Joint Industry Plan; Order Approving Joint Amendment No. 24 to the Plan for the Purpose of Creating and Operating an Intermarket Option Linkage Regarding Elimination of the Class Gate

I. Introduction

In Joint Amendment No. 24, the Participants propose to eliminate the “Class Gate” restriction on Principal Order (“P Order”) access through the Linkage. The proposed Joint Amendment No. 24 was published in the Federal Register on October 12,

---

The Commission received no comments on Joint Amendment No. 24. This order approves Joint Amendment No. 24.

II. Description of the Proposed Amendment

In Joint Amendment No. 24, the Participants proposed to modify Section 7(a)(ii)(C) of the Linkage Plan so as to eliminate the Class Gate restriction on P Order access through the Linkage. Currently, Section 7(a)(ii)(C) of the Linkage Plan provides that, once a Participant automatically executes a P Order in a series of an Eligible Option Class, it may reject any other P Orders sent in the same Eligible Option Class by the same Participant for 15 seconds after the initial execution unless there is a price change in the receiving Participant’s disseminated offer (bid) in the series in which there was the initial execution and such price continues to be the NBBO. After the 15 second period, and until the sooner of one minute after the initial execution or a change in its disseminated offer (bid), Section 7(a)(ii)(C) provides that the Participant that provided the initial execution is not obligated to execute any P Orders received from the same Participant in the same Eligible Option Class in its automatic execution system. In Joint Amendment No. 24, the Participants proposed to eliminate the Class Gate restriction because all Participants have removed restrictions on non-customer access to the automatic execution systems, rendering the Class Gate restriction unnecessary.

III. Discussion and Commission Findings

After careful consideration of Joint Amendment No. 24, the Commission finds that approving Joint Amendment No. 24 is consistent with the requirements of the Act and the rules and regulations thereunder. Specifically, the Commission finds that Joint Amendment No. 24 is

---

consistent with Section 11A of the Act\textsuperscript{5} and Rule 608 thereunder\textsuperscript{6} in that it is appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets. The Commission recognizes that, at the time of the creation of the Linkage, certain Participants had restrictions on non-customer access to their automatic execution systems. The Class Gate provision served to protect those Participants that did not limit non-customer access against being obligated to automatically execute an unlimited number of P Orders. Since the implementation of the Linkage, all Participants have removed restrictions on non-customer access to their automatic execution systems. All of the exchanges, therefore, allow access to their trading platforms orders on behalf of non-member market makers. The Commission believes that the greater access to automatic execution systems has rendered the Class Gate provision unnecessary and that eliminating the Class Gate provision should facilitate the more efficient operation of the options markets.

IV. Conclusion

IT IS THEREFORE ORDERED, pursuant to Section 11A of the Act\textsuperscript{7} and Rule 608 thereunder,\textsuperscript{8} that Joint Amendment No. 24 is approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.\textsuperscript{9}

Florence E. Harmon
Deputy Secretary
