) at any time after the opening of the Live Order Window (“LOW”) and the Live Quote Window (“LQW”), respectively. SAOs are specific order types that allow a Member to voluntarily tag such order as a SPIKES strategy order, defined in subsection (c) below.

(c) All orders for participation in the SPIKES Special Settlement Auction that are related to positions in, or a trading strategy involving, SPIKES Index options (“SPIKES strategy orders”), and any change to or cancellation of any such order:

(1) must be received prior to the applicable SPIKES strategy order cut-off time for the constituent option series, as determined by the Exchange, which may be no earlier than the opening of the LOQ or the LQW, and no later than the opening of trading in the series. The Exchange will announce all determinations regarding changes to the applicable SPIKES strategy order cut-off time via Regulatory Circular at least one day prior to implementation; and

(2) may not be cancelled or modified after the applicable SPIKES strategy order cut-off time, unless the SPIKES strategy order is not executed in the SPIKES Special Settlement Auction and the cancellation or modification is submitted after the SPIKES Special Settlement Auction is concluded (provided that any such SPIKES strategy order may be modified or cancelled after the applicable SPIKES strategy order cut-off time and prior to the applicable non-SPIKES strategy order cut-off time in order to correct a legitimate error, in which case the Member submitting the change or cancellation will prepare and maintain a memorandum setting forth the circumstances that resulted in the change or cancellation and will file a copy of the memorandum with the Exchange no later than the next business day in a form and manner prescribed by the Exchange). In general, the Exchange will consider orders to be SPIKES strategy orders for purposes of this Interpretation and Policy .03, if the orders possess the following three characteristics: (A) are for options with the expiration that will be used to calculate the exercise or final settlement value of the applicable volatility index option contract; (B) are for options spanning the full range of strike prices for the appropriate expiration for options that will be used to calculate the exercise or final settlement value of the applicable volatility index option contract, but not necessarily every available strike price; and (C) are for put options with strike prices less than the “at-the-money” strike price and for call options with strike prices greater than the “at-the-money” strike price. They may also be for put and call options with “at-the-money” strike prices.

Whether certain orders are SPIKES strategy orders for purposes of this Interpretation and Policy .03 depends upon specific facts and circumstances. The Exchange may also deem order
types other than those provided above as SPIKES strategy orders if the Exchange determines that to be the case based upon the applicable facts and circumstances.

(d) All other orders for participation in the SPIKES Special Settlement Auction (“non-SPIKES strategy orders”), and any cancellation or modification of any such order, must be received prior to the applicable cut-off time, as determined by the Exchange, in order to participate at the opening price for the applicable series, which may be no earlier than the opening of the LOW or the LQW and no later than the opening of trading in the option series. The Exchange will announce all determinations regarding changes to the applicable non-SPIKES strategy order cut-off time at least one day prior to implementation.

(e) If any must-fill interest cannot be filled during the Exchange’s imbalance process performed pursuant to Exchange Rule 503, the SSIP will be commenced to satisfy such must-fill interest, as follows:

(1) The System will broadcast a system imbalance broadcast message to all subscribers of the Exchange’s relevant data feed and begin an SSIP Imbalance Timer, the duration of which shall be determined by the Exchange and announced via Regulatory Circular, however it shall not to exceed ten seconds.

(2) The System will evaluate the must-fill imbalance and adjust the EQR by a defined amount by appending to the EQR (adding to offers or subtracting from bids) the EQR value, which value shall be defined in a table to be determined by the Exchange and announced via Regulatory Circular.

(3) If the must-fill imbalance cannot be satisfied, steps (1) and (2) described above will be repeated until there is no remaining must-fill imbalance.

(4) During the SSIP, the allowable EQR will be increased by an additional .5 x the base of the EQR value for each full cycle through the SSIP.

(5) Once there is no remaining must-fill imbalance, all remaining orders submitted for participation in the SPIKES Special Settlement Auction, including SAO Orders, SAO eQuotes, AOC Orders, AOC eQuotes, OPG Orders, and OPG eQuotes, will be cancelled. Any unfilled Day Limit Orders and Good ‘Til Cancelled Orders that are priced at the Opening Price will be placed on the Book and managed by the System.

[f] SPIKES Index Options Settlement.
(1) **Exercise Settlement Value Date.** The exercise settlement value of a SPIKES Index option for all purposes under these Rules and the Rules of the Clearing Corporation shall be calculated on the specific date (usually a Wednesday) identified in the option symbol for the series. If that Wednesday or the Friday that is 30 days following that Wednesday is an Exchange holiday, the exercise settlement value shall be calculated on the business day immediately preceding that Wednesday.

(2) **Final Settlement Price Calculation.** The final settlement price calculation will occur on the morning of SPIKES Index options expiration. A Settlement Reference Price (“SRP”) will be calculated for each SPY option that is included in the Index, using the SPIKES Special Settlement Auction, described in Interpretations and Policies .06.

(3) **Expiration Date and Last Day of Trading.** The expiration date of a SPIKES Index option shall be the same day that the final settlement price calculation is performed. The last trading day for a SPIKES Index option shall be the business day immediately preceding the expiration date of the SPIKES Index option. The Exchange will announce all determinations regarding changes to the applicable non-SPIKES strategy order cut-off time at least one day prior to implementation.
(e) If any must-fill interest cannot be filled during the Exchange’s imbalance process performed pursuant to Exchange Rule 503, the SSIP will be commenced to satisfy such must-fill interest, as follows:

(i) The System will broadcast a system imbalance broadcast message to all subscribers of the Exchange’s relevant data feed and begin an SSIP Imbalance Timer, the duration of which shall be determined by the Exchange and announced via Regulatory Circular, however it shall not to exceed ten seconds.
