Subject: SEC Release no.34-51083- file No.SR - NASD 2004-164

A little background on my NASD experience. I became an Arbitrator in 1996. A couple of years later I took the Chairman training. From 1996 thru 1999 I handled cases out of the NASD San Francisco office. I then moved to Albuquerque then to Texas and worked with the Chicago office. In the roughly 8 years, I have been selected to serve on 68 cases and Chairman of 28. 16 went to hearing. 14 of these cases are still open. Since moving to Texas and being retired, I have volunteered to serve on cases in Albuquerque, Dallas, Oklahoma City and Houston.

In my humble opinion the "Rotational" system- If truly that- is much more fair than the " random" system. I hate to live by the luck of the draw. By the "rotational" system, we will all know that our name will be presented the same amount of times as every other Arbitrator.
