**Trading Halts**

A trading halt benefits current and potential Shareholders by halting all trading in any Nasdaq securities until there has been an opportunity for the information to be disseminated to the public. This decreases the possibility of some investors acting on information known only to them. A trading halt provides the public with an opportunity to evaluate the information and consider it in making investment decisions. It also alerts the marketplace to the fact that news has been released.

Nasdaq’s MarketWatch Department monitors real time trading in all Nasdaq securities during the trading day for price and volume activity. In the event of certain price and volume movements, the MarketWatch Department may contact a Company and its Market Makers in order to ascertain the cause of the unusual market activity. The
MarketWatch Department treats the information provided by the Company and other sources in a highly confidential manner, and uses it to assess market activity and assist in maintaining fair and orderly markets. A Nasdaq listing includes an obligation to disclose to the MarketWatch Department information that the Company is not otherwise disclosing to the investing public or the financial community. On occasion, changes in market activity prior to the Company's release of material information may indicate that the information has become known to the investing public. Changes in market activity also may occur when there is a release of material information by a source other than the Company, such as when a Nasdaq Company is subject to an unsolicited take-over bid by another company. Depending on the nature of the event and the Company's views regarding the business advisability of disclosing the information, the MarketWatch Department may work with the Company to accomplish a timely release of the information. Furthermore, depending on the materiality of the information and the anticipated affect of the information on the price of the Company's securities, the MarketWatch Department may advise the Company that a temporary trading halt is appropriate to allow for full dissemination of the information and to maintain an orderly market. The institution of a temporary trading halt pending the release of information is not a reflection on the value of the securities halted. Such trading halts are instituted, among other reasons, to insure that material information is fairly and adequately disseminated to the investing public and the marketplace, and to provide investors with the opportunity to evaluate the information in making investment decisions. A trading halt normally lasts one half hour but may last longer if a determination is made that news has not been adequately disseminated or that the original or an additional basis under Rule 4120 exists for continuing the trading halt.

The MarketWatch Department is required to keep non-public information, confidential and to use such information only for regulatory purposes.

Companies are required to notify the MarketWatch Department of the release of material information included in the following list of events at least ten minutes prior to the release of such information to the public when the public release of the information is made from 7:00 a.m. to 8:00 p.m. ET. If the public release of the material information is made outside of 7:00 a.m. to 8:00 p.m., Nasdaq Companies must notify MarketWatch of the material information prior to 6:50 a.m. ET. It should also be noted that every development that might be reported to Nasdaq in these areas would not necessarily be deemed to warrant a trading halt. In addition to the following list of events, Nasdaq encourages Companies to avail themselves of the opportunity for advance notification to the MarketWatch Department in situations where they believe, based upon their knowledge of the significance of the information, that a temporary trading halt may be necessary or appropriate.

(a) - (h) No change.

Whenever Nasdaq halts trading in a security of a listed company for any of the reasons set forth above or implements any other regulatory trading halt, Nasdaq will also halt
trading in any listed Equity Investment Tracking Stock that tracks the performance of such listed company and any Subscription Receipt that is exchangeable into that security.

Use of Regulation FD Compliant Methods in the Disclosure of Material Information

(c) Types of Deficiencies and Notifications

The type of deficiency at issue determines whether the Company will be immediately suspended and delisted, or whether it may submit a compliance plan for review or is entitled to an automatic cure or compliance period before a Staff Delisting Determination is issued. In the case of a deficiency not specified below, Staff will issue the Company a Staff Delisting Determination or a Public Reprimand Letter.

(1) Deficiencies that Immediately Result in a Staff Delisting Determination

Staff's notice will inform the Company that its securities are immediately subject to suspension and delisting when:
