A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to adopt pricing for the recently adopted SCAR routing strategy,<sup>3</sup> which will be implemented on May 13, 2019.<sup>4</sup> In sum, SCAR is a routing option under which orders check the System<sup>5</sup> for available shares and simultaneously route to the other equity markets operated by Nasdaq, Inc., the Nasdaq BX Equities Market (“BX”) and Nasdaq PSX (“PSX” and together with BX and the Exchange, the “Nasdaq Affiliated Exchanges”).<sup>6</sup>

The Exchange initially filed the proposed pricing changes on May 13, 2019 (SR-NASDAQ-2019-038). On May 22, 2019, the Exchange withdrew that filing and submitted this filing.

The Exchange now proposes to adopt the following pricing for SCAR orders in securities listed on Nasdaq (“Tape C”), NYSE (“Tape A”), and on exchanges other than Nasdaq and NYSE (“Tape B”) (collectively, “Tapes”), which execute on BX and PSX:<sup>7</sup>

<sup>3</sup> See Nasdaq Rule 4758(a)(1)(A)(xv). See also Securities Exchange Act Release No. 85372 (March 20, 2019), 84 FR 11357 (March 26, 2019) (SR-NASDAQ-2019-013).

<sup>4</sup> See Equity Trader Alert #2019-29.

<sup>5</sup> The term “System” shall mean the automated system for order execution and trade reporting owned and operated by the Exchange. See Rule 4701(a).

<sup>6</sup> If shares remain unexecuted after routing, they are posted on the Exchange’s book or cancelled. Once on the book, should the order subsequently be locked or crossed by another market center, the System will not route the order to the locking or crossing market center. See Rule 4758(a)(1)(A)(xv).

<sup>7</sup> Orders using the SCAR routing option that execute on the Exchange would be subject to the Exchange’s standard fees and rebates. Currently, members that do not meet certain volume thresholds that would qualify them for a discounted charge or credit are assessed a standard transaction fee of \$0.0030 per share for orders in any Tape securities priced at \$1 or more per share that execute on the Exchange. See Equity 7, Section 118(a).

- SCAR orders executed on BX will be provided a credit of \$0.0015 per share in Tape A and Tape C securities priced at \$1 or more per share.
- SCAR orders executed on BX will be provided a credit of \$0.0026 per share in Tape B securities priced at \$1 or more per share.<sup>8</sup>
- SCAR orders executed on PSX will be assessed a charge of \$0.0029 per share in all Tape securities priced at \$1 or more per share.
- SCAR orders executed on BX or PSX in all Tape securities priced below \$1 per share will be assessed a charge of 0.30% of the total transaction cost.<sup>9</sup>

## 2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>10</sup> in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,<sup>11</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that its proposal is reasonable, equitable and not unfairly discriminatory because the pricing proposed above for SCAR is generally set at levels intended to incentivize members to use this new routing strategy while also allowing the Exchange to recoup the costs of providing routing services. For instance, under this proposal, members will

<sup>8</sup> The Exchange is proposing to provide a higher credit for SCAR orders executed on BX in Tape B securities priced at \$1 or more than such orders in securities in Tape A and Tape C to coordinate with BX pricing. BX similarly gives higher credits for orders that access liquidity on BX in Tape B securities priced at \$1 or more per share than such orders in securities in Tape A and Tape C. See BX Equity 7, Section 118(a).

<sup>9</sup> This is the same rate that the Exchange currently charges for all securities priced below \$1 that route and execute at an away venue. See Equity 7, Section 118(b).

<sup>10</sup> 15 U.S.C. 78f(b).

<sup>11</sup> 15 U.S.C. 78f(b)(4) and (5).

be provided credits of \$0.0015 (for securities in Tapes A and C) or \$0.0026 (for Tape B securities) for orders in securities priced at \$1 or more per share that route to and execute on BX using the SCAR strategy. In contrast, orders that execute directly on BX as the home exchange (i.e., without using SCAR) are currently charged a standard transaction fee of \$0.0003 per share.<sup>12</sup> Furthermore, the proposed \$0.0029 per share charge for orders in any Tape securities priced at \$1 or more per share that route to and execute on PSX using the SCAR routing strategy is lower than the standard transaction charge of \$0.0030 per share that would apply if the order executed directly on PSX as the home exchange.<sup>13</sup> As such, the proposed SCAR pricing is set at rates that make it more economical for members to use this routing strategy, especially for those members that do not already add and/or remove large amounts of volume on PSX and BX directly.

The Exchange also believes that the proposed SCAR credits and charges for all Tape securities priced at \$1 or more per share are set at appropriate levels for the reasons that follow. As noted above, the Exchange is proposing a higher credit for SCAR orders in Tape B securities than in securities in Tape A and Tape C to coordinate with BX pricing, which generally provides higher credits for BX members to remove liquidity from BX in Tape B securities priced at \$1 or more per share than in Tape A and Tape C securities priced at \$1 or more.<sup>14</sup> The Exchange therefore believes that the credits are set at appropriate levels because the proposed credit of \$0.0026 for Tape B securities corresponds to the highest Tape B liquidity removal credit

<sup>12</sup> This fee would apply unless the member qualifies for a better rate (such as a liquidity removal credit) by meeting certain volume thresholds. See BX Equity 7, Section 118(a).

currently provided for accessing liquidity directly on BX.<sup>15</sup> As a means of offsetting the higher credit proposed for Tape B securities and also of recouping the costs of providing routing services, Exchange is proposing the credit of \$0.0015 for Tapes A and C securities that is slightly lower than the highest Tapes A and C credit currently provided for accessing liquidity directly on BX.<sup>16</sup> The Exchange still believes that the proposed \$0.0015 credit for Tape A and Tape C securities is set at an appropriate level because it remains within the range of the Tapes A and C liquidity removal credits currently provided for accessing liquidity directly on BX.<sup>17</sup> The proposed credit is also aligned with the \$0.0015 rebate currently provided by Cboe BZX Exchange (“BZX”), Cboe EDGX Exchange (“EDGX”), and Cboe EDGA (“EDGA”) to their members using ALLB, a routing strategy similar to SCAR in that ALLB routes between affiliated exchanges only,<sup>18</sup> to route orders to their affiliate, Cboe BYX Exchange (“BYX”).<sup>19</sup> In addition, the proposed \$0.0029 charge for SCAR orders that route and execute on PSX is similarly aligned with the \$0.0029 charge currently assessed by BYX, BZX, and EDGA to their

<sup>17</sup> Id.

<sup>18</sup> Unlike SCAR, which routes simultaneously to Nasdaq, PSX, and BX simultaneously in accordance with the System routing table, the ALLB routing strategy offered by BZX, BYZ, EDGA, and EDGX first checks the local book before being routed to the affiliated exchanges in accordance with the applicable system routing table. See Securities Exchange Act Release No. 85372 (March 20, 2019), 84 FR 11357 (March 26, 2019) (SR-NASDAQ-2019-013).

members using the ALLB routing strategy to route orders to their affiliate, EDGX,<sup>20</sup> while also remaining lower than the standard rate of \$0.0030 per share presently charged for accessing liquidity directly on PSX, as discussed above.

The Exchange further believes that it is reasonable, equitable and not unfairly discriminatory to assess the proposed charge for SCAR orders executed on BX or PSX in any Tape securities priced below \$1 per share because it is consistent with what it currently charges for all orders in securities priced at less than \$1 per share that route and execute at an away venue.<sup>21</sup> Lastly, the Exchange believes that the proposed pricing changes are equitable and not unfairly discriminatory because they will apply uniformly to all members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

---

<sup>20</sup> See BYX Fee Schedule, available at [https://markets.cboe.com/us/equities/membership/fee\\_schedule/byx](https://markets.cboe.com/us/equities/membership/fee_schedule/byx). See *supra* note 19.

<sup>21</sup> The Exchange currently charges 0.30% of the total transaction cost for all such orders. See Equity 7, Section 118(b).

In this instance, the proposed pricing for SCAR orders are intended to recoup the Exchange's costs associated with providing routing services while providing incentives to members to make use of the Exchange's optional routing functionality. As discussed above, the Exchange believes that its proposed pricing remains competitive with other equity exchanges.<sup>22</sup> In addition, because the Exchange's routing services are the subject of competition, including price competition, from other exchanges and broker-dealers that offer routing services, as well as the ability of members to use their own routing capabilities, it is likely that the Exchange will lose market share as a result of the changes if they are unattractive to market participants. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.
