Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to the Establishment of a Direct Market Data Product, NASDAQ Options Trade Outline (“NOTO”)

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to establish a direct market data product, NASDAQ Options Trade Outline (“NOTO”).

The text of the proposed rule change is available on the Exchange’s website at http://www.nasdaq.cchwallstreet.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to establish the NOTO market data product. NOTO is a market data product offered by the Exchange that is designed to provide proprietary electronic trade data to subscribers. NOTO is available as either an “End-of-Day” data product or an “Intra-Day” data product, as described more fully below. NOTO is available to any person who wishes to subscribe to it, regardless of whether or not they are a member of the Exchange. NOTO is available only for internal use and distribution by subscribers.

Data Included in NOTO

NOTO provides information about the activity of a particular option series during a particular trading session. NOTO subscribers will receive the following data:

- Aggregate number of buy and sell transactions in the affected series;
- Aggregate volume traded electronically on the Exchange in the affected series;
- Aggregate number of trades effected on the Exchange to open a position; 3
- Aggregate number of trades effected on the Exchange to close a position; 4

3 NOTO will provide subscribers with the aggregate number of “opening purchase transactions” in the affected series. An opening purchase transaction is an Exchange options transaction in which the purchaser's intention is to create or increase a long position in the series of options involved in such transaction. NOTO will also provide subscribers with the aggregate number of “opening writing transactions.” An opening writing transaction is an Exchange options transaction in which the seller’s (writer’s) intention is to create or increase a short position in the series of options involved in such transaction.

4 NOTO will provide subscribers with the aggregate number of “closing purchase transactions” in the affected series. A closing purchase transaction is an Exchange
• Origin of the orders involved in trades on the Exchange in the affected series during a particular trading session, specifically aggregated in the following categories of participants: customers, broker-dealers, and market makers.

**End of Day Product**

The End of Day product includes the aggregate data described above representing the entire trading session. It is calculated during an overnight process after each trading session and is available to subscribers for download the following morning at approximately 7:00 a.m., ET.

The Exchange will establish a monthly subscriber fee for the End of Day product by way of a separate proposed rule change, which the Exchange will submit after the NOTO market data product is established.

**Intra-Day Product**

The Intra-Day product includes periodic, cumulative data for a particular trading session. The Intra-Day product is produced and updated every ten minutes during the trading day. Data is captured in “snapshots” taken every 10 minutes throughout the trading day and is available to subscribers within 5 minutes of the conclusion of each 10 minute period. For example, subscribers to the Intra-Day product will receive the first calculation of intra-day data by 9:44 a.m. ET, which represents data captured from 9:30 a.m. to 9:39 a.m. Subscribers will receive the next update at 9:54 a.m., representing the data previously provided together with data captured from 9:40 a.m. through 9:49 a.m., and so forth. Each update will represent the aggregate data captured from the current “snapshot” and all previous “snapshots.”

options transaction in which the purchaser’s intention is to reduce or eliminate a short position in the series of options involved in such transaction. NOTO will also provide subscribers with the aggregate number of “closing sale transactions.” A closing sale transaction is an Exchange options transaction an Exchange options transaction in which the seller’s intention is to reduce or eliminate a long position in the series of options involved in such transaction.
The Exchange will establish a monthly subscriber fee for the Intra-Day product by way of a separate proposed rule change, which the Exchange will submit after the NOTO market data product is established.

NOTO provides subscribers data that should enhance their ability to analyze option trade and volume data, and to create and test trading models and analytical strategies. The Exchange believes that NOTO is a valuable tool that subscribers can use to gain comprehensive insight into the trading activity in a particular option series.

NOTO is virtually identical to a market data product currently available on NASDAQ OMX PHLX LLC (“PHLX”) known as the PHLX Options Trade Outline (“PHOTO”) market data product.5

2. Statutory Basis

NASDAQ believes that its proposal is consistent with Section 6(b) of the Act6 in general, and furthers the objectives of Section 6(b)(5) of the Act7 in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by establishing a market data product that enhances subscribers’ ability to make decisions on trading strategy, and by providing option trade and volume data that should help bring about such decisions in a timely manner.

B. Self-Regulatory Organization’s Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act\(^8\) and Rule 19b-4(f)(6)\(^9\) thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

\(^9\) 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.
