Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that March 31, 2011, New York Stock Exchange LLC (“NYSE” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend NYSE Rule 128, which governs clearly erroneous executions, to extend the effective date of the pilot by which portions of such Rule operate, until the earlier of August 11, 2011 or the date on which a limit up/limit down mechanism to address extraordinary market volatility, if adopted, applies. The pilot is currently scheduled to expire on April 11, 2011.⁴

On September 10, 2010, the Commission approved, on a pilot basis, market-wide amendments to exchanges' rules for clearly erroneous executions to set forth clearer standards and curtail discretion with respect to breaking erroneous trades. In connection with this pilot initiative, the Exchange amended NYSE Rule 128(c), (e)(2), (f), and (g). The amendments provide for uniform treatment of clearly erroneous execution reviews (1) in Multi-Stock Events⁵ involving twenty or more securities, and (2) in the event transactions occur that result in the issuance of an individual security trading pause by the primary market and subsequent

⁵ Terms not defined herein are defined in NYSE Rule 128.

transactions that occur before the trading pause is in effect on the Exchange.⁶ The amendments also eliminated appeals of certain rulings made in conjunction with other exchanges with respect to clearly erroneous transactions and limited the Exchange's discretion to deviate from Numerical Guidelines set forth in the Rule in the event of system disruptions or malfunctions.

If the pilot were not extended, the prior versions of paragraphs (c), (e)(2), (f), and (g) of Rule 128 would be in effect, and the NYSE would have different rules than other exchanges and greater discretion in connection with breaking clearly erroneous transactions. The Exchange proposes to extend the pilot amendments to NYSE Rule 128 until the earlier of August 11, 2011 or the date on which a limit up/limit down mechanism to address extraordinary market volatility, if adopted, applies in order to maintain uniform rules across markets and allow the pilot to continue to operate without interruption during the same period that the Rule 80C trading pause rule pilot is also in effect. Extension of the pilot would permit the Exchange, other national securities exchanges and the Commission to further assess the effect of the pilot on the marketplace, including whether additional measures should be added, whether the parameters of the rule should be modified or whether other initiatives should be adopted in lieu of the current pilot.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)⁷ of the Act, in general, and furthers the objectives of Section 6(b)(5)⁸ in particular in that it is designed to prevent fraudulent

⁶ Separately, the Exchange has proposed extend the effective date of the trading pause pilot under NYSE Rule 80C, which requires to the Exchange to pause trading in an individual security listed on the Exchange if the price moves by 10% as compared to prices of that security in the preceding five-minute period during a trading day. See SR-NYSE-2011-16.

and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. More specifically, the NYSE believes that the extension of the pilot would help assure that the determination of whether a clearly erroneous trade has occurred will be based on clear and objective criteria, and that the resolution of the incident will occur promptly through a transparent process. The proposed rule changes would also help assure consistent results in handling erroneous trades across the U.S. markets, thus furthering fair and orderly markets, the protection of investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6)(iii) thereunder.¹⁰ The Exchange has asked the Commission to waive

⁹ 15 U.S.C. 78s(b)(3)(A).

the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver will allow the pilot program to continue uninterrupted and help ensure uniformity among the national securities exchanges and FINRA with respect to the treatment of clearly erroneous transactions.¹¹ Accordingly, the Commission waives the 30-day operative delay requirement and designates the proposed rule change as operative upon filing with the Commission.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments
