II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change, as amended, and discussed any comments it received on the proposed rule change, as amended. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq proposes to establish a new fee and credit schedule for order execution and routing that spans activity on the Nasdaq Facilities.<sup>7</sup> In SR-NASD-2005-128,<sup>8</sup> Nasdaq's filing to establish rules for the newly acquired Inet ECN, Nasdaq committed that it would, within 60 days of the closing of the acquisition of Inet, file an integrated fee and credit structure governing the use of all of the Nasdaq Facilities. Nasdaq states that the fee and rebate structure is based on multiple volume-based usage tiers that take into account the combined volume of a market participant on all of the Nasdaq Facilities. Nasdaq believes that this integrated and uniform pricing structure will encourage activity on the Nasdaq Facilities and will not provide financial incentives to use one system versus the other. Nasdaq notes that under the new structure, the volumes required to receive certain discounted fees or enhanced credits are higher than is the case under current pricing for the Nasdaq Market Center and Brut. Nasdaq states that this is a function of the fact that the combined volume of the three systems would be markedly higher than that of any system in isolation, so an adjustment of the tier thresholds would be necessary to prevent the combining of the systems from resulting in unwarranted fee decreases. As stated in a Current Report on Form 8-K and related press release filed by

---

<sup>7</sup> This filing would apply to NASD members. Nasdaq has submitted SR-NASD-2006-014 to apply the same pricing structure to non-members.

<sup>8</sup> Securities Exchange Act Release Nos. 52902 (December 7, 2005), 70 FR 73810 (December 13, 2005) (SR-NASD-2005-128) and 52723 (November 2, 2005), 70 FR 67513 (November 7, 2005) (SR-NASD-2005-128).

Nasdaq with the Commission, Nasdaq does not currently anticipate that the new pricing structure would have a material impact on its financial results.<sup>9</sup>

Specific features of the new pricing structure for Nasdaq-listed securities and exchange-traded funds (“ETFs”) are as follows:

- Members with an average daily volume through the Nasdaq Facilities in all securities (i.e., listed on Nasdaq or elsewhere) during the month of (i) more than 30 million shares of liquidity provided, and (ii) more than 50 million shares of liquidity accessed and/or routed would pay \$0.0028 per share to access liquidity from market participants that do not charge an access fee; all others would pay \$0.003 per share to access liquidity from market participants that do not charge an access fee.<sup>10</sup>
- Members with an average daily volume through the Nasdaq Facilities in all securities during the month of more than 30 million shares of liquidity provided and that do not charge an access fee would receive a credit of \$0.0025 per share when providing liquidity; others that do not charge an access fee would receive \$0.002 per share; and members that charge an access fee would not receive a credit.
- Members with an average daily volume through the Nasdaq Facilities in all securities during the month of more than 500,000 shares of liquidity

provided would pay \$0.001 per share to access liquidity from market participants that charge an access fee, with a cap of \$10,000 per month; all others would pay \$0.001 per share with no cap.

When routing orders for Nasdaq-listed securities that check the books of the Nasdaq Facilities before routing, members with an average daily volume through the Nasdaq Facilities in all securities during the month of (i) more than 30 million shares of liquidity provided, and (ii) more than 50 million shares of liquidity accessed and/or routed would pay the greater of \$0.0028 per share or the applicable access fees of electronic communications networks (ECNs) that charge more than \$0.003 per share. Other members would pay the greater of \$0.003 per share or the applicable access fees of ECNs that charge more than \$0.003 per share. Finally, members routing orders for Nasdaq-listed securities that do not first check the books of the Nasdaq Facilities would pay the greater of \$0.004 per share or the applicable access fees of ECNs that charge more than \$0.003 per share. Thus, in most cases, Nasdaq would pass through to its market participants the cost that it is charged when routing to ECNs that charge more than \$0.003 per share.

The fees for routing ETFs not listed on Nasdaq would be as follows: (i) \$0.01 per share for an order executed to the American Stock Exchange (“Amex”) after checking the Nasdaq Facilities, (ii) \$0.0035 per share for an order executed on venues other than the New York Stock Exchange (“NYSE”) and Amex after checking the Nasdaq Facilities, (iii) \$0.0007 for an order executed through the Intermarket Trading System (“ITS”) after checking the Nasdaq Facilities, and (iv) \$0.004 per share for an order that is executed

without checking the Nasdaq Facilities.<sup>11</sup> Fees for ETF orders executed on the NYSE are described below.<sup>12</sup>

Specific features of the new pricing structure for non-Nasdaq-listed securities other than ETFs (“Covered Securities”) would be as follows:

- All members would pay \$0.0007 per share for orders that access liquidity from the Nasdaq Facilities.
- Members with an average daily volume through the Nasdaq Facilities in Covered Securities during the month of more than 5 million shares of liquidity accessed, provided, or executed<sup>13</sup> would receive a credit of \$0.0005 per share of liquidity provided; others would not receive a liquidity provider credit. As a result, Nasdaq would be ending the liquidity provider credit pilot for 40 NYSE-listed stocks under Rule 7010(i)(5)(E).<sup>14</sup>
- The fees for routing Covered Securities would be as follows: (i) \$0.01 per share for an order executed on Amex, (ii) \$0.0035 per share for an order for a security listed on a venue other than the NYSE and executed on a venue other than Amex, (iii) \$0.0015 per share for an NYSE-listed

Covered Security executed on a venue other than the NYSE, and (iv) \$0.0007 per share for an order executed on the ITS.<sup>15</sup>

Fees for orders in NYSE-listed Covered Securities and NYSE-listed ETFs routed to the NYSE through its DOT system are described below:

- Orders that are routed through DOT after accessing the Nasdaq Facilities and that are not charged a fee by the NYSE specialist would be free. Members would pay a fee of \$0.01 per share for orders that are charged a fee by the NYSE specialist.
- The fee for orders routed through DOT without accessing the Nasdaq Facilities would depend on a member's volume of usage of Nasdaq's DOT linkage. Members routing an average daily volume of more than 30 million shares during the month would pay \$0.0001 per share executed; members routing between 2,000,001 and 30 million shares would pay \$0.0003 per share executed; members routing between 250,001 and 2 million shares would pay \$0.0005 per share executed; members routing between 100,001 and 250,000 shares would pay \$0.001 per share executed; and members routing 100,000 shares or less would pay \$0.01 per share executed.

Other changes being effected by the proposed rule change would be as follows:

- Nasdaq would be eliminating fee and credit caps currently in place for trades priced under \$1. Nasdaq states that the caps were instituted as a

response to high trading volumes in certain low-priced stocks several years ago and have less relevance to the current trading environment.

- Good-till-Cancelled and Immediate-or-Cancel orders would be added to the list of order types that pay a \$0.0005 per share fee when executed in Nasdaq's Opening Cross. Other fees for the Opening Cross and the Closing Cross would be unchanged.
- The Nasdaq Market Center and Brut would no longer share market data revenue associated with transactions in securities listed on the NYSE that are executed through these systems. Nasdaq represents that Inet does not currently share such revenue.
- Most Inet fees contained in Rule 7010(w) would be deleted. However, fees for use of Inet's telecommunications protocols would be maintained. Since Inet continues to use different telecommunications protocols and is operated out of its own data centers, Nasdaq believes that it is appropriate to maintain Inet's current connectivity pricing. Nasdaq believes that the telecommunications charges associated with accessing Inet are comparable to those associated with accessing the Nasdaq Market Center and Brut. However, Nasdaq would be deleting some redundant language from the rule language describing these fees.

Nasdaq would be deleting unnecessary references to order entry fees, order cancellation fees, and preferenced orders.

## 2. Statutory Basis

Nasdaq believes that the proposed rule change, as amended, is consistent with the provisions of Section 15A of the Act,<sup>16</sup> in general, and with Section 15A(b)(5) of the Act,<sup>17</sup> in particular, in that the proposed rule change, as amended, provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the NASD operates or controls. Nasdaq states that the proposed rule change, as amended, would establish a uniform fee schedule for the Nasdaq Facilities that takes account of the higher volumes associated with the combining of the Nasdaq Facilities for purposes of determining pricing discounts. Nasdaq does not currently anticipate that the new pricing structure would have a material impact on its financial results.

### B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change, as amended, will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Nasdaq states that written comments were neither solicited nor received.

The foregoing rule change, as amended, is subject to Section 19(b)(3)(A)(ii) of the Act<sup>18</sup> and subparagraph (f)(2) of Rule 19b-4<sup>19</sup> thereunder because it establishes or changes a due, fee, or other charge imposed by the self-regulatory organization.

Accordingly, the proposal is effective upon Commission receipt of the filing. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.<sup>20</sup>
